SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to 6 U.S.C. 552(a)(1), the Department of Homeland Security (DHS) and Customs and Border Protection (CBP) have maintained the Nonimmigrant Information System (NIIS) in conformance with the terms of the previous NIIS SORN, 68 FR 5048.

As part of its efforts to streamline and consolidate its record systems, DHS is updating and reissuing a DHS/CBP system of records under the Privacy Act (5 U.S.C. 552a) to reflect CBP's current and future practices regarding the processing of foreign nationals entering

the U.S. CBP inspects all persons applying for admission to the U.S. As part of this inspection process, CBP establishes the identity, nationality, and admissibility of persons crossing the border and may create a border crossing record, which would be covered by DHS/CBP-007 Border Crossing Information System of Records Notice (73 FR 43457 published on July 25, 2008), or additional CBP records, which would be covered by the TECS System of Records Notice (re-published concurrently with this notice) during this process. Similarly, CBP has authority to keep records of departures from the U.S.

In addition to information collected from the alien during the inspection process, CBP primarily uses two immigration forms to collect information from nonimmigrant aliens as they arrive in the U.S.: The I-94, Arrival/Departure Record and, for aliens applying for admission under the visa waiver program, the I-94W Nonimmigrant Visa Waiver Arrival/Departure Form. Separately, Canadian nationals, who travel to the U.S. as tourists or for business, and Mexican nationals, who possess a nonresident alien Mexican Border Crossing Card, are not required to complete an I-94 upon arrival, but their information will also be maintained in NIIS. Additionally, DHS/CBP has been implementing an Electronic System for Travel Authorization (ESTA) to permit nationals of VWP countries to submit their biographic and admissibility information online in advance of their travel to the U.S. Applicants under this program will have access to their accounts so that they may check the status of their ESTA and make limited amendments. ESTA is covered by privacy documentation including a SORN published on June 10, 2008, 73 FR 32720.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of record notices, DHS/CBP proposes to update and reissue the following legacy record system, Justice/INS-036 Nonimmigrant Information System (68 FR 5048 January 31, 2003), as a DHS/CBP system of records notice titled, U.S. Customs and Border Protection Nonimmigrant Information System. Categories of individuals and categories of records have been reviewed, and the routine uses of this legacy system of records notice have been updated to better reflect the DHS/CBP Nonimmigrant Information System. Additionally, the exemptions for this legacy system of records notice transfer from the system's legacy agency to DHS.

This reissued system will be included in the DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the U.S. Government collects, maintains, uses and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system to make agency recordkeeping practices transparent, to notify individuals regarding the uses of their records, and to assist the individual to more easily find such files within the agency. Below is a description of the NIIS System of Records.

In accordance with 5 U.S.C. 552a(r), a report concerning this record system has been sent to the Office of Management and Budget and to the Congress.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The data is stored electronically at the CBP and DHS Data Center for current data and offsite at an alternative data storage facility for historical logs, system backups and in paper form.

RETRIEVABILITY:

These records may be searched on a variety of data elements including name, addresses, place and date of entry or departure, or country of citizenship as listed in the travel documents used at the time of entry to the U.S. An admission number, issued at each entry to the U.S. to track the particular admission, may also be used to identify a database record.

SAFEGUARDS:

All NIIS records are protected from unauthorized access through appropriate administrative, physical, and technical safeguards. These safeguards include all of the following: restricting access to those with a "need to know"; using locks, alarm devices, and passwords; compartmentalizing databases; auditing software; and encrypting data communications.

NIIS information is secured in full compliance with the requirements of the DHS IT Security Program Handbook. This handbook establishes a comprehensive program, consistent with federal law and policy, to provide complete information security, including directives on roles and responsibilities, management policies, operational policies, and application rules, which will be applied to component systems, communications between component systems, and at interfaces between component systems and external systems.

One aspect of the DHS comprehensive program to provide information security involves the establishment of rules of behavior for each major application, including NIIS. These rules of behavior require users to be adequately trained regarding the security of their systems. These rules also require a periodic assessment of technical, administrative and managerial controls to enhance data

integrity and accountability. System users must sign statements acknowledging that they have been trained and understand the security aspects of their systems. System users must also complete annual privacy awareness training to maintain current access.

NIIS transactions are tracked and can be monitored. This allows for oversight and audit capabilities to ensure that the data is being handled consistent with all applicable federal laws and regulations regarding privacy and data integrity.

RETENTION AND DISPOSAL:

NIIS data is subject to a retention requirement. The information collected and maintained in NIIS is used for entry screening, admissibility, and benefits purposes and is retained for seventy five (75) years from the date obtained.

However, NIIS records that are linked to active law enforcement lookout records, CBP matches to enforcement activities, and/or investigations or cases will remain accessible for the life of the law enforcement activities to which they may become related. The current disposition for paper copy is 180 days from date of departure.

SYSTEM MANAGER AND ADDRESS:

Assistant Commissioner, Office of Information Technology, U.S. Customs and Border Protection Headquarters, 1300 Pennsylvania Avenue, NW., Washington, DC 20229.

NOTIFICATION PROCEDURE:

Individuals seeking notification of and access to any record contained in this system of records, or seeking to contest its content, may submit a request in writing to CBP's FOIA Officer, 1300 Pennsylvania Avenue, NW., Mint Annex, Washington, DC 20229.

When seeking records about yourself from this system of records or any other CBP system of records your request must conform with the Privacy Act regulations set forth in 6 CFR part 5. You must first verify your identity, meaning that you must provide your full name, current address and date and place of birth. You must sign your request, and your signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, you may obtain forms for this purpose from the Director, Disclosure and FOIA, <http://www.dhs.gov> or 1-866-431-0486. In addition you should provide the following:

- An explanation of why you believe the Department would have information on you,

- Specify when you believe the records would have been created,

- If your request is seeking records pertaining to another living individual, you must include a statement from that individual certifying his/her agreement for you to access his/her records.

Without this bulleted information CBP may not be able to conduct an effective search, and your request may be denied due to lack of specificity or lack of compliance with applicable regulations.

RECORD ACCESS PROCEDURES:

See "Notification procedure" above.

CONTESTING RECORD PROCEDURES:

See "Notification procedure" above.

RECORD SOURCE CATEGORIES:

The system contains certain data received on individuals, passengers and crewmembers that arrive in, depart from, or transit through the U.S. This system also contains information collected from carriers that operate vessels, vehicles, aircraft and/or trains that enter or exit the U.S. and from the individuals upon crossing the U.S. border.

Basic information is obtained from individuals, the individual's attorney/representative, CBP officials, and other federal, state, local, and foreign agencies.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

No exemption shall be asserted with respect to information maintained in the system that is collected from a person or submitted on behalf of a person, if that person, or his or her agent, seeks access or amendment of such information.

This system, however, may contain information related to an ongoing law enforcement investigation because the information regarding a person's travel and border crossing was disclosed to appropriate law enforcement in conformance with the above routine uses. As such pursuant to 5 U.S.C. 552 a (j)(2) and (k)(2), DHS will claim exemption from (c)(3), (e)(8), and (g) of the Privacy Act of 1974, as amended, as is necessary and appropriate to protect this information.
