Generic Information Collection (GenIC) #1: LAN Summit Registration Form

Office of Communications (OC)
Centers for Medicare & Medicaid Services (CMS)

A. Background

All alternative payment models and payment reforms that seek to deliver better care at lower cost share a common pathway for success: providers, payers, and others in the health care system must make fundamental changes in their day-to-day operations that improve quality and reduce the cost of health care. Making operational changes will be viable and attractive only if new alternative payment models and payment reforms are broadly adopted by a critical mass of payers. When providers encounter new payment strategies for one payer but not others, the incentives to change are weak. When payers align their efforts, the incentives to change are stronger and the obstacles to change are reduced.

The Health Care Payment Learning and Action Network will bring together private payers, providers, employers, state partners, consumer groups, individual consumers, and many others to accelerate the transition to alternative payment models. The LAN Summit is a semi-annual event which brings together these stakeholders.

B. Description of Information Collection

LAN summit registration information provides needed contact information to inform planned attendance for the Summit and its sessions. A 100 percent response rate is assumed as participants must register to participate in the Summit.

C. Deviations from Generic Request

No deviations are requested.

D. Burden Hour Deduction

We anticipate up to 1,600 respondents for 2016. Registration data will be collected via a web-based registration form. No incentives will be offered to participants. The total approved burden ceiling of the generic ICR is 49,400 hours. We are requesting a total deduction of 267 hours from the approved burden ceiling (1600 participants x 0.166 hours = 267 hours).

E. Timeline

CMS plans to hold a Summit event in April 2016 and another Summit in the fall of 2016.
