

Help CLSI and the CDC

CLINICAL AND
LABORATORY
STANDARDS
INSTITUTE®

CLSI and the CDC are collecting information about awareness of laboratory practice guidelines (LPGs) and to identify barriers to their implementation.

Mark Your Calendar!

You will receive access to the survey within the next **4–6 weeks**.

The mark 'CDC' is owned by the US Dept. of Health and Human Services and is used with permission. Use of this logo is not an endorsement by HHS or CDC of any particular product, service, or enterprise.

Participation in this study is voluntary and responses will be anonymous. CLSI will collect and analyze the data and share with CDC.

Who is conducting this study and why?

The Clinical and Laboratory Standards Institute (CLSI) and the Centers for Disease Control and Prevention (CDC) are conducting this study to find various ways to improve the impact of LPGs on health care.

Why were we selected to participate?

Your facility may potentially perform point-of-care fingerstick glucose testing.

Who should complete this survey?

The individual at your site who is responsible for developing your fingerstick glucose testing procedures should complete it.

Why should we respond to this survey?

You can provide valuable information to help CLSI improve the dissemination and implementation of its LPGs, and to improve the quality of care provided to all patients in any health care setting.
