SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this information collection is to assist the National Park Service (NPS) in managing the National Historic Landmarks (NHL) program. The information requested will allow the NPS to evaluate properties nominated as NHLs and provide documentation for the proposed designation.

NHLs are nationally significant historic places designated by the Secretary of the Interior because they possess exceptional value or quality in illustrating or interpreting the heritage of the United States and they have significance to all citizens of our nation. The Historic Sites Act of 1935 charged the Department of the Interior with the responsibility for designating nationally significant historic buildings, structures, sites, and objects and promoting their preservation for the inspiration and benefit of the people of the United States. The NPS administers the NHL Program for the Secretary of the Interior.

All NHLs are also listed in the National Register of Historic Places, the official Federal list of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, engineering, and culture. Thus, NHLs must also be considered in the planning for Federal or Federally assisted projects, and NHL designation provides for eligibility for Federal rehabilitation tax incentives. Designation as a NHL provides formal recognition of a property's national significance in history, architecture, engineering, or archeology based on national standards. The designation places no obligations on private property owners, and there are no restrictions on the use, treatment, transfer, or disposition of private property.

Nominations for the designation of NHLs come from private individuals

and organizations, local governments, State Historic Preservation Officers, Federal Preservation Officers for properties owned or controlled by the United States Government, and Tribal Historic Preservation Officers and American Indian tribes for properties on tribal lands. Regulations at 36 CFR 65 establish the criteria and guidelines for designating National Historic Landmarks. The request to OMB to approve this existing information collection in use without approval will include one form, the National Historic Landmark Nomination Form, which is used to nominate properties and provide documentation for the proposed designation.

Nomination forms will be submitted to the National Historic Landmarks staff in the Washington, DC and regional offices. These offices determine if the property may or may not meet the NHL criteria or if more information is needed to make a determination. Once a nomination is considered complete by the NPS staff, it will be peer reviewed by leading scholars through a blind peer review process. The Landmarks Committee of the National Park System Advisory Board will review all nominations prior to referring those properties to the Advisory Board that they believe meet the NHL criteria. The Advisory Board will review the properties and the Landmarks Committee's recommendations to make their own recommendations to the Secretary of the Interior who has the ultimate authority to designate National Historic Landmarks.

SUPPLEMENTARY INFORMATION:

I. Abstract

National Historic Landmarks (NHL) are nationally significant historic places designated by the Secretary of the Interior because they possess exceptional value or quality in illustrating or interpreting the heritage of the United States. Today, 2,501 historic places bear this national distinction. Working with citizens throughout the nation, the National Historic Landmarks Program draws upon the expertise of National Park Service staff who work to nominate new landmarks and provide assistance to stewards of existing landmarks. Nominations are submitted by property owners and property stewards to the National Park Service. They are reviewed by qualified subject experts prior to their review by the NHL Advisorv Board.

The NPS and NHL staff is required by The Historic Sites Act to collect information regarding the condition of designated landmarks. A questionnaire will be designed and used to collect information from owners or other stewards so the condition of NHLs can be monitored over time. The regional offices of NPS assist in the collection of the condition data. Regional NPS staff contributed to the design of the questionnaire that is the subject of this request.
