This form should be used for the commercial export of cultivated specimens (i.e., species, hybrids, cultivars) of CITES-listed species that meet the criteria of artificial propagation, as defined by CITES Resolution Conf. 11.11 (Rev. CoP15; <http://www.cites.org/eng/res/11/11-11R15.php>). All plant taxa must be published in a recognized scientific journal or reference that has been adopted by CITES.

This application may be used to:

Request a single-use permit for commercial export of artificially propagated plants or plant products (processing fee = \$100) that is valid for 6 months from the date of issuance. For re-issuance or amendment of a single use permit, the original permit must be returned with this completed application form.

Establish a Master File (processing fee = \$200 + \$5/single use certificates): If approved, a “master file”, or programmatic export authorization, and an approved plant list will be established that will be valid for up to 3 years. Once the master file is approved, you must obtain partially completed export certificates, valid for 6 months, to export specimens of the approved species, hybrids, and cultivars. There is a \$5 fee for each partially completed certificate. Certificates must be obtained prior to making any shipment and must accompany the shipment. Additional partially completed certificates may be requested by submitting [form 3-200-74](http://www.fws.gov/international/pdf/permit-application-form-3-200-74) (<http://www.fws.gov/international/pdf/permit-application-form-3-200-74-single-use-export-permits-under-a-master-file-or-an-annual-program-file.pdf>).

Amend a current Master File (processing fee = \$100): This form must be used to amend a current master file. A master file must be **amended** when there have been any changes to the information provided for a current master file (e.g., addition and/or deletions of species/hybrids/cultivars, or changes to the source(s) of plant material). Please complete only the questions that are relevant to the amendment (e.g., you do not need to provide information previously submitted when you established the master file if it has not changed).

Renewal a Master File (processing fee = \$100): To renew a master file that has or will soon expire, **you must complete this entire application**, including providing information on any changes to your facility, operations, species, or suppliers for the plant specimens that you wish to export.

I would like to:

- Request a single-use permit (\$100 fee)
- Establish a new Master File (\$200 fee)
- Renew and/or Amend an existing Master File; PRT # _____ (\$100 fee)

How many partially completed certificates are you requesting at this time? (fee - \$5/certificate)

This form should NOT be used for a single use export or re-export of artificially propagated or wild-collected specimens. For such exports, applicants should complete application form 3-200-32 (<http://www.fws.gov/international/pdf/permit-application-form-3-200-32-export-re-export-of-plants.pdf>).

Some plant species are exemptions under CITES from requiring CITES permits. If you are not sure whether an exemption applies to your export, please refer to the CITES Appendices (<http://www.cites.org/eng/resources/species.html>) or contact the Division of Management Authority at 800-358-2104.

Review this application carefully and provide complete answers to all questions. If a question is not applicable, answer with “N.A.” If more space is needed, photocopy or download the form at <http://www.fws.gov/international/pdf/permit-application-form-3-200-33-export-of-artificially-propagated-plants.pdf>. Please **number** all questions and answers, as well as number the pages in the bottom right corner. If you have any questions, please contact the Division of Management Authority at 800-358-2104.

Electronic submission of inventories, photographs, and receipts: Some applications contain long inventories and/or a large number of photographs or receipts.
