PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 **GENERAL OVERVIEW**

2 **Description of the Promise Zones Initiative**

3 The Promise Zones Initiative seeks to revitalize high-poverty communities across the
4 country by creating jobs, increasing economic activity, improving educational opportunities,
5 reducing violent crime, leveraging private capital, and assisting local leaders in navigating
6 federal programs. This is the application guide for urban Promise Zones. The rural and tribal
7 application guide is located at <http://www.hud.gov/promisezones/>. Promise Zones will not
8 receive grant funding. The Promise Zone designation creates an intensive partnership among
9 the Federal government and local leaders who are investing in what works to address multiple
10 community revitalization challenges in a collaborative way, and have demonstrated
11 accountability to clear goals and a commitment to results. Subject to the limitations described
12 below, Promise Zone Designees will receive:

- 13 • Opportunity to engage Five [AmeriCorps VISTA](#) members in the Promise Zone
- 14 • A federal liaison assigned to assist with navigating federal programs.
- 15 • Preferences for certain competitive federal programs and technical assistance from
- 16 participating agencies.
- 17 • Promise Zone tax incentives, if enacted by Congress.

18 Altogether, this package of assistance will help local leaders accelerate efforts to revitalize
19 their communities. The Promise Zone designation will be for a term of 10 years, and may be
20 extended as necessary to capture the full term of availability of the Promise Zones tax
21 incentives, if enacted by Congress. During this term, the specific benefits made available to
22 Promise Zones will vary from year to year, and sometimes more often than annually, due to
23 changes in an agency's policies and changes in appropriations and authorizations for relevant
24 programs. All assistance provided to Promise Zones is subject to applicable regulations,
25 statutes, and changes in Federal agency policies, appropriations, and authorizations for relevant
26 programs including compliance with federal civil rights requirements. Subject to these
27 limitations, the Promise Zone designation commits the Federal government to partner with
28 local leaders who are addressing multiple community revitalization challenges in a collaborative
29 way and have demonstrated a commitment to results.

30 **Third Round Promise Zone Designation Process**

31 The third round of Urban Promise Zone designations will be made pursuant to this
32 document.¹ A total of 20 Promise Zone designations will be made by spring 2016. To date, nine
33 urban, two rural and two tribal communities have been designated. As a result of this
34 competition, the Department of Housing and Urban Development (HUD) intends to designate

1 ¹ The rural and tribal application guide is located at: <https://www.hud.gov/promisezones/>.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 five urban communities and the Department of Agriculture (USDA) intends to designate one
2 rural and one tribal community.

3 Applications for Promise Zone designations will be reviewed and evaluated by
4 representatives from across the federal government including: USDA, HUD, Department of
5 Education, Department of Justice, Department of Health and Human Services, Department of
6 Labor, Department of Transportation, Department of Treasury, Department of Commerce,
7 Corporation for National and Community Service, National Endowment for the Arts,
8 Environmental Protection Agency, and the Small Business Administration. Reviewers will first
9 verify that the proposed Promise Zone meets the community eligibility criteria and that the
10 Lead Applicant meets the eligibility criteria (see page [11](#) for eligibility and community eligibility
11 criteria and page [27](#) for a complete list of the threshold requirements). For urban applications,
12 reviewers will confirm the subcategory in which each application should be considered (large
13 Metropolitan Core Based Statistical Area [Metro CBSA] or small/medium Metro CBSA).²

14 After verifying for each application that all the required components were submitted, that
15 the Lead Applicant is eligible and the proposed Promise Zone would qualify, the reviewers will
16 score all of the applications according to the points assigned to selection criteria shown in the
17 *Application Guide* for the appropriate Promise Zones category (urban, rural or tribal).

18 After scoring each application according to the Application Guide criteria, HUD may
19 consider, in addition, to the application materials, information available from participating
20 agency records, public sources such as newspapers, Inspector General or Government
21 Accountability Office reports or findings (see [footnote 16](#) for information on possible
22 disqualification based on audit finding). Any evidence cited in the Goals and Activities Template
23 may also be reviewed, except sections identified as “Optional”.

24 **? Categories and Sub-Categories**

25 An application must score a total of 75 points or more out of 105 points, to be
26 considered for a designation. Once scored, applications will be ranked competitively
27 within each of the three Promise Zones categories and within the urban
28 subcategories, as applicable. Rural applications will be ranked against other rural
29 applications, tribal applications will be ranked against other tribal applications, and
30 urban applications will be ranked against other urban applications within their
31 Metro CBSA subcategory, as applicable.

32 HUD intends to designate at least one applicant from the small/medium Metro
33 CBSA sub-category if the highest scoring small/medium Metro CBSA application is
34 comparable in quality to other urban designees (within 10 points of the lowest
35 scoring designee and not otherwise disqualified in accordance with all other
36 requirements contained within this application guide). If the number of eligible
37 applications determined to be eligible for the small/medium Metro CBSA
38 subcategory is fewer than the greater of 1) five total applications, or 2) ten percent

1 ² See urban application subcategory definitions on page [30](#).

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 of the total number of urban applications received, then the applications in the
2 small/medium Metro CBSA subcategory will be included in the large Metro CBSA
3 subcategory and ranked against those applications.

4 **Geographic Diversity**

5 The Promise Zones initiative will provide communities and the federal
6 government with the opportunity to demonstrate and accelerate the impact of
7 coordinated federal investment in communities in which stakeholders have come
8 together with a focus on results. The participating federal agencies seek to establish
9 a diverse cohort of quality designees in order to demonstrate strategies that may be
10 useful for communities working on comprehensive revitalization in many contexts
11 nationwide. Therefore, the agencies may select a lower-ranked application over a
12 higher-ranked application, within a category or subcategory, from among those
13 scoring 75 points or more overall, for purposes of establishing geographic diversity
14 with respect to both existing Promise Zones and those to be selected as a result of
15 the third round selection process.

16 **Promise Zone Finalists**

17 The participating federal agencies may also choose to name the applicants as
18 "Promise Zone Finalists". The purpose of selecting Promise Zone Finalists is to
19 recognize communities whose application scores reflect high-quality strategies
20 under the criteria set forth in the *Application Guide* and scored at least 75 points,
21 but who did not score sufficiently high enough to achieve a designation under the
22 terms of the competition set forth in the *Application Guide*. The number of finalists
23 designated will be determined by HUD taking into account scores received by all of
24 the applicants in the relevant category and/or subcategory, and other elements of
25 the selection process set forth in the *Application Guide*. The participating federal
26 agencies will seek to expand national knowledge about Promise Zone Finalist
27 communities and their revitalization strategies by posting information submitted in
28 the Finalists' applications on agency websites. The participating federal agencies will
29 also communicate regularly with Finalists about opportunities for relevant funding
30 or technical assistance that may become available, although no preference points or
31 other Promise Zone designation advantages in federal funding competitions will be
32 awarded as a result of Finalist status.

33 **Notifications of Decisions**

34 Notification of decisions will be made by letter. Additional notification may be
35 sent by email to the designated applicant point of contact listed in the application.
36

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 Application Submission Instructions and Deadline

2 **Overview**

3 The Third Round Application Guide is the controlling document for the Third Round
4 Selection Process. Application materials must be submitted according to the requirements and
5 specifications articulated in this document, including any technical amendments published in
6 the Federal Register. Clarifications will be issued through Questions and Answers posted to the
7 Promise Zones Initiative website at www.hud.gov/promisezones.

8 A non-binding Application Request Form is due by [TBD], 24 hours before the application
9 submission deadline. The Application Request Form should include the Lead Applicant
10 organization and tentative name of the proposed Promise Zone. The Application Request Form
11 can be completed and submitted via [MAX Survey](#) (LINK TO BE ADDED). Once the form is
12 submitted, the applicant will receive, no later than by the next business day, an individualized
13 link to access the Promise Zone application.

14 **HUD encourages applicants to submit an Application Request Form to receive their**
15 **unique link several weeks before** the application submission deadline. In addition, HUD urges
16 applicants to submit applications 72 hours prior to the application due date to address in a
17 timely fashion any technical problems that the applicant may experience in MAX Survey.
18 Applicants are also encouraged to participate in tutorial and help sessions that may be
19 organized by HUD to support applicants in using the MAX Survey system. Notification of such
20 sessions will be posted to the Promise Zone website and distributed via email during the
21 application response period. Electronic copies of application materials must be received by
22 5:00 p.m. EST on [TBD] via [MAX Survey](#) (LINK TO BE ADDED). Your application must be
23 **received** by MAX Survey. Your application is “received” when MAX Survey provides you an
24 email confirmation of receipt with a date and time stamp. **If you do not see this confirmation**
25 **of receipt with a date and time stamp, your application has not been received.** Please note
26 that busy servers, slow processing or upload issues due to large file sizes are not valid reasons
27 for extensions, and only applications received via MAX Survey by 5:00 PM EST will be
28 considered.

