

Revisions to Form CMS-2552-10 HOSPITAL AND HOSPITAL HEALTH CARE COMPLEX COST REPORT

The revisions to the Form CMS-2552-10 are two-fold:

1. New worksheets for the hospital-based federally qualified health center (FQHC) to comply with §10501(i)(3)(A) of the Patient Protection and Affordable Care Act (ACA), codified in section 1834(o) of the Act, requiring FQHCs to maintain separate statistical records for proper determination of costs payable under the Medicare program.
2. New worksheets for the hospital-based hospice to collect data to facilitate payment reform mandated by §3132 of the ACA.

The overall burden to providers is estimated to remain unchanged as the proposed worksheets supersede worksheets currently in the cost report.
