### **Information Collection Instrument- Household Introduction Assessment on Public Knowledge, Attitudes, and Practices Relating to Ebola Virus Disease (EVD) Prevention and Medical Care in Guinea**

#### **Statement regarding Assessment Participation**

Hello. My name is \_\_\_\_\_.

I am working with Santé Plus Guinea to gather information on how people feel about the work that has been done around the country to fight Ebola disease. Sante Plus Guinea is a non-governmental organization led by Guinea professionals who are working on public health issues. Many people across the country will have the opportunity to voice their thoughts about Ebola and to help us to better understand what people know, think, and do to protect themselves from Ebola.

The information gathered from these interviews will help us, civil society organizations, health partners, and even Guinea government health professionals to provide people accurate information on to help stop Ebola and protect the residents of your community.

The opinions of individual community members are very important. We would like to ask you a few questions about your thoughts regarding the risk of Ebola, what information you have received about Ebola, and any concerns you have about Ebola activities in your area. Then we would like to answer questions you may have about Ebola. In total, the interview will take about 35 minutes.

Sante Plus will keep all the information you share with us private - meaning that we will not link your name in any reports or identify you as the respondent in any other way. Your participation in this assessment is voluntary, and you will not be paid. You may choose to stop answering questions at any point or refuse to answer questions you do not feel comfortable responding to. There are no right or wrong responses. Therefore we encourage you to be honest and truthful in your responses so that we can accurately understand the on-the-ground situation.
