## Introduction

This publication presents 2013 potato estimates of acreage, yield per acre, production, farm disposition, season average price, value, and utilization of sales including processing with historic comparisons. Also included are first of the month potato stocks (December through June) for the 13 major fall potato producing States. Monthly prices, farm marketings, percent of acreage planted by type, and certified seed acres are also included for selected States. Production, disposition, and value data for Alaska are shown separately.

These estimates are based on information furnished by crop reporters, processors, and cooperating State or Federal Agencies. The various sources include: Market News Service rail and truck shipments, Federal-State inspections, and miscellaneous data available through marketing programs.

Price estimates represent average returns to growers for all uses and for all methods of sale. These prices are applied to total production to compute value of production and to the quantity sold to compute value of sales. Some unsold potatoes contribute to the value of production, including farm use for seed, feed, home use, and loss. The United States season average price is obtained by weighting State prices by quantities sold.

Potato production, utilization, and value of sales in each State have been classified by season according to the period when the largest supplies are harvested.

The four seasons are as follows:

<b>Season</b>	<b>Usual Time of Harvest</b>
Winter	January through March
Spring	April through June
Summer	July to Mid-September
Fall	August through November

A crop year is associated with the calendar year in which harvest is accomplished. Seasons are not fixed dates but are approximations because of overlapping harvests. Generally, the marketing season closely follows harvest except for fall potatoes, when marketing from storage may extend through August of the following year. Thus, the marketing year for fall potatoes is from the start of harvest through August of the following year.

## 2013 Potato Production Down 6 Percent

Potato production in 2013 is revised to 435 million cwt, down 1 percent from the estimate in the January *Crop Production 2013 Summary* and 6 percent below the 2012 crop. Harvested area, at 1.05 million acres, is down 7 percent from 2012. The average yield of 414 cwt per acre is up 5 cwt from the previous year.

Spring potato final production for 2013 is 22.1 million cwt, 17 percent below the previous year. Texas Spring Potato production was discontinued in 2013, and now that production value is included in the summer total for Texas. Harvested acres, at 72,900 acres, decreased 23 percent from 2012. The average yield for spring potatoes is 304 cwt per acre, up 21 cwt from 2012. Summer potato production is 17.2 million cwt for 2013, a 5 percent decrease from 2012. Colorado Summer production estimates were discontinued in 2013 and are now being included in the Fall total for Colorado. Harvested area, at 47,500 acres, is down 2 percent from 2012. The average yield of 363 cwt per acre is down 10 cwt from 2012. Fall potato production is finalized at 395 million cwt for 2013, down 5 percent from the 2012 crop. Area harvested in 2013 is 930,500 acres, down 6 percent from the previous year. The average fall potato yield, at 425 cwt per acre, was up 2 cwt from 2012.

The value of all potatoes sold in 2013, at \$3.93 billion, increased slightly from the previous year. The average price, at \$9.71 per cwt, is up \$1.08 from 2012. The quantity of potatoes sold from the 2013 crop totaled 404 million cwt, down 6 percent from 2012. Sales account for 93 percent of 2013 production, unchanged from the previous year.

Processors used 276 million cwt of raw potatoes from the 2013 crop, down 3 percent from 2012. Table stock sales totaled 104 million cwt, 12 percent below the previous year. Seed sales of 22.4 million cwt are down 5 percent from 2012. Sales for livestock feed, at 1.25 million cwt, decreased significantly from 2012.

Potatoes used for chips and shoestrings totaled 60.2 million cwt in 2013, up 2 percent from the previous year. Frozen french fries and other frozen products utilized 158 million cwt of raw potatoes, down 3 percent from 2012. Potatoes used for dehydrating totaled 47.8 million cwt, down 4 percent from 2012. Canning use, at 1.31 million cwt, is down 47 percent from the previous year. Starch, flour, and other products were made from 8.58 million cwt of potatoes, an 8 percent increase from 2012.

Shrinkage and loss is estimated at 26.2 million cwt for 2013, 8 percent below 2012. Potatoes used for livestock feed on farms where grown and home use totaled 1.11 million cwt, and decreased significantly from the previous season. Growers kept 3.22 million cwt for seed on their own farms, down 2 percent from 2012.

