

MEPS
Medical Expenditure Panel Survey

Who Uses MEPS?

The Medical Expenditure Panel Survey (MEPS) is a national survey of families and individuals and of their medical providers. Data from MEPS have been used to estimate health care use, spending, and private and public insurance coverage in the United States.

MEPS researchers include statisticians, social scientists, and health services researchers in universities around the United States; government agencies; and private organizations. In 2010, MEPS users came from the following organizations:

Private-Sector Organizations

AARP
Blue Cross/Blue Shield
Center for Studying Health System Change
Commonwealth Fund
Ernst & Young
Institute for Health Policy Solutions
Kellogg Foundation
Lewin Group
Mathematica Policy Research
Mayo Clinic
Medimmune
National Association of Chain Drug Stores
National Minority Quality Forum
New York Times
RAND Corporation
Research Triangle Institute
Robert Wood Johnson Foundation
Urban Institute
USA Today
Wall Street Journal

Government Agencies

Administration on Aging
Centers for Medicare & Medicaid Services
Congressional Budget Office
Department of Agriculture
Department of Health and Human Services
