SUPPLEMENTARY INFORMATION:**I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA–95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The Standards on Marine Terminals and Longshoring contain a number of collections of information which are used by employers to ensure that employees are informed properly about the safety and health hazards associated with marine terminals and longshoring operations. OSHA uses the records developed in response to the collection of information requirements to find out

if the employer is complying adequately with the provisions of the standards.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Standards on Marine Terminals (29 CFR part 1917) and Longshoring (29 CFR part 1918). The Agency is requesting an increase in its current burden hour estimate from 47,398 hours to 65,694 hours, a difference of 18,296 hours. This increase in the burden hours is due to an increase in longshoring operations from 808 to 871 establishments and an increase in the number of establishments in port and harbor operations from 212 to 525. The Agency will summarize any comments submitted in response to this notice and will include this summary in its request to OMB.