29 Receipt of a confirmation email from MAX Survey does not indicate that the application
30 contains all of the required information, only that information has been input to the survey
31 and/or files have been attached, and such information and files have been received. Applicants
32 are strongly encouraged to review the application checklist prior to clicking the “submit” button
33 at the end of the survey, in order to check that they have included all required information.
34 Once an applicant clicks the “submit” button, the applicant loses the ability to modify its
35 information. After a submission, MAX Survey provides an opportunity to download a copy of
36 submitted information in addition to providing an email confirmation of submission. Except as
37 provided below in regard to technical corrections of deficient applications, HUD may not
38 consider any unsolicited information that applicants may want to provide after the application
39 deadline.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 **Corrections to Deficient Applications**

2 HUD may not seek clarification of items or responses that improve the substantive quality
3 of an applicant's response to any rating factors or which correct deficiencies which are in whole
4 or part of a rating factor. HUD has determined that it will not request clarifications or
5 replacement of the Mapping Tool data sheet, which consists of the map graphic plus data
6 output based on the geographical area described by the boundaries shown on the map. HUD
7 may contact the applicant to clarify other items in its application. In order not to unreasonably
8 exclude applications from being rated and ranked in situations where there are curable
9 deficiencies, HUD will notify applicants of each technical deficiency and will do so on a uniform
10 basis.

11 If HUD finds a curable deficiency in an application, HUD will notify the contact(s) listed in
12 the application by email describing the clarification or technical deficiency. Email notification
13 will be sent from HUD with confirmation of delivery receipt requested. The email notification
14 will be the official notification of the need to cure a technical deficiency. It is the responsibility
15 of applicants to provide accurate email addresses for receipt of these notifications and to
16 monitor their email accounts to determine whether a cure letter has been received. The
17 applicant must carefully review the request for cure of a technical deficiency and must provide
18 the response in accordance with the instructions contained in the deficiency notification.

19 Clarifications or corrections of technical deficiencies must be received by HUD within the
20 time limits specified in the notification. In no case shall the time allowed to correct deficiencies
21 exceed 14 calendar days or be less than 48 hours from the date of the email notification. The
22 start of the cure period will be the date stamp on the email HUD sends to the applicant. If the
23 deficiency cure deadline date falls on a Saturday, Sunday, federal holiday, or other day when
24 HUD's Headquarters offices in Washington, DC, are closed, then the applicant's correction must
25 be received on the next day that is not a Saturday, Sunday, or federal holiday, or other day
26 when the HUD's Headquarters offices in Washington, DC, are closed.

27 **Waiver of Electronic Submission Requirements**

28 An applicant demonstrating good cause (such as an inability to access MAX Survey in a
29 reliable way) may request a waiver from the requirement for electronic submission. Applicants
30 who are unable to submit their applications via [MAX Survey](#) (LINK TO BE ADDED) must submit a
31 request by email to make alternative arrangements 15 days prior to the application due date
32 [TBD]. Applicants that are granted a waiver of the electronic submission requirements will not
33 be given additional time to submit their applications. The deadline date for paper and
34 electronic applications will remain the same. Applicants requesting a waiver should submit
35 their waiver requests via e-mail to Promisezones@hud.gov. The subject line must contain the
36 name of the applicant and "Request for Waiver to Electronic Application for Promise Zones."
37 Such requests will be considered on a case-by-case basis and approvals or rejections for
38 alternative submission will be sent by [a date TBD] by HUD. If an applicant is granted a waiver
39 of the electronic submission, the approval notice will provide instructions for submission, as

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 well as how and where to submit each copy. Paper applications received without a currently
2 approved waiver from the Promise Zone office and/or after the established deadline date will
3 not be considered.

4 **Application Overview**

5 The application consists of a combination of items directly entered into MAX Survey
6 (executive summary, general abstract information, and a Goals and Activities Template) and a
7 series of attachments that must be uploaded independently into MAX Survey. A more
8 thorough breakdown of the application components and threshold requirements are located on
9 page [27](#). The documents that must be uploaded into MAX Survey include:

10 A Mapping tool data sheet (automatically generated via email for applicant when
11 using the Promise Zone mapping tool as detailed within Application Section II, and on
12 page [33](#)),

13 Additional Documents that when combined do not exceed 35 pages (does not
14 include the mapping tool or narrative). These additional documents include:

15 Letter(s) that demonstrates the commitment from leadership of the Unit of General
16 Local Government³ (UGLG),

17 A to-scale city map and community level map,

18 Preliminary Memorandum of Understanding (MOU),

19 Any additional letters of support, tables, figures, charts, or additional maps.

20 A separate narrative not to exceed 28 pages detailing items as requested in
21 Application Sections III, IV, and V. The specific formatting requirements of the narrative
22 are as follows:

23 **1)** Double-spaced text to include any tables or figures (pages with single-
24 spaced text will be counted as two pages),

25 **2)** 8½ x 11-inch paper;

26 **3)** Approximately one inch margins (½ inch margins or smaller will count as
27 2 pages);

28 **4)** 12-point Times New Roman font (to include text that accompanies tables
29 or figures);

30 **5)** All pages should be numbered, any pages marked as sub-pages (e.g., with
31 numbers and letters such as 28A, 28B, 28C), will be treated as separate pages

32 **6)** Mark each section clearly (i.e. Section IV Part A: Needs and Assets)

33 **7)** Shrunken pages, or pages where a minimized/reduced font are used, will
34 be counted as multiple pages

1 ³ Unit of general local government as defined in section 102(a)(1) of the Housing and Community
2 Development Act of 1974 (42 U.S.C. 5302(a)(1)). [See definition \(a\) \(1\) Unit of General Local](#)
3 [Government.](#)

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 To the extent that application components require resolutions, approvals or other actions
2 by local governing boards, legislative bodies, regulatory bodies, or other entities with fixed
3 schedules for consideration of such actions and such actions cannot be taken prior to the
4 application deadline, applicants must submit electronically by email to PromiseZones@hud.gov
5 the following information by the application deadline: description of the action to be taken,
6 date on which the action is expected, and information necessary to demonstrate its relevance
7 to the proposal. Upon completion of the identified governmental action, applicants must
8 submit by email evidence of the action taken. All emails must include the subject line
9 "Additional submission materials" and the name of the Promise Zone lead applicant. If
10 applicants are not able to send electronic copies of the materials, they may request to send
11 paper copies. However HUD must grant written permission for such a paper transmission in
12 advance. Depending upon the importance of such actions to a selected applicant's Promise
13 Zone Plan, the participating federal agencies may make the Promise Zone designation
14 contingent upon the receipt of evidence that the action has been taken.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 APPLICATION SECTIONS

2 **Section I – Executive Summary**

3 An Executive Summary that describes the Promise Zone Plan, including (1) a brief
4 description of the needs and assets of the proposed Promise Zone; (2) the goals of
5 the Promise Zone; (3) activities to achieve goals; (4) the Lead Applicant’s capacity to
6 achieve results; and (5) how the Promise Zone designation would accelerate or
7 strengthen existing efforts at comprehensive community revitalization.

8 An optional submission of no more than 3 JPEG photographs of the
9 neighborhoods, buildings and streets within the proposed Promise Zone is also
10 encouraged. Since these photos may be used in promotional material in association
11 with the announcement of the third round designees, be sure the photographs do
12 not include images of individuals as this would require specific release forms from
13 anyone in the image. The submission of photographs will in no way affect the
14 scoring of any application.

15 **☛ Section I Submission Requirement:**

- 16 i. Executive Summary via [MAX Survey](#) (LINK TO BE ADDED) with a 2,000
17 character limit, including spaces (this limit is applied automatically to
18 information entered into MAX Survey).
- 19 ii. **Optional:** Up to 3 optional JPEG images of the neighborhoods, buildings and
20 streets within the proposed Promise Zone. Include a statement verifying that
21 the applicant owns all rights to the images submitted and that HUD and its
22 federal partners may use those images for promotional purposes.

23 **Section II – Eligibility Criteria**

24 **? Abstract**

25 The abstract will serve as a summary of key application information and must
26 clearly identify one Lead Applicant organization, staff point(s) of contact and provide
27 the email and telephone contact information of the Lead Applicant. The abstract
28 will also: identify the application category (urban, rural or tribal) and, for urban
29 applications, the subcategory (large Metro CBSA or small/medium Metro CBSA; see
30 page [30](#)); jurisdictions included in the proposed Promise Zone boundaries; name of
31 the supporting UGLG(s); and list of implementation partners; and provide the
32 economic and population data provided from the Promise Zone mapping tool data
33 sheet (described below under Community Eligibility Criteria).

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

? Lead Applicant Eligibility

Due to the nature of the initiative, Promise Zone activities are likely to be carried out by a variety of organizations and organization types. Eligible Lead Applicant/Lead Organization for Promise Zone designations are:

- i. Units of General Local Government (UGLG)⁴;
- ii. An office/department of a local government submitting on behalf of the local government under a local delegation of authority;
- iii. Nonprofit organizations⁵ applying with the support of the UGLG; and
- iv. Public Housing Agencies, Community Colleges, Local Education Agencies (LEAs), or Metropolitan Planning Organizations (MPO)⁶ applying with the support of the UGLG.

