B. Purpose (1) (2) (3) (4) (5) (6) (7) (8) (9) (10) (11)

The ETA 9161 report is intended to provide a description of the scope of activities states engage in supporting Self Employment Assistance (SEA) for UI Claimants in the Regular and Extended Benefits Programs. It contains quarterly information on claimants who begin and exit the program.

C. Due Date and Transmittal.

The report is due in the ETA National Office on the first day of the second month following each calendar quarter to which it relates.

D. General Reporting Instructions.

This report summarizes claimant activity in the SEA program. Claimants subject to reporting include anyone who is eligible to receive a week of payment in the SEA program as administered by the state. There are program specific forms to accommodate reporting for SEA participants in the regular program and the Federal State Extended Benefits program. States should ensure that reporting activity is recorded on the correct form by program type.

States should ensure that they are able to capture the necessary outcome data from the SEA program as requested on the form. In many cases, the only effective way to accomplish this is to build into the claimant's SEA agreement a responsibility to follow up with the state and to provide data on the continued operation of their establishment, whether it employs people and what wages these people are paid, and what sorts of revenues the establishment may be generating. States should not rely on UI wage records or state business tax records, as many self-employed individuals may not be represented in those systems and would go under-reported.

E. Definitions

Establishment: For the purposes of this report, states should use the definition of establishment provided by the Bureau of Labor Statistics for the Current Employment Statistics Survey. *An establishment is an economic unit, such as a factory, mine, store, or office that produces goods or services. It generally is at a single location and is engaged predominantly in one type of economic activity. Where a single location encompasses two or more distinct activities, these are treated as separate establishments, if separate payroll records are available, and the various activities are classified under different industry codes.*

F. Item by Item Instructions

1. Claimants Participating in and Receiving Benefits from SEA: Provide the number of claimants who are part of the state's SEA program and
