TITLE OF INFORMATION COLLECTION: Stakeholder Training on Examination Practice and Procedure (STEPP) Pilot Program Surveys

PURPOSE: The Stakeholder Training on Examination Practice and Procedure (STEPP) program is designed to provide external stakeholders with a better understanding of how and why an examiner makes decisions while examining a patent application. The goal of the program is to increase examination procedure transparency, provide perspective on what examiners consider when preparing an office action, and aid in compact prosecution by explaining to external stakeholders how examiners use the Manual of Patent Examining Practice to interpret an applicant’s disclosure. The information collection items included in this Fast Track request—an initial interest form, a needs assessment survey, and a course satisfaction survey—allow the United States Patent and Trademark Office (USPTO) to gauge the interest from potential course attendees in a given course and to determine the successes/shortcomings of an offered course following a stakeholder’s completion of the class.

DESCRIPTION OF RESPONDENTS:

Respondents to the information collection items contained within this Fast Track request will be external stakeholders and/or other interested parties from outside the agency who wish to participate and/or have participated in a course offered by the USPTO through the STEPP program.
