### **VA HEALTH CARE**

As a person who has been determined to have a covered birth defect, you may receive care from any health care provider licensed or otherwise authorized to deliver health care related services in your state. VA will pay for health care relating to your disability or a condition associated with it, but not for other conditions. Payments are made directly to the health care provider based on an itemized bill submitted to the VA Health Administration Center in Denver, Colorado. The Health Administration Center will review and authorize payments.

Pre authorization is required for durable medical equipment, professional counseling, mental health services, training, substance abuse treatment, dental services, transplantation services and travel other than by privately owned vehicles.

Pre-approval may be obtained by contacting the VA Health Administration Center at the number listed below.

If your disability is spina bifida, the Shriners Hospitals for Children have signed an agreement with VA to provide care for eligible children at no cost to VA or the family. If you are interested in receiving care at a Shriners hospital, you should contact the nearest Shriners Hospital for Children at the VA Health Administration Center.
