

## Draft List of EDGAR Respondent Feedback Questions

- o Describe your overall user experience filing documents/submissions on EDGAR. As part of this, address the following:
  - o How often do you access EDGAR
  - o How much time does it take you to submit a filing (aware that this can vary by type of filing, a general time for each of your filings would be fine)
  - o How many different forms do you use?
  - o How do you currently communicate with the SEC?
- o What aspects of the EDGAR filing process are the most challenging/problematic? What are the most significant “pain points”? What aspects of the EDGAR filing system, if any, are “too broken” to repair?
- o What aspects of the EDGAR filing process work well that you would like to see carried over into any new system
- o What do you think be the most important features of a new electronic filing system?
  - Do have any specific recommendations to reduce filer burdens or costs?
  - Are there specific technology-related issues that you would like to see addressed in the new system?
  - In this regard – what are your thoughts on how the following processes work in current EDGAR and any improvements that should be addressed in a new system:
    - Authentication: managing access to file on EDGAR.
    - Submission: submitting information to the SEC.
    - Communication: communicating with the SEC.
- o Do you have any other insights, concerns or comments about the overall filing process or a new electronic filing system?
