**SUPPLEMENTARY INFORMATION:****I. Abstract**

Under the provisions of the Alaska National Interest Lands Conservation Act (ANILCA), subsistence harvests by local rural residents are considered to be the priority consumptive use of park resources. Community harvest assessments will support the NPS management priorities at GAAR, WRST, YUCH, WEAR, and ANIA that address consumptive use of park resources by NPS-qualified subsistence users. The information will be used by the NPS, the Federal Subsistence Board, the State of Alaska, and local/regional advisory councils in making recommendations and making decisions regarding the management of fish, wildlife, and plants in the region (e.g., seasons, harvest limits, and which communities have

customarily and traditionally used various resources). The survey will document subsistence activities over the past year (January through December) for each sampled household. The head of household will be asked to respond for each household.

*Background.*—On August 4, 2015, the Commission determined that the domestic interested party group response to its notice of institution (80 FR 24976, May 1, 2015) of the subject five-year reviews was adequate and that the respondent interested party group response was inadequate. The Commission did not find any circumstances that would warrant conducting full reviews.<sup>1</sup> Accordingly, the Commission determined that it would conduct expedited reviews pursuant to section 751(c)(3) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(3)).

For further information concerning the conduct of these reviews and rules

<sup>1</sup> A record of the Commissioners' votes, the Commission's statement on adequacy, and any individual Commissioner's statements will be available from the Office of the Secretary and at the Commission's Web site.