? Community Eligibility Criteria

All of the following must be present in an application for a proposed Promise Zone to be eligible for designation:

- i. Proposed Promise Zone must have one contiguous boundary and cannot include separate geographic areas;⁷
- ii. The rate of overall poverty or Extremely Low Income rate (whichever is greater) of residents within the Promise Zone must be at or above 32.5%;⁸
- iii. Promise Zone boundaries must encompass a population of at least 10,000 but no more than 200,000 residents;
- iv. The Promise Zone application must affirmatively demonstrate support from all mayors or chief executives of UGLGs that include any geographical area within the proposed Promise Zone boundary, subject to the following conditions:

⁴ Unit of general local government as defined in section 102(a)(1) of the Housing and Community Development Act of 1974 (42 U.S.C. 5302(a)(1)). [See definition \(a\) \(1\) Unit of General Local Government.](#)

⁵ Including Workforce Investment Boards (WIBS) and Community Action Agencies (CAA) Examples are illustrative and not exhaustive. See Definition of nonprofit on page 29.

⁶ See Definitions of Public Housing Agency, LEAs and MPO on page 29.

⁷ Applicants are required to use the Promise Zone mapping tool to show both the boundary and the poverty levels. The mapping tool emails this information as a PDF to the applicant. This PDF, in its entirety, must be included in the application. See page 33 for more information on the mapping tool.

⁸ The reported poverty rate or Extremely Low Income rate will be rounded to the nearest .1%.

- 34
- 35
- 36
- 37
- 38
- 39
- Counties and county equivalents (collectively “counties”)⁹. The chief executive of a county must demonstrate support for any Promise Zone Plan (Plan) that includes an area within the unincorporated boundaries of the county. The chief executive of a county may support as many Plans as he or she wishes in incorporated areas within the county, but may only support one Plan that includes an area within the unincorporated boundaries of the county. If the chief executive of a county supports multiple Plans, the chief executive must include an explanation of how the county intends to work with multiple designees at the same time and sustain the necessary level of effort, resources, and support for each designee for the full term of each designation.
 - UGLGs other than counties. For UGLGs other than counties, the chief executive of an UGLG must demonstrate support for a Plan that includes any area within the geographic boundaries of the UGLG. The chief executive of UGLGs that are not counties may support only one Plan. If the chief executive of an UGLG that is not a county supports more than one Plan, HUD will disqualify all Promise Zone applications supported by that chief executive.
 - Crossing Jurisdictions. The Promise Zone application must demonstrate support for the Plan from all chief executives of UGLGs included within the proposed Promise Zone boundary. The chief executive of a county must demonstrate support for any Plan that includes area within the unincorporated boundaries of the county. For UGLGs other than counties, the chief executive of an UGLG must demonstrate support for a Plan that includes any area within the geographic boundaries of the UGLG. For example, a Plan that includes areas in two cities requires the support of the chief executives from both cities. A Plan that includes area within the boundaries of a city and the unincorporated boundaries of the county requires support from the chief executive of the city and the chief executive of the county.
 - UGLGs with Designated Promise Zones. If a Promise Zone designated in Round 1 or 2 is located within a UGLG in which a new application is being submitted, the applicant must include an explanation of how, if a second Promise Zone designation is made, the UGLG plans to work with both of the Promise Zone designees at the same time and sustain the level of effort, resources and support committed to each Promise Zone under its respective Promise Zone Plan for the full term of each Promise Zone designation. This

1 ⁹ Note the reference to county includes all county equivalents, such as parishes.

explanation must be evidenced by commitments from the UGLG in materials submitted by the chief executive in support of the application.

	Is support from the chief executive of City X required?	Is support of the chief executive of City Y required?	Is support of the chief executive of County Z required?
The PZ Plan is for an area entirely within the boundaries of City X.	Yes.*	No.	No.**
The PZ Plan is for an area entirely within the boundaries of City Y.	No.	Yes.*	No.**
The PZ Plan is for an area entirely within the boundaries of unincorporated area of County Z.	No.	No.	Yes.***
The PZ Plan consists of area within City X and City Y.	Yes*	Yes.*	No.**
The PZ Plan consists of area within City Y and an area within the unincorporated boundaries of County Z.	No.	Yes.*	Yes.***
The PZ Plan consists of area within City X, area within City Y, and area within the unincorporated boundaries of County Z.	Yes.*	Yes.*	Yes.***

* For UGLGs other than counties, the chief executive of an UGLG must demonstrate support for a Plan that includes any area within the geographic boundaries of the UGLG.

** However, the chief executive of a county may support as many Plans as he or she wishes in incorporated areas within the county.

*** The chief executive of a county must demonstrate support for any Promise Zone Plan that includes area within the unincorporated boundaries of the county.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

€ Section II Submission Requirements:

- i. All pages of the PDF mapping tool data sheet, which will be emailed to the applicant in PDF form, to demonstrate poverty level and population levels. *Does not count toward 28 page narrative (a combination of sections III-V) or the 35 page limit for attachments.*
- ii. Abstract and mapping tool data information (to be entered on MAX Survey).
- iii. Letter(s) that demonstrates the commitment from Chief Executives of all UGLGs (see page 9 for approved delays). *Letter(s) of support from UGLGs count toward the 35 page limit for attachments.*

Note: If the local elected executive leadership is in transition, the city manager or city council may submit a letter of support. A letter from the incoming local leader may also be included in application materials. The letters count toward the 35 page limit for attachments.

Section III – Selection Criteria: Need (10 points)

The applicant’s submission materials must contain the mapping tool data sheet (submitted in Section II) and sufficient information to verify the following data within the boundaries of the proposed geographic area of the Promise Zone, to the greatest level of specificity possible using available data sources. Data will be compared with that submitted by other applicants in the applicant pool. Points will be awarded for:

- i. Higher poverty rate/extremely low income rate – Concentration of households in poverty or with extremely low incomes (whichever is greater) residing within the proposed Promise Zone (3.33 points);
- ii. Lower employment rate – Employment rate for working-age adults within the Promise Zone (3.33 points);
- iii. Description of the nature and scope of crime in the proposed Promise Zone. (3.33 points)

Note: Secondary sources or locally published data can be used in Section IV—Strategy and Section V—Capacity, to supplement the data points provided by the mapping tool, with attribution to the publication. If the Lead Applicant requests to use alternative data sources in Section II—Eligibility Criteria or for Section III—Need, a one-page explanation noting the alternative data source must be submitted along with the Promise Zone mapping tool data sheet to promisезones@hud.gov with the subject line “Alternative data source request” by [XXX XX], 2016 to be approved by the relevant designating agency.

€ Section III Submission Requirements:

- i. A narrative describing the nature and scope of crime in the Promise Zone, highlighting Part I Violent Crime data. Applicants should provide any

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 available local/state data for the Promise Zone (including data, Uniform
2 Crime Reporting (UCR)¹⁰, calls for service, and survey results from target area
3 residents) to support the discussion. As applicable, applicants should identify
4 any hot spots where a large proportion of crime or types of crime occur, as
5 compared with crime rates in the overall jurisdiction, and provide additional
6 information about what is causing the crime to occur in the crime hot spots
7 (e.g. the crime drivers¹¹). Applicants may use charts and graphs to display
8 data.

9 *Suggested 2 page limit of the 28 page narrative.*

10 **Section IV – Selection Criteria: Strategy (45 points)**

11 **❓ Section IV Part A: Needs and Assets Assessment (10 points)**

12 Reviewers will assess the quality of applicant’s current assessment of the needs
13 and assets of the proposed Promise Zone, including identified gaps in current
14 neighborhood revitalization efforts and areas of opportunity. Where relevant, the
15 assessment should include breakdowns of indicators by specific subpopulations
16 (including age, race, national origin, gender, and individuals in households where
17 languages other than English are spoken) or specific geographic areas within the
18 neighborhood. The assessment should also include, as relevant, information on
19 crime dynamics or hot spots, education, barriers to employment or issues with the
20 quality of jobs, housing insecurity, overcrowding, homelessness, existing regional
21 economic growth efforts and industries, areas of commercial blight and/or
22 environmental concern, private economic activity, access to capital, transportation
23 options and mobility and/or other characteristics related to connectivity and public
24 safety.

25 **€ Section IV Part A: Submission Requirements**

- 26 i. A narrative summarizing needs and assets of the proposed Promise Zone
27 community. The narrative should describe proposed Promise Zone boundary
28 and provide a justification regarding why the boundaries were determined as
29 such. As applicable, the assessment should include data points and analysis
30 based on information that is no more than 24 months old.

31 *Suggested 2 page limit of the 28 page narrative.*

1 ¹⁰ Information on UCR data can be found at <http://www.bjs.gov/ucrdata/offenses.cfm>

2 ¹¹ Refers to the underlying causes of criminal offending and victims' experiences of crime. It
3 recognizes that certain circumstances of people's lives are associated with a greater likelihood of
4 offending and victimization. For example, the following may be considered examples of “crime drivers”
5 - concentrated poverty, high unemployment, low performing schools, and limited infrastructure such as
6 housing, public transportation, social services, and business.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 ii. Provide a to-scale city map and community-level map that clearly labels the
2 proposed Promise Zone in the context of existing city streets, the central
3 business district, other city and neighborhood sites important to the Promise
4 Zone Plan, and census tracts. Applicants should submit a map that clearly
5 labels the following information:

- 6 • If applicable, the boundaries of other federal investments, such as:
7 Choice Neighborhoods grant, Promise Neighborhoods grant, Byrne
8 Criminal Justice Innovation grant, Transportation Investment Generating
9 Economic Recovery (TIGER) grant, Sustainable Communities Regional
10 Planning, Challenge grants, Investing in Manufacturing Communities
11 Partnerships, Performance Partnerships Pilots, HUD Community Needs
12 Assessment, EPA Making a Visible Difference in Communities initiative, or
13 Preferred Sustainability Status;
- 14 • Other useful information to place the Promise Zone in the context of the
15 region, city, county/parish, or municipality: schools, health centers,
16 transit centers/hubs, job centers, other community assets, as well as
17 physical barriers, crime hot spots or concentrations of crime locations,
18 health hazards, and revitalization activity underway or already planned.
19 Maps count toward the 35 page attachment limit.

