The objective of the data collection from this population is to collect, analyze and interpret information gathered to identify strengths and weaknesses of current customer service and make improvements.

DESCRIPTION OF RESPONDENTS:

The TCC agents offer the survey to each caller at the conclusion of their transaction and personally transfer them into the survey. The primary respondents will be members of the traveling public who have contacted TSA via telephone, to obtain information about travel or to provide feedback about a recent travel experience. However, as described above, other members of the traveling public also send inquiries to the TCC as well.
