## Estimate Your Earnings for 2014 and 2015

We have put together a list of questions that will help you update your earnings estimate. Please answer them carefully. Before you answer our questions, we want to talk briefly about how to estimate your earnings.

### How to Estimate Your Earnings

It may not be easy for you to figure ahead of time how much you will make in 2014 and 2015. However, if you keep these pointers in mind, you should have no problem.

- If you are paid wages, base your estimate on what you expect to earn before taxes or other deductions for the whole year. Be sure to include bonuses, vacation pay, sick pay, tips of \$20 or more a month, and any contribution that you make from your salary to a tax deferred savings plan.
- Drop from your estimate any money you will get from your employer this year for work you did last year or before. Also, do not include:
  - Social Security, railroad or civil service retirement, veterans, black lung, or public assistance benefits
  - Pensions and other retirement payments which are not reported on your W-2 form
  - Investment income
  - Interest from savings accounts
  - Life insurance annuities and dividends
  - Gifts or inheritances
  - Gain (or loss) from the sale of capital assets
  - Rental income
  - Unemployment or worker's compensation
  - Jury duty payments
- If you are self-employed, base your estimate on what you think your net earnings will be—just like on your tax return. If you became entitled to Social Security benefits **before 2014**:
  - Do not include in your estimate any Federal agricultural program payments you expect in 2014; and
  - Do not include self-employment income received in 2014 from carry-over crops for work you did **before** you became entitled to Social Security benefits.
- If you get both wages and income from self-employment, add the two amounts together. The total is your estimate.

**(OVER)**

- **You will reach full retirement age in JANUARY 2017.**

Beginning with the month of full retirement age, the earnings limit no longer applies. If you will reach full retirement age in **January 2015**, you do not have to complete question 5 regarding your earnings for 2015.

People who reach full retirement age in February through December 2015 should exclude from their estimate of yearly earnings for 2015 any wages earned in the month they reach full retirement age and all following months. You should prorate self-employment income based on the number of months under full retirement age. That is, divide expected net earnings (or loss) for 2015 by the number of months of self-employment and multiply this result by the number of months in 2015 before you reach full retirement age.

Now, you are ready to answer the following questions about your earnings. Again, it is important for us to hear from you.

**1. Earlier, you told us you will earn \$32,659 this year.  
How much do you now think you will earn in 2014?**

Show your earnings for the whole year, including amounts you will earn both before and after you filed for Social Security benefits.

Show your answer in the space below. Use dollar amounts only; round cents to the nearest whole dollar.

**Your Monthly Earnings.**

So far you have figured out how much you plan to earn in 2014. Now you need to go back and estimate how much you will earn each month. We need to know this because we pay you based on how much you will earn each month.

It works like this. Usually, if you make more than the earnings limit, which in 2014 is \$15,480, we have to hold back some of your Social Security. However, if we know how much you plan to earn in each month in 2014 we may be able to pay you more.

The same is true of self-employed people. The difference is that we will need to know how many hours you work in each month, instead of the amount of money you will earn.

For the following months in 2014, you previously told us that you will not earn over \$1,290 and will not work over 45 hours in self-employment.

NONE (THIS MEANS THAT OUR RECORDS INDICATE YOU ARE WORKING IN EVERY MONTH IN 2013)

**2. Place an "X" in the box under each month when you will earn \$1,290 or less. Do not put an "X" in the box for months you will earn more than \$1,290.**

Please go on to the next question.

**3. If you are self-employed, enter how many hours you will work in each month for 2014. Enter “0” if you will not work any hours for that month. Be sure to show hours for each month for the whole year.**

For example - if you work 22 hours, enter the hours as follows:

0	2	2
---	---	---

If you work 0 hours, enter the hours as follows:

		0
--	--	---

JAN	FEB	MAR	APR	MAY	JUN

**Your Retirement Plans**

To help us make sure that we understand your answers, we would like to know if you have retired, or if you plan to retire this year.

**4. Have you retired, or do you plan to retire in 2014?**

If you retired, or plan to retire from your regular (full-time) employment in 2014, answer “YES” to this question even if you work or plan to work part-time.

Show an “X” in the box next to your answer.

**NO**, I have not retired and I am not going to retire this year.

**YES**, I have retired, or plan to retire this year.

If you answered “yes”, please show your **retirement date** in the space below.

**Month / Day / Year**

**Please answer question 5 on the next page.**

**Our Last Question**

If you will reach full retirement age in January 2015, you do not have to complete this question.

Our last question is about your earnings in 2015. Please look ahead and estimate how much you plan to earn next year. We will use this information to decide how much we can pay you in 2015.

- If you do not plan to work in 2015, show "0" as your estimated earnings amount.
- If you will attain full retirement age in 2015, include only your earnings prior to the month you become full retirement age.

**You must answer this question. If you do not enter an amount in question 5, we will use your estimate for 2014 to decide how much to pay you in 2015.**