20 ? **Section IV Part B: Promise Zone Plan (25 points)**

21 Reviewers will assess the strength of the applicant’s plan to revitalize the
22 Promise Zone and address the Promise Zone initiative goals: creating jobs,
23 increasing economic activity, improving educational opportunities, reducing violent
24 crime, leveraging private capital and other community goals such as increase access
25 to quality affordable housing, promote health and access to healthcare, improve
26 community infrastructure and promote civic engagement.

27 Reviewers will rate all of the following factors:

28 i. Rationale and Sequencing of the Promise Zone Plan including elements such
29 as:

30 ? Extent to which the plan addresses synergies and potential
31 conflicts among identified goals, including addressing connections among
32 different policy areas;

33 ? Extent to which the plan articulates a rationale for setting
34 priorities among different goals and activities, and if necessary, addresses
35 the timing of implementation of specific goals and activities;

36 ii. Alignment of Activities of the Promise Zone Plan including elements such as:

37 ? Extent to which the plan aligns activities within the proposed
38 Promise Zone, including specific description of how the Promise Zone
39 plan includes and integrates the activities of any other federal

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

investments including, as applicable: Choice Neighborhoods, HOPE VI, Promise Neighborhoods, Byrne Criminal Justice Innovation, Transportation Investment Generating Economic Recovery (TIGER) grants, HUD Community Needs Assessment, EPA Making a Visible Difference in Communities initiative, Performance Partnerships Pilots, federally qualified health center funding in the proposed Promise Zone, or other federal grants and initiatives; and

☐ Extent to which the plan will contribute to or benefit from broader regional economic development, livability or revitalization efforts, including sustainable communities regional plans, federally funded Jobs Accelerator plans, IMCP plans, CEDS or other multi-jurisdictional plans submitted to federal agencies.

iii. Responsiveness of the Promise Zone Plan to the gaps and opportunities identified in the assessment of needs and assets Section IV-Part A;

iv. Data Management, Accountability and Measurement of the Promise Zone Plan including elements such as:

☐ Extent to which the Promise Zone Plan establishes a clear system for accountability and measurement of progress and performance among the partners, including, a plan to establish the partnerships and processes necessary to access, manage, and share data for execution, evaluation and continuous improvement, particularly where the evidence base for chosen strategies is still emergent, and a plan and timeline for finalizing the set of intended outcomes, metrics for measuring progress towards those outcomes, and timelines for when each metric will be measured and when milestones and outcomes will be achieved¹²; and

v. Barriers to Implementation of the Promise Zone Plan including elements such as:

☐ Extent to which the Plan addresses removing barriers and improving systems that impede delivery of services, such as changes in policies, delivery capacity, technology, and program reporting including barriers related to cross-jurisdictional work, if applicable.

Note: For example, if improving transportation is a goal of the Promise Zone Plan, include specific efforts – planned or underway – to address infrastructure and flow in a way that will provide for more reliable and affordable transportation options. If job creation is a goal of the Promise Zone Plan, consider how employers will identify the skills and credentials required for in-demand jobs and help develop training programs; how workers and job seekers will access

¹² For more information on data being collected and shared among designated communities and federal agencies, applicants should review the material posted under Data and Evaluation at www.hud.gov/promisezones. [insert link]

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 education and training that meets their unique needs and the requirements for good jobs and
2 careers; and how you will assist employers to find workers who have or can acquire those skills.

€ Section IV Part B: Submission Requirements

- 4 i. An overarching narrative of the Promise Zone Plan. The narrative should
5 cover all the selection criteria listed above. However, the narrative should
6 not repeat specific information presented in the Goals and Activities
7 Template.

8 *Suggested 2 page limit of the 28 page narrative.*

- 9 ii. Complete the Goals and Activities Template within MAX Survey for each
10 proposed goal in the Promise Zone. The applicant must complete at least
11 one template for each applicable Promise Zone goal and may identify
12 additional community goals if needed. The MAX Survey will allow the
13 applicant to identify up to six goals each of which may include up to four
14 activities. The applicant is required to address the four Promise Zone
15 Initiative goals and may select up to two additional identified community
16 goals. See the Goals and Activities Template on page [35](#) for examples. *The*
17 *Goals and Activities Template will not count toward the narrative's 28 page*
18 *limit.*

? Section IV Part C: Promise Zone Sustainability and Financial Feasibility (5 points)

20 Reviewers will assess the sustainability and financial feasibility of the Promise
21 Zone Plan and coordinating structure.

22 Reviewers will rate all of the following factors:

- 23 i. Across all of the identified goals, the strength of the plan for obtaining funds
24 for activities;
- 25 ii. Soundness of the organizational structure for retaining commitment and
26 coordination of implementation partner organizations that promotes
27 sustainability of the Promise Zone Plan, including public and private
28 partnerships and stakeholders, during the planned life of the Promise Zone.

€ Section IV Part C: Submission Requirements

- 29 i. A narrative outlining the budget projection for funding project coordination
30 for the first 5 years of designation; and
31
32 ii. A narrative description of how a Promise Zone designation would bolster
33 efforts to secure additional funds for partnership structure and/or specific
34 Promise Zone goals and activities.

35 *Suggested 2-3 page limit of the 28 page narrative for sub-sections i & ii above.*

36 **Note:** Financial support sections of the Goals and Activities Template will be considered for
37 scoring.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 **? Section IV Part D: Resident Engagement Strategy (5 points)**

2 Reviewers will assess the strength of the applicant’s strategy for meaningful
3 resident engagement in the Promise Zone plan.

4 Reviewers will rate all of the following factors:

- 5 i. Involvement by resident and community organizations in development of
- 6 overall Promise Zone Plan;
- 7 ii. Engagement with current residents and New Americans that may include
- 8 immigrants and refugees. Narrative should address how the strategy
- 9 addresses barriers to meaningful, constructive involvement of all residents,
- 10 including racial and ethnic minorities and other disadvantaged groups; and
- 11 iii. Extent to which the strategy ensures sustained, informed, inclusive, and
- 12 substantive resident participation in the continued development,
- 13 implementation and oversight of the Promise Zone Plan.

14 **€ Section IV Part D: Submission Requirements**

- 15 i. A narrative describing the role of residents in developing the Promise Zone
- 16 Plan and the proposed strategy for ongoing resident engagement in the
- 17 Promise Zone Plan, including engagement with current residents and New
- 18 Americans that may include immigrants and refugees. Narrative should
- 19 address how the strategy addresses barriers to meaningful, constructive
- 20 involvement of all residents including racial and ethnic minorities and other
- 21 disadvantaged groups.

22 *Suggested 1-2 page limit of the 28 page narrative*

24 **Section V – Selection Criteria: Capacity and Local Commitment (50 points)**

25 **? Section V Part A: Partnership Structure and Commitment (10 points)**

26 Reviewers will assess the soundness of the partnership structure and the
27 strength/extent of partnership commitment.

28 Examples of such partnership commitment may include:

- 29 i. Local anchor institution commitment (e.g., hospitals, colleges/universities,
- 30 major employers and business leaders, national and community
- 31 foundations);
- 32 ii. City council, county, Metropolitan Planning Organization, and state officials;
- 33 iii. Local educational officials, criminal justice officials, housing authority
- 34 officials, transit authorities/operators, and the workforce investment board;
- 35 iv. Involvement of neighborhood-serving businesses and/or business
- 36 associations.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 Reviewers will rate the following factors:

- 2 i. The clarity of roles and responsibilities, including factors such as:
- 3 Clarity of implementation partner responsibilities for executing
- 4 components of the Promise Zone Plan;
- 5 Appropriateness of implementation partners based on their
- 6 designated role in the Promise Zone Plan (Section IV-Part B);
- 7 The role of Promise Zone residents in the governance structure;
- 8 and
- 9 Clarity of partnership governance structure.
- 10 ii. The strength of accountability mechanisms for ensuring effective
- 11 partnerships, including oversight processes and contractual measures and
- 12 remedies for non-performance.
- 13 iii. The strength/extent of commitment to coordinate work and investments to
- 14 achieve outcomes within the Promise Zone (that is not contingent upon
- 15 receipt of a Promise Zone designation).

