

**SUPPORTING STATEMENT
(Form 4419)
OMB 1545-0387**

• **CIRCUMSTANCES NECESSITATING COLLECTION OF INFORMATION**

According to 26 U.S.C. 6041-6043, 6047, 6049 and 6109, all persons engaged in a trade or business, and making certain payments of taxable income must file reports of this income to IRS. Payers may file the information returns as paper documents or electronically. However, to file electronically, the payer must complete and submit an application on Form 4419 and receive prior approval from IRS. Prior approval is required so we can determine if the electronic file is compatible with IRS equipment.

An information return is a tax document used to report certain types of payments made by financial institutions and others who make payments as part of their trade or business as required by Internal Revenue Code Regulations. Forms 1042-S, 1097, 1098, 1099, 3921, 3922, 5498, 8027, 8955-SSA, and W-2G may be filed electronically via the (Filing Information Returns Electronically ([FIRE](#)) system. Forms 1095 are filed through the Affordable Care Act Information Return (AIR) system.

• **USE OF DATA**

Information on the Form 4419 is analyzed by IRS employees to ensure the electronic filer will submit media compatible with IRS equipment. This information is necessary before an applicant can be authorized to file. After the application is approved, a Transmitter Control Code, which is used to schedule and manage the files, is assigned.

Anyone with a FIRE Transmitter Control Code (TCC) who is required to submit the information returns listed above (except Forms 1095) can file electronically through FIRE. The law requires any corporation, partnership, employer, estate and/or trust, who is required to file 250 or more information returns for any calendar year, **must** file electronically. IRS encourages filers who have less than 250 information returns to file electronically as well.

Form 4419 can be filed electronically.