## Potato Utilization – United States: 2011-2013

[Totals may not add due to rounding]

(S) Insufficient number of reports to establish an estimate.

## Statistical Methodology

**Survey Procedures:** Potato estimates are the results of a variety of surveys. Summer and fall potatoes are included in the June and December Quarterly Agricultural Surveys, but also follow Grower Special Surveys. For spring potatoes, March Quarterly Agricultural Surveys and Grower Special Surveys are the source of data. Telephone follow-up of mail survey non-respondents is used to ensure adequate coverage. Special grower disposition surveys are conducted at the end of each season to provide additional details about the crop.

**Estimating Procedures:** Information obtained from the special grower disposition surveys along with federal administrative data is used to establish estimates of acreage, production, amount sold, and usage on farm where grown. These estimates are reviewed for errors, reasonableness, and consistency with historical estimates.

**Revision Policy:** All estimates for the previous crop year can be revised at this time. However, acreage is rarely updated. End-of-season estimates of production are made following harvest and are subject to revision the following year based on a thorough review of all available data.

**Reliability:** Survey results are subject to non-sampling errors such as omission, duplication, imputation for missing data, and mistakes in reporting, recording, and processing the data. These errors cannot be measured directly, but they are minimized through rigid quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

## Information Contacts

Listed below are the commodity statisticians in the Crops Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to [nass@nass.usda.gov](mailto:nass@nass.usda.gov)

Lance Honig, Chief, Crops Branch.....	(202) 720-2127
Jorge Garcia-Pratts, Head, Fruits, Vegetables and Special Crops Section.....	(202) 720-2127
Vincent Davis – Fresh and Processing Vegetables, Onions, Strawberries, Cherries.....	(202) 720-2157
Fred Granja – Apples, Apricots, Plums, Prunes, Tobacco .....	(202) 720-9085
LaKeya Jones – Citrus, Coffee, Grapes, Sugar Crops, Tropical Fruits.....	(202) 720-5412
Greg Lemmons – Berries, Cranberries, Potatoes, Sweet Potatoes .....	(202) 720-4285
Dave Losh – Hops.....	(360) 709-2400
Dan Norris – Austrian Winter Peas, Dry Edible Peas, Lentils, Mint, Mushrooms, Peaches, Pears, Wrinkled Seed Peas, Dry Beans .....	(202) 720-3250
Daphne Schauber – Floriculture, Maple Syrup, Nursery, Tree Nuts .....	(202) 720-4215

## Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: <http://www.nass.usda.gov>
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit <http://www.nass.usda.gov> and in the “Follow NASS” box under “Receive reports by Email,” click on “National” or “State” to select the reports you would like to receive.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: [nass@nass.usda.gov](mailto:nass@nass.usda.gov).

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](#) (PDF), found online at [http://www.ascr.usda.gov/complaint\\_filing\\_cust.html](http://www.ascr.usda.gov/complaint_filing_cust.html), or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at [program.intake@usda.gov](mailto:program.intake@usda.gov).

**USDA Data Users' Meeting**  
**Monday, October 20, 2014**

**Crowne Plaza Chicago-Metro**  
**Chicago, Illinois 60661**  
**312-829-5000**

The USDA's National Agricultural Statistics Service will be organizing an open forum for data users. The purpose will be to provide updates on pending changes in the various statistical and information programs and seek comments and input from data users. Other USDA agencies to be represented will include the Agricultural Marketing Service, the Economic Research Service, the Foreign Agricultural Service, and the World Agricultural Outlook Board. The Foreign Trade Division from the Census Bureau will also be included in the meeting.

For registration details or additional information for the Data Users' Meeting, see the NASS homepage at <http://www.nass.usda.gov/meeting/> or contact Rose Armstrong (NASS) at (202) 720-3896 or at [rose.armstrong@nass.usda.gov](mailto:rose.armstrong@nass.usda.gov).

This Data Users' Meeting precedes the Industry Outlook Conference that will be held at the same location on Tuesday, October 21, 2014. The outlook meeting brings together analysts from various commodity sectors to discuss the outlook situation. For registration details or additional information for the Industry Outlook Conference, see the conference webpage on the LMIC website: <http://www.lmic.info/IOC/>. Or call the Livestock Marketing Information Center (LMIC) at (303) 236-0460.