16 **€ Section V Part A Submission Requirements:**

- 17 i. A narrative detailing the partnership structure, including the specific roles
- 18 and responsibilities of each implementation partner organization, and the
- 19 role of residents and the accountability mechanisms. If different offices
- 20 within a larger organization (for example, departments within city
- 21 government) are responsible for particular functions, please specify. Should
- 22 AmeriCorps VISTA members be available to support the Promise Zone Plan,
- 23 describe potential roles and responsibilities and potential organizational
- 24 sponsors.¹³
- 25 ii. A Promise Zone-specific diagram of the partnership structure that clearly
- 26 shows the structure for implementing, coordinating, tracking progress,
- 27 governing, and reporting on the different goals and activities for the Promise
- 28 Zone Plan. Diagram should be included within the narrative attachment and
- 29 counts toward the 28-page limit for the narrative.

30 *Suggested 3-4 page limit of the 28 page narrative for sub-sections i & ii above.*

1 ¹³ More information about AmeriCorps Vista can be found at

2 <http://www.nationalservice.gov/programs/ameriCorps/ameriCorps-vista>.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 iii. A preliminary Memorandum of Understanding (MOU) to be finalized upon
2 designation. The lead organization and all implementation partners should
3 sign the MOU. The MOU should clearly state the role and responsibilities of
4 partners, and note the commitment to data tracking and sharing. The MOU
5 should include commitments and provisions that are in force regardless of
6 the designation of a Promise Zone, as well as commitments and provisions
7 that would only be enacted if a Promise Zone designation were made. Such
8 contingent provisions and commitments relate primarily to communicating,
9 sharing data and reporting among the lead organization and its partners, and
10 between the lead organization and HUD, to enable effective collaboration
11 among the local and federal partners for the benefit of a designated Promise
12 Zone.¹⁴

13
14 iv. Optional: Letters of support.¹⁵

15 **Note:** The preliminary MOU and all letters of support (to include Letter(s) that
16 demonstrates the commitment from Chief Executives of all UGLGs) count toward the 35 page
17 attachment limit.

1 ¹⁴ An overview of draft communications and reporting framework for Promise Zones, and the
2 draft data sharing framework, are posted on www.hud.gov/promisezones under archived Round 3
3 public comment documents. Applicants are encouraged to review these documents to become
4 familiar with the types of communication and coordination that would come with the Promise Zone
5 designation. Please note that these framework documents are drafts under discussion with the
6 designated communities, and are likely to be modified based on their feedback. The documents have
7 been posted to give applicants a general sense of the types of information exchange that may be
8 required if a designation is made, for applicants’ planning purposes.

9
10 ¹⁵ Optional letters of support from partner organizations, including local and state elected officials
11 and private entities, included with the application will count against the 35 page attachment limit and
12 be considered in scoring. If a State or local elected official or a private entity is not acting in capacity
13 of a partner, general letters of support should be submitted separately to the Secretary of the U.S.
14 Department of Housing and Urban Development with a copy emailed to: promisezones@hud.gov.
15 Such general letters of support will not be considered part of the application, will not be read by
16 reviewers during the selection process, will not affect the application's score, and will not count against
17 application page limits. Similarly, Congressional letters should be submitted separately, addressed to
18 the Secretary of the U.S. Department of Housing and Urban Development with a copy emailed to:
19 promisezones@hud.gov. **Congressional letters should not be submitted with the application or
20 included in the supplementary materials, which are limited to 35 pages. Such letters will not be
21 considered part of the application, will not be read by reviewers during the selection process,
22 and will not affect the application's score.**

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

? Section V Part B: Capacity of Lead Applicant (10 points)

Reviewers will assess the capacity of the Lead Applicant organization to achieve outcomes through implementation of sophisticated, multi-layered neighborhood revitalization efforts. Reviewers will also assess the degree to which prior experience of the lead organization is similar to, or has prepared the applicant for, the scale, scope, and complexity of the proposed Promise Zone effort.

As applicable to the Promise Zone Plan, reviewers will rate the following factors:

- i. Role of current organizational leadership within the community and this type of work at the local level;
- ii. Previous success achieving intended outcomes through identifying and implementing evidence-based strategies appropriate to goals;
- iii. Previous success leveraging private resources, including grants and investment capital, and managing large grants and/or capital investments; and
- iv. Previous success identifying and managing multiple non-profit, for-profit, public sector and philanthropic partners towards successful project completion and positive outcomes.

€ Section V Part B: Submission Requirements:

- i. A narrative describing the lead organization’s capacity to achieve Promise Zone outcomes through implementation of sophisticated, multi-layered neighborhood revitalization efforts. Provide examples of past relevant experience and results achieved.
- ii. A narrative assessing the financial stability of the lead organization and discussion of any issues that could affect its ability to play the lead organization role in the Promise Zone Plan. Specifically, the narrative must address any past performance issues under any federal grants, and how the proposed Promise Zone will avoid such issues in future grants that may be made with Promise Zone preferences.¹⁶

Suggested 2-3 page limit of the 28 page narrative for sub-sections i & ii above.

¹⁶ The application must note past performance issues under Federal grants and bankruptcies within in the past 5 years. To the extent that the Lead Applicant or any of the partner organizations listed in the application has experienced a recapture of funds, disallowance of costs, monitoring finding, Inspector General finding, or failure to expend funds in conjunction with failure to complete grant-funded activities within the performance period under a federal grant, the applicant must disclose the incident(s), and in its narrative discuss the issues raised, and how, if funds are awarded in the future with Promise Zone preferences, those grants will not experience similar problems. Failure to disclose past performance issues may result in disqualification of the application depending upon the importance of the role that the organization with performance issues will play in the Promise Zone Plan as proposed.

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 iii. Nonprofit lead organizations must submit their most current IRS Form 990,
2 Return of Organization Exempt from Income Tax. Public sector lead
3 organizations (local governments, including an office or department within
4 local government, public housing agencies, metropolitan planning
5 organizations, etc.) must submit their most current OMB Circular A-133 (now
6 2 CFR Part 200) audit report, including balance sheet (statement of Net
7 Position), Statement of Activities (Income Statement), Statement of Cash
8 Flows, Notes to the Financial Statements, Schedule of Findings and
9 Questioned Costs, Report on Compliance for Each Major Federal Program,
10 Report on Internal Controls Over Compliance, and Schedule of Expenditures
11 of Federal Awards. The Lead Applicant should include IRS Form 990, Return
12 of Organization Exempt from Income Tax or the most recent OMB Circular A-
13 133 audit. *Section is not counted against page limit requirements.*

14 **Note:** sub-section i & ii submissions will count towards the page limits and scored for 8
15 points, sub-section iii will not count towards the page limits and scored for 2 points (10 points
16 total for Section V Part B.

17 ❓ **Section V Part C: Capacity of Implementation Partner Organizations (10 points)**

18 Reviewers will assess the capacity of implementation partner organizations to
19 implement Promise Zone Plan.

20 Reviewers will consider the capacity of implementation partner organizations to
21 carry out their roles and responsibilities within the Plan. Points will be based on the
22 degree to which prior experience of each implementation partner has prepared the
23 applicant to successfully fulfill their roles and responsibilities in the context of a
24 situation with the scale, scope, and complexity of the proposed Promise Zone effort.

25 € **Section V Part C: Submission Requirements**

26 i. A narrative describing implementation partner organizations' capacity to
27 implement their roles and responsibilities under the proposed Promise Zone
28 Plan. A definition of implementation partners is included in the Appendix.
29 Also include any information related to past performance issues under
30 federal grants.¹⁷

31 *Suggested 2-3 page limit of the 28 page narrative.*

32 ❓ **Section V Part D: Data and Evaluation Capacity (5 points)**

33 Reviewers will assess the extent of the prior experience that the organization
34 responsible for data and evaluation has to collect, manage, share, and use data for
35 evaluation and continuous improvement towards each intended outcome. Plans to
36 address challenges should be described. This should include describing any existing
37 data sharing agreements, experience using technology to track metrics, and/or plans

1 ¹⁷ See Footnote [16](#).

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

1 to promote access to data in a way that protects privacy, such as local data
2 protections, informed consent procedures, and staff training.

3 Identify the organization (lead organization or implementation partner
4 organization) that will manage data collection and evaluation for the Promise Zone
5 goals and activities. Reviewers will also evaluate how organizations relevant to the
6 Promise Zone Plan, such as police departments or local education agencies, have
7 been and/or will be engaged in providing and analyzing data.¹⁸

8 **€ Section V Part D: Submission Requirements**

- 9 i. A narrative explaining the prior experiences of the organization to manage,
10 share, and use data. Discuss how data, including operational outputs and
11 outcome indicators, will be used in the management of activities in the
12 Promise Zone Plan.

13 *Suggested 1-2 page limit of the 28 page narrative.*

14 **? Section V Part E: Resident Engagement Capacity (5 points)**

15 Reviewers will assess the extent of past experience in resident engagement.
16 Applicants should identify the organization (lead or implementation partner
17 organization) responsible for resident engagement. Describe their experience
18 leading resident engagement efforts of a similar scope to the Promise Zone plan.

19 Reviewers will rate the applications based on:

- 20 i. Similarity between proposed resident engagement strategy and the previous
21 efforts of the organization responsible for such engagement; and
22 ii. Extent of resident input on project design and execution for those previous
23 efforts.

24 The organization responsible for leading resident engagement should be clearly
25 identified in the diagram of partnership structure required in Section V, Part A.

26 **€ Section V Part E: Submission Requirements**

- 27 i. A narrative with detailed information on the organization's past experience
28 with resident engagement.

