**TITLE OF INFORMATION COLLECTION:**

Discussion Group: Feedback on Potential Changes to Electronic Loan, Deposit, and Investment Data Collection

**PURPOSE:**

Solicit feedback from impacted parties in the modernization, formalization, and standardization of data formats collected during examinations from the core data processors and offline systems used by credit unions.

**DESCRIPTION OF RESPONDENTS:**

The targeted groups for collection of information are credit unions and their primary vendors. Credit unions gather loan, deposit, and investment data and submit it to the NCUA for examination and supervision purposes. Vendors support credit unions in this effort.

**If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:**

**The selection of your targeted respondents**

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?  
 Yes       No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

To identify the potential pool of credit union respondents, two large industry trade groups provided a list of interested and willing parties. We plan to select credit unions of varying asset sizes that use different core data processing vendors. A range of asset sizes and core vendors will ensure we have a sufficient representation of the populations of potentially impacted credit unions.

To identify the potential group of vendors, we will select among the most widely used credit union providers as these would have the largest impact on the industry based on agency reporting systems and internal knowledge of credit union service providers. The sample will include a variety of offered product types (loan types, share offerings, and investment services).

Targeting these groups will ensure we have sufficient representation of the potentially impacted parties in the credit union industry.
