# AHRQ Nursing Home Survey on Patient Safety Culture Survey Data File Specifications

These specifications are for preparing your respondent-level data from the Nursing Home Survey on Patient Safety Culture. The instructions below tell you how to prepare your Excel data file for submission to the Nursing Home Survey on Patient Safety Culture Comparative Database.

## **INSTRUCTIONS (Excel File Only):**

**Step 1:** Include a header row with the variable name for each column.

**Step 2:** Submit individual survey response data using the response values indicated in this document (beginning on page 4).

**Step 3:** Check your data before submitting for the following things:

- **OUT-OF-RANGE VALUES**

You should clean your data before submitting to the database to ensure that there are no out-of-range values and that the data submitted are free from error. Make sure all response values match the response value for the question.

- **REVERSE CODED ITEMS**

Do not submit reverse coded data on the survey's negatively worded items—simply submit each individual's unmodified responses to the survey items.

For example, survey item A6, "Staff use shortcuts to get their work done faster" is negatively worded. Regardless, the data should be submitted so that 1=Strongly disagree and 5=Strongly agree, as originally indicated in the survey, as follows:

1=Strongly Disagree  
2=Disagree  
3=Neither  
4=Agree  
5=Strongly Agree  
9= Does Not Apply or Don't Know

- **JOB TITLES/WORK AREAS**

If your hospital modified or added new job title (F1) or work area (F7) categories, you **MUST RECODE** your specific job title/work areas back to the survey's original job title/work area categories. If you added job titles/work areas that do not match any of the survey's original job titles/work areas, re-code your specific job titles/work areas as "OTHER" (F1 = "I", F7 = "E"), before submitting your data.

## Nursing Home Survey on Patient Safety Culture Data File Layout

- **OTHER, PLEASE SPECIFY TEXT**

Do not include Other-Please Specify data (questions F1 and F7, and Section G). While you may find it useful to review this text, it should not be submitted to the Database.

- **SPANISH VERSION OF THE SURVEY**

Please indicate which respondents (if any) completed a Spanish or other language version of the safety culture survey, if you have this information available. You should do so by adding an 'S' (for Spanish) or "N" (for other language) to the Individual Unique Record ID (UNIQUEID) e.g. 001S, 002N

- **OTHER LANGUAGE VERSION OF THE SURVEY**

Please indicate which respondents (if any) completed the safety culture survey in a language that was not English or Spanish, if you have this information available. You should do so by adding an 'N' to the Individual Unique Record ID (UNIQUEID), e.g. 001N.
