The following questions ask for information to help inform planning for future waves of NSLTCP.

34. The National Center for Health Statistics (NCHS) links person-level survey data with health records from other data sources, such as Medicare or Medicaid data. Linking allows NCHS to better understand the services participants of centers use. In order to link data in future surveys, we would need the information below about your current participants. We would use this information for research purposes only. Federal laws authorize NCHS to ask for this information and require us to keep it strictly private.

To help NCHS plan for future surveys, please answer the following questions: For **each item** below, in **Column 1**, indicate **whether or not this center has this information about its current participants**. For **each "yes" in Column 1**, in **Column 2**, indicate **whether or not this center is willing to provide this information** about participants.
