Specification Type	SpecWriter Category / Item Tag for Roster Pop Up Specs	Under 9381\ Project Documents\WVS\ Specification Releases\ General Specifications\ VERSION#	Description of File
WVS General Specifications	N/A		<p>Master General Specification:</p> <ol style="list-style-type: none"> 1. Specification Terminology 2. Database Notation and Database "Deleted" flags. 3. Specification Items 4. Specification Standards 5. Roster Requirements <p>1. Includes an overview of each section, including Roster patterns * Specification in progress.</p> <ol style="list-style-type: none"> 1. Summary of WVS page layout 2. List of each screen type with required specifications 3. Sample WVS SpecWriter Specifications per screen type * Specification in progress. 1. Summaries components of the questionnaire 2. Specifies the order sections are administered in the questionnaire 3. Includes an overview of collecting COST data in ST, PS, NS, CPS. <ol style="list-style-type: none"> 1. Respondent Display fills, such as "[you/(SP)]". 2. Reference Period Date Displays 3. General Date Displays 4. Plan Status Displays 5. Event Displays 6. COST Series Displays 7. Event and COST Context Header Displays 8. Claim Control Number Displays 9. Charges and Amounts remaining Displays 10. Person and Plan name Displays 11. IA custom Display fills. 12. Address and Phone number Displays. <p>A quick reference document, summarizing the more common default specifications outlined in the general specifications</p> <ol style="list-style-type: none"> 1. Summary of Reference periods and previous round 2. Date Entry and Display formats 3. Date Edit logic, summarizes when dates should not invoke edits due to DK and RF. 4. Specifications for setting ORP flag 5. Logic for checking overlapping and matching dates 6. Date calculation logic <ol style="list-style-type: none"> 1. Overview of Chesh+D4ire Segments, record key struc+D17ture, and corresponding section in Questionnaire. 2. Summary of critical fields used to test complex routing in Questionnaire * Specification in progress. <p>Detailed Listing of Fields to be recorded using CARI system in a given round.</p> <ol style="list-style-type: none"> 1. Includes Attachments referenced in Section Specs. <p>Summaries Specification document filenames and content.</p> <p>Sttate Plan Name attachment</p> <p>CARI field specifications</p> <p>Specification update release notes.</p>
Background Variables	BKV BckVariables	Background Variables\ VERSION#	<p>Background variable item specifications for all fields which are set in the background at a specific question or box and is not an input field.</p>

MCBS WVS R67 GENERAL SPECIFICATIONS FOR BAISE/WVS

Specification Release Files

Version # 19.01.0001

Specification Type	SpecWriter Category / Item Tag for Roster Pop Up Specs	Under 9381\ Project Documents\WVS\ Specification Releases\	Description of File
Event Roster Begin Date RV	EVA EventRosterA	Event Roster Begin Date RV\ VERSION#	Specification update release notes. Specifications that define the Event Roster Pop-Up Window with Repeat Visit input display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Event Roster Pop-Up window with Repeat Visit input. Specification update release notes.
Event Roster Begin Date	EVB EventRosterB	Event Roster Begin Date\ VERSION#	Specifications that define the Event Roster Pop-Up Window without Repeat Visit input display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Event Roster Pop-Up window without Repeat Visit input. Specification update release notes.
Prescription Medicine Roster	PMR PMRoster	Prescription Medicine Roster\ VERSION#	Specifications that define the Prescription Medicine Roster Pop-Up Window display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Prescription Medicine Roster Pop-Up window. Specification update release notes.
Person Roster	PER PersonRoster	Person Roster\ VERSION#	Specifications that define the Person Roster Pop-Up Window display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Person Roster Pop-Up window. Specification update release notes.
Provider Roster	PRV ProviderRoster	Provider Roster\ VERSION#	Specifications that define the Provider Roster Pop-Up Window display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Provider Roster Pop-Up window. Specification update release notes.
Plan Roster	PLN PlanRoster	Plan Roster\ VERSION#	Specifications that define the Plan Roster Pop-Up Window display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Plan Roster Pop-Up window. Specification update release notes.
Statement Event Roster	STA STEvent	Statement Event Roster\ VERSION#	Specifications that define the Statement Event Roster Pop-Up Window display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Statement Event Roster Pop-Up window. Specification update release notes.
Statement Event Edit Roster	STB STEventEdit	Statement Event Edit Roster\ VERSION#	Specifications that define the Statement Event Edit Roster Pop-Up Window display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Statement Event Roster Pop-Up window. Specification update release notes.
Statement OM Edit Roster	STC STOMEdit	Statement OM Edit Roster\ VERSION#	Specifications that define the Statement OM Roster Pop-Up Window display and an overview of input variables, routing and background variables Input variable item specifications and routing for variables collected in the Statement OM Roster Pop-Up window. Specification update release notes.
SOP Roster	SOP SOPRoster	SOP Roster\ VERSION#	Specifications that define the Source of Payment Roster Pop-Up Window display and an overview of input variables, routing and background variables
