available, it is helpful to have the data. The following estimates are published from the December inquiry: State and U.S. acreage, yield and production.

**APRIL** – This form is used in April, after much of the processing has been completed. County data are used at this time to compile official county estimates on acreage, yield, production and average sucrose. Updated acreage, yield and production statistics for each State are also published in the June Crop Production report.

**NOVEMBER** - In November, all data reported in April are returned for your review and update. At that time, the prices paid to growers are also requested. Price per ton and value of production by State are published for the first time. All previously published acreage, yield and production data will be reviewed and updated at this time.

Your efforts and cooperation in providing these data are greatly appreciated.

The information you provide will be used for statistical purposes only. In accordance with the Confidential Information Protection provisions of Title V, Subtitle A, Public Law 107–347 and other applicable Federal laws, your responses will be kept confidential and will not be disclosed in identifiable form to anyone other than employees or agents. By law, every employee and agent has taken an oath and is subject to a jail term, a fine, or both if he or she willfully discloses ANY identifiable information about you or your operation. Response is **voluntary**.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number is 0535-0002. The time required to complete this information collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
