The Board may seek input from users or potential users of Board's public website on questions such as the following:

- Did you find the content and layout relevant and of value?
- How did you find the content you were looking for?
- Was the navigation useful?
- How did you learn about the content?
- How did you access the content? (e.g.: paper copy distributed at an event, online, or mobile device). If online or through a mobile device, was the document printed, viewed on a tablet, or on a computer screen?
- What suggestions do you have for improving the format and appearance of online presentation? (e.g.: readability - font size, charts, and graphs; organization of information; and navigating - indexing, search tools, and links)
- What other information would be of value to enhance the online tool or information?