29 *Suggested 1 page limit of the 28 page narrative.*

30 **? Section V Part F: Strength and Extent of Local Government Commitment (10 31 points)**

32 Reviewers will assess the strength and extent of local government commitment
33 to target local funds and locally-controlled state and federal funds (not contingent
34 upon receipt of Promise Zone designation) to achieve proposed Promise Zone
35 outcomes. This could include: CDBG, MAP-21, HOME, Section 108 or other formula-
36 based program commitments, state bonds, tax-credits, etc.

1 ¹⁸ More detailed information about data and evaluation can be found on page [31](#).

PROMISE ZONES - Third Round Urban Application Guide

OMB CONTROL # XXXX-XXXX
Expires: (mm/dd/yyyy)

Section V Part F: Submission Requirements

- i. Letter from local government executive, attached in Section II—Eligibility Criteria. Letter should describe the commitment of local government to coordinate work and investments, including targeting of local and locally-controlled state and federal funds toward Promise Zone activities. The letter must list specific programs, amounts of commitment, distinguish between existing and new commitments, and note how funds are being realigned to support the Promise Zone Plan.

Note: The letter from local government executive(s), required for Section II-Eligibility Criteria, will be used to evaluate this selection criterion. Please include only one copy of the letter within the application submission. See Section II—Eligibility Criteria page [11](#) for more information about this letter. All letters of support will be counted towards the 35-page limit for attachments.

PROMISE ZONES: Definitions and Clarifying Information

1 THRESHOLD REQUIREMENTS

2 To be rated and ranked, all applicants and applications must meet all threshold
3 requirements of this application guide. Applicants must demonstrate compliance with the
4 threshold requirements through the information provided in their application, unless instructed
5 otherwise in this application guide. If an application does not meet all threshold requirements,
6 HUD will not consider the application as eligible and will not rate and rank it.

7 The threshold requirements of this application guide include:

- 8 • Completed Abstract (Section II-Eligibility Criteria, page [10](#))
- 9 • Meet all Lead Applicant Eligibility Criteria, including submission of a letter of
10 commitment from chief executives of all UGLGs (Section II-Eligibility Criteria, page
11 [11](#))
- 12 • Meet all Community Eligibility Criteria, including submission of all pages of the
13 mapping tool data sheet (Section II-Submission Requirements, page [14](#))

14 SUMMARY OF APPLICATION COMPONENTS

15 In addition to the threshold requirements above, an application that does not include all of
16 the components listed below (except the optional photos) will not receive the maximum
17 possible points:

- 18 1. Executive Summary - entered on MAX Survey (2000 character limit).
- 19 2. Abstract - entered on MAX Survey (various character limits).
- 20 3. Mapping tool PDF data sheet. **All pages of the mapping tool must be included and do NOT**
21 **count against page limitations.**
- 22 4. UGLG Letter(s) of support - demonstrates the commitment from UGLG leadership, including
23 the chief executives of the UGLGs represented in the Promise Zone. For applications across
24 UGLG lines, a commitment must be demonstrated by leadership of all UGLGs involved (See
25 Page [9](#) for approval delay). **All letters count towards the 35 page attachment limit.**
- 26 5. Narrative - **28 pages or less** that includes the most important information for purposes of
27 Promise Zone selection, including a Promise Zone-specific diagram of the partnership
28 structure (see the formatting requirements on page [8](#)). Any pages beyond this limit will not
29 be considered or reviewed. **The narrative does NOT count against the 35 page attachment**
30 **limit.**
- 31 6. To scale city map and community level map. **Maps will count towards the 35 page**
32 **attachment limit.**
- 33 7. Goals and Activities Template (page [35](#)) - entered on MAX Survey (various character limits)
- 34 8. Preliminary Memorandum of Understanding (MOU) (page [21](#)). **The MOU will count**
35 **towards the 35-page attachment limit.**
- 36 9. *Additional documentation:* Applicants may include additional materials in Microsoft Word or
37 PDF format as attachments, including any tables, figures, charts, or additional maps. **All**
38 **additional documentation will count towards the 35-page attachment limit.** Applicants

PROMISE ZONES: Definitions and Clarifying Information

1 are encouraged not to restate commitments made in the MOU in additional Letters of
2 Support. Any pages beyond this limit will not be considered or reviewed.

- 3 **10. *Optional:*** Up to 3 optional JPEG images of the neighborhoods, buildings and streets within
4 the proposed Promise Zone. Photographs should not include images of individuals, as this
5 would require specific release forms from anyone in the image. The submission of
6 photographs will in no way affect the scoring outcome of an application.
7

8 **Definitions and Clarifying Information**

9 **Applicant/lead organization:**

10 The applicant is the organization that will, if selected, act as the lead organization for a
11 designated Promise Zone. Due to the nature of the initiative, Promise Zone activities are likely
12 to be carried out by a variety of organizations and organization types. Eligible applicants for
13 Promise Zone designations are Units of General Local Government (UGLG); an
14 office/department of a local government submitting on behalf of the local government under a
15 local delegation of authority; or any of the following applying with support of the UGLG:
16 Nonprofit organizations, Public Housing Agencies, Community Colleges, Local Education
17 Agencies (LEAs), or Metropolitan Planning Organizations (MPOs). The lead organization will
18 execute a Promise Zone designation agreement and be responsible to HUD for fulfilling the
19 responsibilities of the Promise Zone designation. These responsibilities will include organizing
20 and/or coordinating activities pursuant to the plan proposed in the designated community's
21 application and administering any funding or other benefits that a designation may confer in
22 the future to the designated Promise Zone. The lead organization will also be responsible for
23 tracking outcomes, periodically reporting to the participating federal agencies, and participating
24 in evaluation activities as requested by federal agencies. The lead organization will provide, as
25 requested, any necessary certification to other organizations applying for grants and other
26 benefits that, if received, would help to advance the Promise Zone Plan. Organizations
27 receiving such certification will provide them in federal funding competitions and in other
28 activities relating to the conferring of benefits to designated Promise Zones.

29 To the extent that the lead organization is unable to directly perform any of these duties, it
30 will delegate them specifically to an implementation partner organization, and continue to
31 oversee the fulfillment of all of the responsibilities under the Promise Zone designation
32 agreement. The lead organization will be responsible for reassigning the roles that
33 implementation partner organizations and other partners may play in the Promise Zone Plan in
34 the event that one or more such partners are unable to fulfill their responsibilities. Transfer of
35 the role of 'lead organization' from the lead applicant to another entity will require approval by
36 participating federal agencies, pursuant to the terms of the Promise Zone designation
37 agreement.
38

PROMISE ZONES: Definitions and Clarifying Information

1 **Implementation partner organization:**

2 An implementation partner organization is an organization that agrees to fulfill specific
3 responsibilities to carry out the day-to-day work and operations of the Promise Zone Plan, as
4 detailed in the community's Promise Zone application and any amendments, documents
5 referenced in the Promise Zone designation agreement, and other documents that may exist
6 among the partner organizations in the Promise Zone Plan.

7 **Local Education Agency:**

8 As defined in Elementary and Secondary Education Act (ESEA), a public board of education
9 or other public authority legally constituted within a State for either administrative control or
10 direction of, or to perform a service function for, public elementary schools or secondary
11 schools in a city, county, township, school district, or other political subdivision of a State, or for
12 a combination of school districts or counties that is recognized in a State as an administrative
13 agency for its public elementary schools or secondary schools.

14 **Metropolitan Planning Organization:**

15 1) Regional policy body, required in urbanized areas with populations over 50,000, and
16 designated by local officials and the governor of the state. Responsible in cooperation with the
17 state and other transportation providers for carrying out the metropolitan transportation
18 planning requirements of federal highway and transit legislation. 2) Formed in cooperation
19 with the state, develops transportation plans and programs for the metropolitan area. For each
20 urbanized area, a Metropolitan Planning Organization (MPO) must be designated by agreement
21 between the Governor and local units of government representing 75% of the affected
22 population (in the metropolitan area), including the central cities or cities as defined by the
23 Bureau of the Census, or in accordance with procedures established by applicable State or local
24 law (23 U.S.C. 134(b)(1)/Federal Transit Act of 1991 Sec. 8(b)(1)).

25 **Nonprofit:**

26 Nonprofits eligible to be an applicant under this notice are entities that are classified as
27 such in accordance with section 501(c) of the Federal Tax Code or have been designated as such
28 by their state government. A nonprofit organization can be organized for the following
29 purposes: charitable, religious, educational, scientific, or other similar purposes in the public
30 interest. To obtain tax-exempt status, qualified organizations must file an application with the
31 Internal Revenue Service (IRS) and receive designation as such by the IRS. For more
32 information, go to www.irs.gov. Entities that are in the process of applying for tax-exempt
33 status, but have not yet received nonprofit designation from the IRS by the application deadline
34 date, will not be considered an eligible applicant. All nonprofit applicants must submit either
35 their IRS determination letter to prove their 501(c) status or the letter from the state
36 government to prove their nonprofit status.

37

PROMISE ZONES: Definitions and Clarifying Information

1 **Public Housing Agency:**

2 The term “public housing agency” has the meaning provided in section 3(b)(6) of the United
3 States Housing Act of 1937 (42 U.S.C. 1437a).

