

Request for Approval under the “Generic Clearance for the Collection of Qualitative Feedback on FDA Service Delivery”
(OMB Control Number: 0910-0697)

A. TITLE OF INFORMATION COLLECTION: Biomarker Qualifications Program

1. PURPOSE:

FDA oversees the Biomarker Qualifications Program to increase transparency and expedite drug approvals. It encourages drug researchers to identify and then qualify biomarkers, or measures of physical health, in a way that other researchers can use them in drug development.

To promote biomarker qualification, FDA has developed a series of communications products, including videos, podcasts and website content. We would like to associate a short online survey with the materials to solicit input that will be used to understand user reactions to the FDA biomarkers material and inform production of subsequent materials. It will not be used for policymaking.

2. DESCRIPTION OF RESPONDENTS:

Responding to the Biomarkers Feedback Survey will be completely voluntary. Respondents will be individuals who access the materials on fda.gov. These individuals will be from industry, government, academia, organizations, and the general public.

3. TYPE OF COLLECTION: (Check one box. If you are requesting approval of other instruments under the generic, you must complete a form for each instrument.)
