MODERATOR'S GUIDE

Claiming Social Security User Experience Test (Round 2)

Data Collection: November 5-6, 2015

Section 1: Introduction

Thank you for participating in this study today. My name is _____, and I am a researcher with the Fors Marsh Group User Experience Team. Today we will evaluate a website that has information about claiming Social Security retirement benefits and retirement planning. Some of the pages you will interact with are still in development, so not all the links will be clickable and others may have missing elements. If you encounter something that isn't working, please let me know so I can get us back on track.

I will ask you questions and give you some tasks to complete using the website. Your comments and feedback will help the design team improve the site. I am a researcher and did not create the site, so please do not feel like you have to hold back on your thoughts to be polite to me. I'm interested in both your positive and negative reactions to them. Difficulties you may run into reflect issues with the design of the sites, not your skills or abilities. Please keep in mind that I am not testing you or your knowledge. Rather, you are helping us to see how we can improve this site.

The entire session will last about 60 minutes. Do you have any questions so far?

Let's cover a couple things before we get started.

- We are making a video recording of the computer screen during this session, but your name and personal information will not be associated with the recordings.
- I am interested in your thoughts and reactions as we proceed. This is important because I can see what you are doing, but I don't know why you are doing it. So I need your help. While you are working, I would like you to think aloud. I would like you to:
 - Tell me what you are thinking
 - Describe the steps that you are taking.
 - Tell me why you are doing what you are doing, what you are going to do, and why.
 - Tell me why you clicked on a link and what you expect to happen next.
 - Basically, just tell me everything you are thinking as you work.
- There are no right or wrong answers, and your comments and opinions will only be used in combination with the feedback that we get from other people.
- Any questions so far?
- **Before we begin, we'd like to provide you with a copy of our privacy act statement.** Feel free to read it now, if you'd like. Do you have any questions about it?
- Ok, we are ready to begin. I would like you to start by asking you some background questions.
