Denominator Validation: CLABSI

**Which method was used by this facility for ICU CLABSI denominator (patient days and central line days) counting for this year?

- Manual counting
 Electronic counting
 Both manual and electronic counting

**Has this facility completed an internal validation of ICU CLABSI denominator data for this year? Yes No

Note: Validation of manual denominator data counting requires either:

- *Method A – Concurrent dual counting (with more experienced counter as reference) for ≥ three months OR*
- *Method B – Concurrent patient level data (reference) and standard counting for ≥ three months*

Validation of electronic denominator data counting requires:

- *Method C – Concurrent manual denominator counting (reference) vs. electronic data for ≥ three months*

**If yes, provide the following information for all locations and months validated:

Location of validation	Month of validation	Validation method	Count 1	Count 2
		A, B, or C		
		A, B, or C		
		A, B, or C		
		A, B, or C		
		A, B, or C		

Note:

If Method A is chosen, Count 1 should be "Usual Count" and Count 2 should be "Expert (Referent) Count";

If Method B is chosen, Count 1 should be "Usual Count" and Count 2 should be "Patient-level (Referent) Count";

If Method C is chosen, Count 1 should be "Manual Count" and Count 2 should be "Electronic Count."

Validation of electronic denominator data counting requires:

- *Method C – Concurrent manual denominator counting (reference) vs. electronic data for ≥ three months*

Denominator Validation: MRSA bacteremia LabID event & CDI LabID event (continued)

****Has this facility completed any internal validation of LabID event denominator data counting?**

Yes No

Note: Validation of denominator data counting requires concurrent patient level denominator counting (reference) vs. standard electronic data for three specified location types [one ICU, one LDRP if available, and one or more wards where observation patients are frequently housed] for ≥1 month; validated data should fall within 5% of the reference standard (see validation Guidance and Toolkit Appendix 1).

****If yes, provide the following information for all months validated:**

Location of validation	Month of validation	Admissions		Patient Days	
		Usual count	Manual count	Usual count	Manual count