4 **Examples of local government and other partner commitment:**

5 Commitments may be made to the Promise Zone Plan by many organizations acting in the
6 community in ways that support Promise Zone goals and activities. The level of intensity and
7 duration of such commitments may range from occasional assistance and expressions of
8 general support, to the ongoing roles and day-to-day responsibilities taken on by
9 implementation partners, to the lead organization’s responsibility for overall coordination,
10 reporting and delivery of results. Examples of commitments that would be less intensive and
11 consistent than those of an implementation partner might include: in-kind donations of the use
12 of meeting space, equipment, telecommunications services, or staffing for particular functions;
13 letters or other expressions of support for Promise Zone activities and applications for
14 resources at the local, state and federal levels; participation in steering committees or other
15 advisory bodies with respect to the overall Promise Zone Plan or particular elements of it;
16 permanent donations of funding, land, equipment, facilities, or other resources; or the
17 provision of other types of support without taking on a formal role in the day-to-day operations
18 and advancement of the Promise Zone Plan as described in the definitions of implementation
19 partner or lead organization.

20 **Urban application sub-categories:**¹⁹

21 **Large Metro CBSA:** The proposed Promise Zone community is located in a Metropolitan
22 Core Based Statistical Area (Metro CBSA) with a total population of 500,000 or more.

23 **Small/medium Metro CBSA:** The proposed Promise Zone community is located within the
24 geographic boundaries of a Metro CBSA with a population of 499,999 or less.

25 **Evidence - Levels of evidence:**²⁰

26 **The five evidence levels are:**

- 27 **1. No evidence** means that the applicant has not provided evidence that they have collected
- 28 any qualitative or quantitative data to date.
- 29 **2. Pre-preliminary evidence** means the applicant presents evidence that it has collected
- 30 quantitative or qualitative data from program staff, program participants, or beneficiaries
- 31 that have been used for program improvement, performance measurement reporting,

1 ¹⁹ Additional information regarding Metropolitan Core Based Statistical Areas can be found at
2 <http://www.whitehouse.gov/sites/default/files/omb/bulletins/2013/b13-01.pdf>

3 ²⁰ Corporation for National and Community Service, Operation AmeriCorps NOFO 2014,
4 http://www.nationalservice.gov/sites/default/files/documents/Operation_AmeriCorps_NOFO_2014.pdf
5 evaluation

PROMISE ZONES: Definitions and Clarifying Information

1 and/or tracking. An example could be gathering feedback from program participants
2 following their receipt of the intervention.

- 3 **3. Preliminary evidence** means the applicant presents an initial evidence base that can
4 support conclusions about the program's contribution to observed outcomes. The evidence
5 base consists of at least one non-experimental study conducted on the proposed program
6 (or another similar program that uses a comparable intervention). A study that
7 demonstrates improvement in program beneficiaries over time on one or more intended
8 outcomes OR an implementation (process evaluation) study used to learn and improve
9 program operations would constitute preliminary evidence. Examples of research that
10 meet the standards include: 1) outcome studies that track program beneficiaries through a
11 service pipeline and measure beneficiaries' responses at the end of the program; and 2)
12 pre- and post-test research that determines whether beneficiaries have improved on an
13 intended outcome.
- 14 **4. Moderate evidence** means the applicant presents a reasonably developed evidence base
15 that can support causal conclusions for the specific program proposed by the applicant with
16 moderate confidence. The evidence base consists of one or more quasi-experimental
17 studies conducted on the proposed program (or another similar program that uses a
18 comparable intervention) with positive findings on one or more intended outcome OR two
19 or more non-experimental studies conducted on the proposed program with positive
20 findings on one or more intended outcome OR one or more experimental studies of another
21 relevant program that uses a similar intervention. Examples of research that meet the
22 standards include: well-designed and well-implemented quasi-experimental studies that
23 compare outcomes between the group receiving the intervention and a matched
24 comparison group (i.e. a similar population that does not receive the intervention).
- 25 **5. Strong evidence** means the applicant presents an evidence base that can support causal
26 conclusions for the specific program proposed by the applicant with the highest level of
27 confidence. This consists of one or more well-designed and well-implemented experimental
28 studies conducted on the proposed program with positive findings on one or more intended
29 outcome.

30 **Data and Evaluation:**

31 Lead organizations and implementation partners in designated Promise Zones will be expected
32 to participate in data collection and sharing activities with other Promise Zones, federal
33 agencies and outside partners. HUD and the federal agency partners are engaged in a process
34 of collecting different types of data that could be used in future evaluations of the Promise
35 Zones Initiative, and to monitor changes over time in the zones. HUD and interagency partners
36 are prepared to work with the Promise Zones to develop local approaches and support their
37 data collection needs and efforts.

38
39 In working with the first round designated Promise Zones and beginning comparisons with the
40 second round designees, the federal agencies have identified eight general policy domains in

PROMISE ZONES: Definitions and Clarifying Information

1 which most Promise Zone designees have defined goals. The first four are core goals of the
2 federal initiative. In order to work more effectively with local partners, we are tracking federal
3 activity and providing data to communities in all eight domains:

- 4 1. Employment and asset building
- 5 2. Investment and business growth
- 6 3. Education
- 7 4. Public safety
- 8 5. Housing
- 9 6. Health
- 10 7. Community infrastructure
- 11 8. Civic engagement

12
13 HUD and the federal agency partners have identified a core set of indicators linked to policy
14 domains, based on common goals across sites. These indicators reflect the range policy
15 domains for the initiative, and consistent site-specific strategies identified by multiple or all
16 Round 1 and 2 designees. The indicators are categorized into four groups by characteristics of
17 data accessibility and potential for common measurement. For more information on data and
18 evaluation activities, please see www.hud.gov/promisezones.

19
20 Further, all lead organizations of designated Promise Zones, implementation partner
21 organizations in the Promise Zone strategies, and any federal grantees whose federally funded
22 work contributes to Promise Zone strategies will be required to participate in evaluation of
23 Promise Zones and related federal grant activities that may be conducted, as well as tracking
24 outcome and performance indicators.

25
26 Lead organizations, implementation partners, and federal grantees contributing to Promise
27 Zones must agree to work with evaluators designated by participating federal agencies, and
28 other agency partner staff working on evaluation-related activities, as specified in their
29 respective grant agreements, regulations and other requirements. Guidance on evaluation,
30 performance/outcome indicators, measures and data sources will be forthcoming, but all
31 participants will be expected to put forth their best efforts to connect HUD/USDA or other
32 partners working on indicators tracking activities with data collected at the local level (e.g. from
33 city government for urban zones, county for rural zones, and tribal government for tribal
34 zones). For Promise Zone lead organizations and implementation partners, this may include
35 providing access to program personnel and all relevant programmatic and administrative data,
36 as specified by the evaluator(s) or federal PZ staff under the direction of a federal agency, as
37 legally attainable, during the term of the Promise Zone designation and/or grant agreement.
38 (See pages [28](#) and [29](#) for definitions of lead organization and implementation partner
39 organizations.)

PROMISE ZONES: Definitions and Clarifying Information

1 Mapping Tool Overview²¹

2 The Promise Zone mapping tool (<http://www.huduser.org/PZ2013/promiseZone.html>)
3 overlays the locally defined neighborhood/community boundaries with data associated with
4 that area and estimates the rates of certain indicators in that area using a proportional
5 allocation methodology. For metropolitan areas, the tool uses Census block group (as defined
6 for Census 2010) as the smallest statistical boundary for the available data. For non-
7 metropolitan areas, the tool uses census tract data to account for less precision in low-
8 population areas. If the locally defined neighborhood/community is partially within two
9 different Census areas, the data for each factor or threshold criteria are calculated based on the
10 portion of the 2010 housing units located in each Census area for the vacancy variables and
11 2010 population for the population, poverty, and employment variables. The 2010 housing unit
12 and population count data are available to HUD at the block level and thus can be used as the
13 underlying data to apportion each block group and tract's appropriate share of importance.

14 For example, based on a user defined geography, 80 percent of the housing units in the
15 locally defined neighborhood/community are in a block group with a poverty rate of 40 percent
16 and 20 percent of the units are in a Block group with a poverty rate of 10 percent. The
17 "neighborhood poverty rate" would be calculated as: $(80\% \times 40\%) + (20\% \times 10\%) = 34\%$.

18 Mapping Tool Data Sources:

19 The data are from a variety of sources:

- 20 1. **ACS 2011** refers to the US Census American Community Survey 2007-2011 five-year
21 estimates. These are the most recent nationally available data for small geographies at the
22 same Census 2010 boundaries as the other data provided, using a statistical technique that
23 combines five years of data to create reliable estimates for small areas.
- 24 2. **CHAS 2010** refers to the Comprehensive Housing Affordability Strategy (CHAS) special
25 tabulations HUD receives of Census ACS data. The CHAS data used for this tool are based
26 on ACS 2006-2010 five-year estimates see <http://www.huduser.org/portal/datasets/cp.html>
27 for more information.
- 28 3. **Census 2010** refers to block-level 2010 decennial counts of housing and population.
- 29 4. **USPS 2013** refers to the United States Postal Service long-term vacancy data as of June 30,
30 2013.
31

1 ²¹ <http://www.huduser.org/PZ2013/promiseZone.html>

PROMISE ZONES: Additional Notes On Specific Variables

1

2 Additional Notes on Specific Variables

3

4 **Concentration of People in Poverty** is calculated with data at the block group level from
5 ACS 2011 for metropolitan areas and the tract level for non-metropolitan areas. This indicator
6 represents the percent of people within the target geography who are below the poverty line.
7 The estimated concentration of Extremely Low Income (ELI) households represents an
8 approximation of the percent of households within the specified area whose household
9 combined income is below 30% of the HUD defined Area Median Income (AMI). This ELI
10 indicator is calculated with data from the block group level from CHAS 2010. The final number
11 included in this report for "poverty rate" is the greater of these two indicators.

