SUPERVISOR/HV COMBO 12 MONTH SURVEY

The U.S. Department of Health and Human Services has contracted with MDRC to evaluate the federal Maternal, Infant and Early Childhood Home Visiting program (MIECHV).

The Mother and Infant Home Visiting Program Evaluation (MIHOPE) is designed to build knowledge for policymakers and practitioners about the effectiveness of MIECHV.

One objective of MIHOPE is to learn about the role of supervisors in home visiting programs.

We are requesting that you complete this survey because you are a supervisor in one of the home visiting programs participating in MIHOPE. Your answers will help us to understand your role in the home visiting program and your perspective on the home visiting program.

Your answers will be kept private to the extent allowed by law. Only the research team will have access to this information. Your answers will not be shared with anyone at your program or any other agencies. In our research reports, the information you provide will not be attributed by name to you or your individual program.

The survey will begin on the next page.

- It will take about 1 hour and 45 minutes to complete this survey.
- If you are unsure how to answer a question, please give the best answer you can rather than leaving it blank.
-
- If you have questions at any time during the study, please call MDRC toll-free at 1-877-305-6372 or email mihope@mdrc.org.
- To thank you, we will be sending you a gift card for \$40.

R. ORGANIZATIONAL SOCIAL CONTEXT MEASURE

This is a copyrighted measure. © The University of Tennessee Children’s Mental Health services Research Center, 2006. Organizational Social Context (OSC). The scale may not be used without the express written consent of the Children’s Mental Health Services Research Center.

Please answer all items. If an item does not completely apply to your situation, try to select the closest or best answer from the alternatives given. Please feel free to interpret the item in the best way you see fit. When considering your responses, please think about how each statement applies to your home visiting agency.

S. PROGRAM OUTCOMES

Instructions: In this section, we would like to learn how *staff members* perceive their program’s intended outcomes. In general, a *program outcome* is a benefit to a child, parent, or family. For example, some programs might see the improvement of prenatal health as an important outcome.

Below is a list of possible outcomes for home visiting programs. We know your program may care about all of these benefits for your families. However, we would like to get a sense of which outcomes you think **your program** believes may be more important than others. We would like you to check the box that best represents what you think your program believes about the outcome.

To help you decide on an outcome’s rank, think about whether it is discussed routinely in training and supervision. Think about what staff in your agency are told about its importance. Check the box that best describes your program’s ranking of this outcome.

1. Considering all of the outcomes your program aims to achieve, how much of a priority is promoting good prenatal health, such as diet, exercise, rest, and not smoking?

CC. Factors for Service Delivery

The following questions are about your role as a home visitor. Each question has 7 response choices between two opposite ends of the spectrum. Please choose the response anywhere along the spectrum which is closest to how you feel.

For example, if you feel that there is usually enough time in visits to do everything you are expected to do, you should answer as below:

There is too little time in a home visit to do all the things that my program expects me to do.

I often have to search for things to do in order to fill up an hour.

1. 1. There is too little time in a home visit to do all the things that my program expects me to do.

I often have to search for things to do in order to fill up an hour.

2. There is too little time in one-on-one supervision to do all the things that my program expects me to do.

I often have to search for things to do in order to fill up an hour of one-on-one supervision.
