HEALTH IMPACT ASSESSMENTS

Now I am going to ask you some questions about the foods your family normally eats. The purpose of these questions is to identify the most commonly eaten subsistence foods and the foods you most commonly eat if you are not eating subsistence foods. We do not care if you harvest the foods, receive them from others or purchase them at the store, just what you most commonly eat.

In a normal week, how many times a day on average are subsistence foods such as salmon, non-salmon fish, moose, caribou, birds, etc. served in your household?

- None - don't use
- less than 1 time per day
- 1 time per day
- 2 times per day
- 3 times per day
- more than 3 times a day
