¹ A "new QIS" is defined as a QIS that has not been previously submitted to a Marketplace, or is a QIS that is based upon a different market-based incentive(s) and/or topic area(s) than the issuer's previous QIS.

² A new QIS is required if an issuer: changes its QIS market-based incentive type or sub-type, changes its QIS topic area, reaches one or more of its QIS performance targets, the QIS is not having the expected impact, or the QIS results in negative outcomes or unintended consequences.

³ An issuer may continue with an existing QIS even if it changes the following: QIS activities, QIS goals, and/or QIS measures.

15. Current Payment Model(s) Description

Select the category(ies)⁴ of payment models that are used by the issuer across its Marketplace product line. If “Fee for Service – Linked to Quality or Value” AND/OR “Alternative Payment Models Built upon Fee for Service Architecture” is checked, provide the percentage of payments tied to quality or value.

| Payment Model Type | Payment Model Description |
|--|--|
| <input type="checkbox"/> Fee for Service – No Link to Quality or Value | Payments are based on volume of services and not linked to quality or efficiency. |
| <input type="checkbox"/> Fee for Service – Linked to Quality or Value | At least a portion of payments vary based on the quality or efficiency of health care delivery. |
| <input type="checkbox"/> Alternative Payment Models Built upon Fee for Service Architecture | Some payment is linked to the effective management of a population or an episode of care. Payments still are triggered by delivery of services, but there are opportunities for shared savings or two-sided risk. |
| <input type="checkbox"/> Population-based Payment | Payment is not directly triggered by service delivery, so volume is not linked to payment. Clinicians and organizations are paid and responsible for the care of a beneficiary for a long period (e.g., more than one year). |

Provide percentage of payments:

Percentage of Fee for Service payments linked to quality or value: %

Percentage of payments tied to quality or value through alternative payment models: %

⁴ Categories of payment models are defined in Rajkumar R, Conway PH, and Tavenner M. CMS— Engaging Multiple Payers in Payment Reform. JAMA. 311:19. See the *QIS Technical Guidance and User Guide for the 2017 Coverage Year* for examples of payment models within each category.
