Description

EE Form XXX.X
XX/2015

OMB Control #: 1910-NEW
Exp. Date: XX/XX/XXXX

The U.S. Department of Energy's (DOE) Race to Zero Student Design Competition is engaging college students to become part of a new leadership movement to achieve truly sustainable homes. This competition will help to provide the next generation of architects, engineers, construction managers, and entrepreneurs with skills and experience in integrating advanced home designs with building science principles. This experience will help launch careers in clean energy and generate creative solutions to real-world problems. The competition will culminate April 18-20, 2015, with student representatives defending their solutions and designs to panels of experts during the judging event and awards ceremony at the National Renewable Energy Laboratory in Golden, Colorado.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Office of the Chief Information Officer, Records Management Division, IM-23, Paperwork Reduction Project (1910-XXXX), U.S. Department of Energy, 1000 Independence Ave SW, Washington, DC, 20585-1290; and to the Office of Management and Budget (OMB), OIRA, Paperwork Reduction Project (1910-XXXX), Washington, DC 20503.
