The Assistant Secretary of the Interior for Land and Minerals Management has approved the BLM's application. Therefore, this document constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1–3(e)).

The purpose of the proposed withdrawal of the Sagebrush Focal Areas in Priority Habitat Management Areas is to protect the Greater Sage-Grouse and its habitat from adverse effects of locatable mineral exploration and mining subject to valid existing rights.

The use of a right-of-way, interagency or cooperative agreement, or surface management by the BLM under 43 CFR part 3715 or 43 CFR part 3809 regulations or by the Forest Service under 36 CFR part 228 would not adequately constrain nondiscretionary uses, which could result in loss of critical sage-grouse habitat.

There are no suitable alternative sites for the withdrawal.

No water rights would be needed to fulfill the purpose of the requested withdrawal.

Records relating to the application may be examined by contacting the BLM offices listed above.

For a period until December 23, 2015, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the BLM Director, 1849 C Street NW., (WO–210), Washington, DC 20240, or electronically to sagebrush_withdrawals@blm.gov.

All comments received will be considered before any final action is taken on the proposed withdrawal.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the EIS. At present, the BLM has identified the following preliminary issues: Air quality/climate, American Indian resources, cultural resources, wilderness, mineral resources, public health and safety, recreation, socio-economic conditions, soil resources, soundscapes, special status species, vegetation resources, visual resources, water resources, and fish and wildlife resources.

Because of the nature of a withdrawal of public lands from operation of the mining law, mitigation of its effects is not likely to be an issue requiring detailed analysis. However, consistent with Council on Environmental Quality regulations implementing NEPA (40 CFR 1502.14), the BLM will consider whether and what kind of mitigation measures may be appropriate to address the reasonably foreseeable impacts to resources from the approval of this proposed withdrawal.

The BLM will utilize and coordinate the NEPA scoping process to help fulfill the public involvement process under the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts to Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed withdrawal that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be

requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

Comments including names and street addresses of respondents will be available for public review at the BLM Washington Office at the address noted above, during regular business hours Monday through Friday, except Federal holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

For a period until September 24, 2017, subject to valid existing rights, the lands described in this notice will be segregated from location and entry under the United States mining laws, unless the application/proposal is denied or canceled or the withdrawal is approved prior to that date. Licenses, permits, cooperative agreements, or discretionary land use authorizations may be allowed during the temporary segregative period, but only with approval of the authorized officer of the BLM or the USFS.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.
