INITIAL PRIVACY ASSESSMENT (IPA)

The Initial Privacy Assessment (IPA) is used to determine whether a Privacy Impact Assessment (PIA) is required under the E-Government Act of 2002. The IPA is also used to determine if a System of Records Notice (SORN) is required under the Privacy Act of 1974.

The IPA is an administrative form created by the Privacy Branch to efficiently and effectively identify the use of Personally Identifiable Information (PII) across the Department. The IPA focuses on three areas of inquiry:

- Business data and business processes within each HUD program.
- Potential connections with individuals including the use of PII – any use of social security numbers must be specifically identified.

HUD's program and support offices should ensure that its respective IPA is completed and sent to the Privacy Branch for approval. If SSNs are to be used, the IPA specifically identifies the justification and authority for using SSNs. Upon receipt of the IPA, the Privacy Branch determines the applicability of other privacy compliance requirements including the PIA and SORN. The IPA is complete when the Privacy Branch signs it and sends the final copy back to the identified point of contact.

Please complete this form and send it to the HUD Privacy Branch staff.
