The survey will be deployed to targets via Survey Monkey. Here is a link to the survey in Survey Monkey for evaluation purposes: <u>https://www.surveymonkey.com/r/PFNZWPR</u>.

The first page of the survey contains the Paperwork Reduction Act (PRA) statement and an introduction to provide context for the survey. The first page of the survey is too large for a single screenshot. The first page of the survey spans the following two screenshots.

| • | • | Survey | Monkey | Design | : SLA \odot SLACK Integrations v3 S \times + \vee | | | | - | ٥ | × |
|--------------|---------------|------------|--------|--------|---|---|---|----|---|---|---|
| \leftarrow | \rightarrow | \bigcirc | 仚 | A | surveymonkey.com/r/PFNZWPR | Ш | ☆ | ∽≣ | h | Ŕ | |
| | | | | | A SLACK viability assessment was conducted to consider whether the NASA.SLACK.COM pilot can be certified for operational use for EXTERNAL collaboration and LOW impact data. It was determined that the pilot can be made operational under certain conditions: | | | | | | ^ |
| | | | | | All Integrations [e.g. GitHub, Box, G Suite, ToDo, JIRA, BitBucket] will require IT Security approval before being implemented. An Integration is required to share files in a SLACK channel. The Add File feature will force the use of an approved Integration, and the ability to directly copy and store files in a SLACK channel must be disabled due to security concerns. | | | | | | ļ |
| | | | | | The goal of this survey is to identify Integrations that are required and add value for NASA SLACK users. The Integrations obtained through this survey will assessed by IT security to determine whether they can be included in the roll out of SLACK as baseline functionality should NASA.SLACK.COM transition from pilot to operationally approved use. | | | | | | |
| | | | | | Integrations are a distinguishing capability of SLACK, and for many users, the full value of SLACK can only be achieved through Integrations. | | | | | | |
| | | | | | Please help us understand your Integration requirements, and any use-cases to help justify the requirement. | | | | | | |
| | | | | | Next | | | | | | |

The third question will determine whether the next page (with three question) is relevant. If the answer is 'yes', then the following page with questions 4-6 (screenshots below) will be displayed. If the answer is 'no' then question 7 will be displayed.
