Nature of Research Activity:

NHGRI is conducting a two-phase outcome evaluation of the NHGRI Summer Workshop in Genomics, Short Course, an intensive, four-day course is designed to update biology instructors, as well as other instructors and researchers in related disciplines, on genomic science. During the first phase, NHGRI will administer an online survey to all past participants (approximately 350 from 2004-2014) to explore three main outcomes:

1) The methods and degree to which faculty participants updated their curriculum to include content they