12 **Employment Rate** is calculated with data at the block group level from ACS 2011 for
13 metropolitan areas and the tract level for non-metropolitan areas. This indicator represents
14 the percent of the labor force (age 16 and above) that is employed or in the armed forces.
15 Neither the numerator nor the denominator includes people outside of the labor force.

PROMISE ZONES: Goals And Activities Template

1 Goals and Activities Template

2 Use the template below to lay out the goals and activities of the proposed Promise Zone
3 Plan. Complete the template in MAX Survey for each relevant goal in the Promise Zone
4 application. MAX Survey will allow the Applicant to identify up to six goals, each of which
5 includes up to four activities per applicable goal.

6
7 Check the box to acknowledge the following statement:

8 € I give HUD and USDA permission to share information included in mapping tool data sheet
9 and the Goals and Activities Template.

10 Non-federal organizations including foundations, social investors, researchers, consultants, and
11 networks of professionals and organizations have expressed interest in the work underway in
12 communities applying for Promise Zone designations. Community stakeholders and other
13 members of the public also request information from time to time.

14
15 **Note:** Applicants may select up to six goals in total. Applicants must select each of the four
16 Promise Zone Initiative goals in their Goals and Activities Template. The four Promise Zone
17 Initiative goals are: Create Jobs, Increase Economic Activity, Improve Educational
18 Opportunities, and Reduce Violent Crime. If desired, in addition to the four required Promise
19 Zone Initiative goals, applicants may also choose up to two other goals from a list of the four
20 Promise Zone Initiative goals plus the following options: Increase Access to Quality Affordable
21 Housing, Promote Health and Access to Healthcare, Improve Community Infrastructure, and
22 Promote Civic Engagement. The additional goals available for up to two sets of activities have
23 been drawn from experience with the first round Promise Zone designees and review of second
24 round Promise Zone applications.

Promise Zone Goal
<p>For Goals 1-4, select each of the 4 Promise Zone Initiative goals from options listed below once. (You may choose the order. Please note that additional policy areas will be defined for each activity, which allows applicants to characterize their work more specifically):</p> <ul style="list-style-type: none"> € Create jobs € Increase economic activity € Improve educational opportunities € Reduce violent crime <p>For Goals 5-6, you may select from a list of 8 goals, from the 4 Promise Zone Initiative Goals listed above or the 4 additional options listed below:</p> <ul style="list-style-type: none"> € Increase access to quality affordable housing € Promote health and access to healthcare

PROMISE ZONES: Goals And Activities Template

Financial Support Needed

List up to 7 types of financial support that are or will be needed for implementing this activity. For each financial need, select the type of funding source from the drop down menu. Indicate the activity, estimated amount, date of needed funds and intended organization receiving the funds start and end date for each source, and identify the organization receiving the funds.

PROMISE ZONES: Goals And Activities Template

Type N/A if not applicable.

Example:

	Please Select Financing Type from Dropdown List	Please Enter: Total Amount (\$), Start and End Date, Any Other Details:
<u>Financial Need 1</u>	<i>Choose one:</i> <input checked="" type="checkbox"/> Grant <input type="checkbox"/> Loan <input type="checkbox"/> Below-Market Loan <input type="checkbox"/> Guaranteed Loan or First Loss Position <input type="checkbox"/> Equity <input type="checkbox"/> Tax Credit Proceeds	<i>Type in:</i> \$25,000; 06/01/2016 - 09/01/2016; Funds to purchase test preparation materials for students in School District 123
<u>Financial Need 2</u>	<i>Choose one:</i> <input checked="" type="checkbox"/> Grant <input type="checkbox"/> Loan <input type="checkbox"/> Below-Market Loan <input type="checkbox"/> Guaranteed Loan or First Loss Position <input type="checkbox"/> Equity <input type="checkbox"/> Tax Credit Proceeds	<i>Type in:</i> \$50,000; 06/01/2016 - 08/31/2017; Funds to increase professional development opportunities related to college- and career readiness for educators at Neighborhood High School
<u>Financial Need 3</u>	<i>Choose one:</i> <input checked="" type="checkbox"/> Grant <input type="checkbox"/> Loan <input type="checkbox"/> Below-Market Loan <input type="checkbox"/> Guaranteed Loan or First Loss Position <input type="checkbox"/> Equity <input type="checkbox"/> Tax Credit Proceeds	<i>Type in:</i> \$100,000; 06/01/2016 - 08/31/2017; Funds to establish a data collection system to track student achievement in School District 123

Committed Non-Financial Support

[List any committed non-financial support for this activity. List the source and type of support, activity, start and end date for each resource and identify the organization receiving each resource. Type N/A if not applicable.]

PROMISE ZONES: Goals And Activities Template

Example:

- *Source and type: AmeriCorps Grant, Corporation for National and Community Service*
- *Activity: AmeriCorps member currently helps a small number of students after school*
- *Start and end date: August 2014-July 2015*
- *Recipient: Neighborhood High School*

Non-Financial Support Needed

[List the types of non-financial support needed for implementing this activity. List the type of support, activity, start and end date for each resource and identify the intended organization receiving each resource. Type N/A if not applicable.]

Example:

- *Type: Volunteers*
- *Activity: Need 10-15 total, part- and full-time staff and volunteers to expand the afterschool program beyond a small group of students*
- *Start and end date: September 2015-2018*
- *Recipient: Neighborhood High School*

Expected Outcomes and Measurement- 500 character limit

[List measures or metrics that will be used to determine whether the activity is leading to the achievement of the goal or any interim outcomes.]

Example:

- *Increase graduation rate 10 percentage points by 2018*
- *Increase in student and parent satisfaction on school district survey*
- *Increase in college acceptance rate*

Data Collection, Tracking and Sharing –500 character limit

[For top-level tracking of progress of subgoals, describe how data will be collected, tracked and shared.]

Example:

- *Track graduation, college acceptance, and student and parent satisfaction rates*
- *Share information annually with Promise Zone partners and community*

Timeline/Milestones for Implementation – 500 character limit

[Briefly describe anticipated timeline and milestones for implementation of this activity. Omit information on needed financial or non-financial support that would be redundant with information provided above.]

Example:

- *Hire extra afterschool staff by the beginning of 2016-17 school year*
- *Have a completed and staffed tracking system by 2017-18 school year*
- *Secure Federal grant funding by 2017*

OPTIONAL Federal Regulatory and/or Statutory Barriers:

PROMISE ZONES: Goals And Activities Template

Please Note: Responses to this question are voluntary and will not be evaluated in the application review process

[Describe any regulations and/or statutes that create barriers to the implementation of this activity, with citations if possible. Your voluntary response to this question will help HUD, and agencies across the federal government, with policy development, program administration, and technical assistance.]

Example:

- HUD's Regulations at 24 CFR 92.500(d) require that a participating jurisdiction expend its annual allocation of funds under the (HOME) program within five years or the funds will be deobligated. This requirement limits our housing recovery strategy by preventing us from undertaking critical projects that cannot meet this deadline.

OPTIONAL Technical Assistance:

Please Note: Responses to this question are voluntary and will not be evaluated in the application review process

**Technical Assistance is broadly defined as answers to questions, extra support, flexibilities, capacity building, and training that can help organizations to meet their goals by overcoming identified limitations, barriers, and weaknesses. The responses will help HUD, agencies across the federal government, and a wide network of technical assistance providers in efforts to develop new services and tools and improve responsiveness to local capacity needs.*

[Select any type(s) of technical assistance that might be needed for this activity.]

- Community Engagement/Outreach
 - Direct Technical Assistance for Specific Issues
- Data Collection and Evaluation
- Research and Best Practices/General Guidance
- Grant and Financial Management Resources
- Needs Assessment
- Training for Partners and Staff
 - Peer to Peer Learning and Networking

[Describe each type of identified technical assistance needed for this activity including roles and deliverables, if any, that federal staff could play on short term assignments and the skills gaps or identified challenges the community aims to address (Short-term assignments should generally be less than one year.) Further, technical assistance, including assistance that might be delivered by federal staff, is not guaranteed under a PZ designation and should not be included in a PZ Plan.]

Examples:

PROMISE ZONES: Goals And Activities Template

Type: Peer to Peer Learning and Networking

Our workforce development partners are interested in collaborating with other organizations in communities that have had a recent large influx of non-English speaking families.

Type: Direct Technical Assistance for Specific Issues

Subject matter expert on brownfields remediation and redevelopment, and applicable federal programs and requirements, needed to work with local teams on feasibility assessments for several contaminated sites in the Promise Zone.
