

This is the intake platform for third round applications for designation as an Urban Promise Zone.

Paperwork Reduction Act Burden: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The total time required to complete this application is estimated to average sixty-two (62) hours, including the time to review instructions, gather the data needed, and complete and review the application. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Housing and Urban Development, Office of Departmental Grants Management and Oversight, Room 3156, Washington, D.C. 20410.

The application deadline will be as published in the Promise Zone Application Guide available at: http://www.hud.gov/promisezones. All applications must be received by the application due date at 5:00 PM EST.

Submission and Verification:

Applicants must click the "submit" button at the end of the survey for the application to be considered. An application is considered submitted only when the upload is complete and the application is date and time stamped by the Max.gov system. If you do not receive a confirmation of submission by email from Max.gov, your application was not received and will not be considered.

Please note that busy servers, slow processing or upload issues due to large file sizes are not valid reasons for extensions, and only applications received via Max.gov by the application due date, at 5:00 PM EST, will be considered. For this reason, applicants are strongly advised to submit at least 24 hours in advance of the due date.

After a submission, Max.gov provides an opportunity to download a copy of submitted information in addition to providing an email confirmation of submission. The downloadable copy of submitted information contains all text that has been inputed into the survey and a list of filenames attached to the submission. Please verify that the file names attached to the survey are the correct files.

Receipt of a confirmation email from Max.gov does not indicate that the application contains all of the required information, only that information has been input to the survey and/or files have been attached, and such information and files have been received.

Applicants are strongly encouraged to review the application guide prior to clicking the "submit" button at the end of the survey, in order to check that they have included all required information.

If you have any questions about this application or the Promise Zones initiative generally, please email promisezones@hud.gov.

Technical tips for using Max.gov:

To save your progress on a section of the application and work another section, navigate to the desired section of the application. Your progress will automatically save when you click the "next" button or select another section from the Question Index. To save your progress and resume the application later, click the "resume later" button at the bottom of the page. A pop-up box will confirm: "Your responses were successfully saved." You may exit the page and resume progress later by following the link to your individualized application, found at the end of your application invitation email. It is recommended that applicants back up their narrative survey entries in an off-line word processor in case of computer or technical issues.

The spell check function may not work depending on your browser capabilities. Be sure to double check whether the spell check function is activated and manually spell check, as necessary.

Where character or page limits apply, such limits have been noted in the application.

Although not required, it is strongly recommended that all documents to be attached to the application are uploaded in PDF format unless otherwise noted.

Questions and Comments

Please email Promisezones@hud.gov with any questions or comments
