**This form is used to determine whether
a Privacy Impact Assessment is required.**

Please use the attached form to determine whether a Privacy Impact Assessment (PIA) is required under the E-Government Act of 2002 and the Homeland Security Act of 2002.

Please complete this form and send it to your component Privacy Office. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form. If a PIA is required, the DHS Privacy Office will send you a copy of the Official Privacy Impact Assessment Guide and accompanying Template to complete and return.

A copy of the Guide and Template is available on the DHS Privacy Office website, www.dhs.gov/privacy, on DHSConnect and directly from the DHS Privacy Office via email: pia@hq.dhs.gov, phone: 202-343-1717.

SPECIFIC PTA QUESTIONS

1. Reason for submitting the PTA: New PTA

Introduction

This PTA is being submitted to document the implementation of proposed regulatory changes resulting from President Barack Obama's "Immigration Accountability Executive Action" and DHS Secretary Jeh Johnson's memorandum "Policies Supporting U.S. High Skilled Businesses and Workers" allowing international students in the United States in F-1 nonimmigrant status to extend the period in which they can participate in Optional Practical Training (OPT) if they received or are pursuing a degree in science, technology, engineering or mathematics (STEM) from a Student and Exchange Visitor Program (SEVP) certified school. OPT currently allows international students to remain legally in the United States for up to 12 months after they complete their degree programs for the sake of gaining practical training directly related to the degree program they just completed. International students in the STEM fields are currently allowed a 17-month extension of OPT once their initial 12 months of training are finished. This new rule will allow OPT participants in STEM-related disciplines to extend their OPT from 17 months to 24 months after the completion of the initial 12-month OPT period.

The proposed regulatory changes also affect international students participating in Curricular Practical Training (CPT), which allows international students in the United States in F-1 nonimmigrant status to complete practical training that is required for their degree programs, such as internships and practicums.

The authority for this proposed regulatory change can be found in section 101(a)(15)(F) of the Immigration and Nationality Act of 1952, as amended (INA), 8 U.S.C. 1101(a)(15)(F), which established the F nonimmigrant alien class.

Additional authority for this proposed change is derived from:

- Section 641 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, Div. C, 110 Stat. 3009-546 (codified at 8 U.S.C. 1372), which authorized the creation of a program to collect current and ongoing information provided by schools and exchange visitor programs regarding F and other nonimmigrants during the course of their stays in the United States;
- Homeland Security Presidential Directive No. 2 (HSPD-2), which requires the Secretary of Homeland Security to conduct periodic, ongoing reviews of schools certified to accept F nonimmigrants to include checks for compliance with recordkeeping and reporting requirements. See 37 Weekly Comp. Pres. Docs. 1570, 1571-72 (Oct. 29, 2001); and
- Section 502 of the Enhanced Border Security and Visa Entry Reform Act of 2002, Pub. L. 107-173, 116 Stat. 543 (codified at 8 U.S.C. 1762), which directed the Secretary to review the compliance with recordkeeping and reporting requirements under 8 U.S.C. 1372 and INA section 101(a)(15)(F), 8 U.S.C. 1101(a)(15)(F), of all schools approved for attendance by F students within two years of enactment, and every two years thereafter.

Process Under Existing Regulations

Under the existing program, an international student's Designated School Official (DSO) is responsible

for authorizing participation in CPT or OPT. The DSO or school assumes responsibility of the student's Student and Exchange Visitor Information Systems (SEVIS) record for the duration of the training experience and is required to maintain the student's SEVIS records for at least 3 years after the student ceases to be enrolled full-time. Under the proposed regulatory changes, the DSO and the schools they represent will be required to maintain these records for the full duration of the student's OPT program, including the 24-month extension for STEM students, and for at least three years after the OPT experience is complete.

The existing program requires that all students eligible for OPT file a Form I-765 Application for Employment Authorization no sooner than 90 days prior to their program end date and no later than 60 days after their program end date. OPT participants must also report any changes in their name, mailing address, residential address, employer name, employer address, or employment status to their DSO within 10 days. These reporting requirements do not change with the proposed regulatory changes.

Process Under Proposed Regulatory Changes

President Obama's executive action and Secretary Johnson's memorandum seek to strengthen safeguards for international student and U.S. workers alike by increasing the reporting requirements associated with applying for CPT/OPT and sponsoring a student on CPT/OPT. The proposed regulatory changes would require employers 1) to provide OPT participants in STEM-related disciplines and CPT participants in any discipline with a mentorship, 2) to document the nature and details of the mentorship, and 3) to provide periodic feedback or appraisals of the student's progress and work performance throughout the OPT experience. These requirements will ensure that any mentorship or training experience is relevant to the international student's degree program and that the training experience does not serve as a means of circumventing laws concerning employment and hiring practices.

As a result of the proposed regulatory changes, students who participate in CPT or an OPT STEM extension program will be required to complete a new Mentoring and Training Plan (MTP). Part of this MTP includes evaluation forms that OPT participants must have their supervisors complete and submit to the participant's DSO every 6 months. The MTP also requires employers to furnish information regarding the training experiences they will provide. This information is necessary so that SEVP officials can keep track of where students are completing these mentorships, whether the mentorships are legitimate, what these mentorships entail, and how these mentorships are compensated. Both student and organizational information requested on the MTP is identified in question 4 below.

While the proposed regulatory changes do involve a new collection form (MTP), they do not involve a new program. The MTP improves on the previous CPT/OPT program by increasing employer accountability and introducing safeguards for international students and the employers who train them. This MTP will be retained by DSOs and employers, not the Government.

The ICE Privacy Office is working with the SEVP program office to create an (e)(3) statement to accompany the MTP form pursuant to the Privacy Act of 1974.

Privacy Impact

Although the MTP asks students to provide information that was not previously required, the MTP will be retained by the DSO, not the Government, and the new categories of information collected pose minimal privacy risk if exposed. In addition, it is presumed that the collection and retention of additional

information by the DSO is governed by the educational institutions' own privacy and retention policies.

Below is a break out of the current data fields and new data fields.</p> <p>Current Data Elements Collected:</p> <p><u>Items in Section 1: Student Information</u></p> <ul style="list-style-type: none"> • Student Name (Surname/Primary Name, Given Name)

¹ Informational and collaboration-based portals in operation at DHS and its components that collect, use, maintain, and share limited personally identifiable information (PII) about individuals who are "members" of the portal or "potential members" who seek to gain access to the portal.

² DHS defines personal information as "Personally Identifiable Information" or PII, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual, regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department. "Sensitive PII" is PII, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. For the purposes of this PTA, SPII and PII are treated the same.

³ When data is sent over the Internet, each unit transmitted includes both header information and the actual data being sent. The header identifies the source and destination of the packet, while the actual data is referred to as the payload. Because header information, or overhead data, is only used in the transmission process, it is stripped from the packet when it reaches its destination. Therefore, the payload is the only data received by the destination system.

DHS Privacy Office Comments:	
<p>ICE submits this PTA to correspond with a new rulemaking. This rulemaking will not result in additional information being collected by DHS because DSO retains the information on the MTP. PRIV finds that this rulemaking is privacy sensitive because it does result in additional information being collected from members of the public.</p> <p>This rulemaking is broadly covered under the existing SEVIS PIA. When ICE updates the SEVIS PIA, PRIV recommends ICE consider more specifically discussing this information collection. No additional privacy compliance documentation is required at this time.</p>
