You are invited to participate in this survey for the Department of Labor because you are currently working on a farm. The purpose of the survey is to learn more about the employment, living conditions, and the health of farm workers.

#### PROCEDURES TO BE FOLLOWED

You will be asked to answer some questions about your work history and about your health. The interview will last approximately 60 minutes.

#### **RISKS**

Since we will only be asking you questions, there is very little risk to you as a result of being in the survey. You may refuse to answer any question at any time, with no penalty.

#### **BENEFITS**

There are no direct benefits to you from being in the survey. Information obtained through this research, however, may help federal, state, and private farm worker programs improve services to workers like you.

#### **PRIVACY**

Your answers to the interview will be kept private to the extent allowed by law. This means that the interview record will be kept in a locked file, and only researchers on the survey will be allowed to see it. Your name will not appear on any reports about the survey. (See back of page for details.)

## **ALTERNATIVES TO PARTICIPATION**

Participating in this survey is voluntary and you can quit at any time. You can also choose not to participate in any part of the interview at any time, with no penalty. Whether or not you participate in this survey will not affect benefits and services to which you are normally entitled. You will be paid for the time you are spending in this interview. At any time, you may ask the researchers to explain any part of the survey.
