

## Attachment 7 – Card Sort

### Instructions

We are going to finish up with an exercise that will give us some great insight into how we can improve pain and opioid questions. In front of you is a stack of cards with pictures and names of some medicines. Please look through the set of cards and then group the medicines that you think are similar and separate the medicines that you think are different. You may make as many groups as you would like, but each group must have more than one medicine, and you have to make three or more groups.

[Note to reviewers: The following is a list of all the medicines that are featured on the cards. The card templates themselves start on the next page. Please note that the card templates show both the front and the back of each card. A picture in the upper right box corresponds to the word on the upper left box when printed. The word will end up on the back of the correct picture.]

<i>Vicodin</i>	<i>Lortab</i>	<i>Norco</i>	<i>Zohydro ER</i>	<i>Hydrocodone (generic)</i>
<i>OxyContin</i>	<i>Percocet</i>	<i>Percodan</i>	<i>Roxicodone</i>	<i>Oxycodone (generic)</i>
<i>Ultram</i>	<i>Ultram ER</i>	<i>Ultracet</i>	<i>Tramadol (generic)</i>	<i>Extended-release tramadol (generic)</i>
<i>Tylenol with codeine</i>	<i>Codeine (generic)</i>	<i>Avinza</i>	<i>Kadian</i>	<i>MS Contin</i>
<i>Morphine (generic)</i>	<i>Extended-release morphine (generic)</i>	<i>Duragesic</i>	<i>Fentora</i>	<i>Fentanyl (generic)</i>
<i>Suboxone</i>	<i>Buprenorphine (generic)</i>	<i>Buprenorphine plus naloxone (generic)</i>	<i>Opana</i>	<i>Opana ER</i>
<i>Oxymorphone (generic)</i>	<i>Extended-release oxymorphone (generic)</i>	<i>Demerol</i>	<i>Dilaudid or hydromorphone</i>	<i>Exalgo or extended-release hydromorphone</i>
<i>Methadone</i>	Tylenol	Acetaminophen	Ibuprofen	Advil
Motrin	Advil PM	Tylenol PM	Aspirin	Naproxen
Alieve				

**Vicodin**

**Lortab**

**Norco**

**Zohydro ER**

**Hydrocodone**

**OxyContin**

**Percocet**

**Percodan**

**Roxicodone**

**Norco**

**Lortab**

**Vicodin**

**OxyContin**

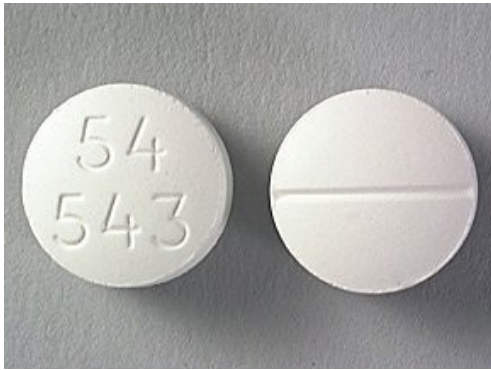

**Hydrocodone**

**Zohydro ER**

**Roxicodone**

**Percodan**

**Percocet**

**Oxycodone**

**Ultram**

**Ultram ER**

**Ultracet**

**Tramadol**

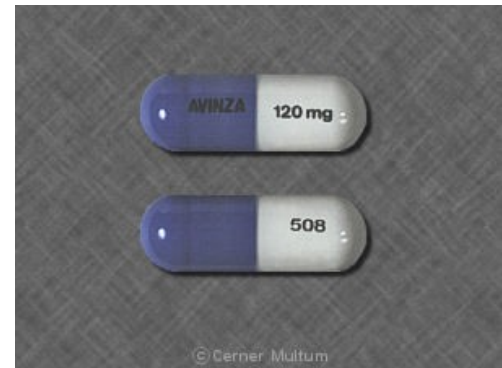

**Tramadol ER**

**Tylenol with Codeine**

**Codeine**

**Avinza**

**Ultram ER**

**Ultram**

**Oxycodone**

**Tramadol ER**

**Tramadol**

**Ultracet**

**Avinza**

**Codeine**

**Tylenol with  
Codeine**

**Kadian**

**MS Contin**

**Morphine**

**Morphine ER**

**Duragesic**
