General Information

Introduction

This document provides the specifications for the English, self-administered version of the Internet instrument for the 2016 Census Test. The instrument will function with a dashboard that is reached after a case is authenticated. The dashboard will direct respondents to complete the necessary sections of the instrument.

Translations and wording for Telephone Questionnaire Assistance will be provided in separate documents. Help text for each screen will also be provided in a separate document.

Input Variables

Variable	Possible Values	Default Value (non-ID cases)
INTERNET_AFRAM	1 = Black or African Am. (Control) 2 = Black or African American	1
INTERNET_RELATIONSHIP	1 = Full list of relationship categories (control) 2 = Remove “roomer or boarder” 3 = Remove “roomer or boarder” and “housemate or roommate”	1
INTERNET_ROSTER	1 = Rules and pop count question 2 = Pop count question with rules in the help text 3 = The “others” question with rules in the help text	3
INTERNET_UNDERCOUNT	0 = No undercount question 1 = 2015 design of two separate questions 2 = One question	1
INTERNET_OVERCOUNT	0 = No overcount question 1 = Person based overcount question	1

Standard Fills

<ADDRESS>	Partial address from RESIDENCE screen if available. Else, partial reference address from input file (street address and apt/bldg number)
-----------	---

<REFDATE>	April 1, 2016
<FULL ADDRESS>	Full address from the input file
<OMB STATEMENT>	<p>The U.S. Census Bureau estimates that, for the average household, this survey will take about 10 minutes to complete, including the time for reviewing the instructions and answers. Send comments regarding this burden estimate or any other aspect of this burden to: Paperwork Reduction Project 0607-#####, U.S. Census Bureau, DCMD-3H174, 4600 Silver Hill Road, Washington, DC 20233. You may e-mail comments to 2020.census.paperwork@census.gov; use "Paperwork Project 0607-#####" as the subject.</p> <p>You are not required to respond to this collection of information if it does not display a valid approval number from the Office of Management and Budget (OMB). The eight-digit OMB number is 0607-#####.</p>
<WARNING MESSAGE>	<p>** WARNING **</p> <p>You have accessed a UNITED STATES GOVERNMENT computer. Use of this computer without authorization or for purposes for which authorization has not been extended is a violation of Federal law and can be punished with fines or imprisonment (PUBLIC LAW 99-474). System usage may be monitored, recorded, and subject to audit. Any information you enter into this system may be used by the Census Bureau for statistical purposes, including but not limited to improving the efficiency of our data collection programs. For information regarding the use of this system, and how your privacy is protected, visit our online privacy webpage at http://www.census.gov/privacy/privacy_policy/. Use of this system indicates consent to the collection, monitoring, recording, and use of information provided inside this system.</p>

Instructions

The instructions, provided from a link on the Dashboard, should include the following:

#1	Who Should Complete the Survey: This survey should be completed by the person who owns or rents the living quarters, or any other person who is at least 15 years of age with knowledge of the household.
#2	Navigation: Use only the “Next” or “Previous” buttons on the bottom of each screen. Do NOT use the Forward or Back buttons on your browser. MOBILE: Use only the forward or back arrows...
#3	Changing Responses: For questions where you must choose a single response from a list, clicking another response will change your answer to that response. If it is a “check all that apply” question, you may click on a selected check box to unselect the box and remove it as one of your answers.
#4	Session Time Limits and Login/Logout: For your security, you will be logged out after 15 minutes of inactivity. If you need to leave the survey for more than 15 minutes, please click “Save and Log Out” so you may return to the survey at a later time. All of your information will be saved. You will need to enter your PIN to resume the survey. Your PIN will be provided to you during the survey.
#5	Help with Survey Questions: If you need assistance on a specific survey question, use the “Help” link that appears with that question.
#6	Submitting your Survey: Once your survey is submitted, you will not be able to access your information or change any of your responses. After you submit your survey and are shown the confirmation page you may close the web browser.

FAQs

Frequently Asked Questions (FAQs), provided from a link on the Dashboard, should include the following:

#1	<u>Q. What is the 2016 Census Test?</u> The 2016 Census Test is a survey that the U.S. Census Bureau is conducting in preparation for the 2020 Census. The goal of this survey is to develop new methods that will make the next census easier, more convenient, and less costly for taxpayers.
#2	<u>Q. Do I have to complete this survey?</u> This survey is mandatory, but will only take about 10 minutes to complete. We are conducting this survey under the authority of Title 13 United States Code Section 193. This survey has been approved by the Office of Management and Budget (OMB). For this survey, the OMB approval number is 0607-XXXX.
#3	<u>Q. Why was I selected for this survey?</u> The U.S. Census Bureau chose your address, not you personally, as part of a randomly selected sample. Your address was selected to represent a cross section of households in your community.
#4	<u>Q. Who should complete the survey?</u>

	<p>This survey should be completed by the person who owns or rents the living quarters or any other person who is at least 15 years of age with knowledge of the household.</p>
#5	<p><u>Q. How do I change my answers?</u> For questions where you must choose a single response from a list, clicking another response will change your answer to that response.</p> <p>If it is a “check all that apply” question, you may click on a selected check box to unselect the box and remove it as one of your answers.</p>
#6	<p><u>Q. How long will it take to complete this survey?</u> The U.S. Census Bureau estimates that, for the average household, this survey will take about 10 minutes to complete, including the time for reviewing the instructions and answers.</p> <p>Send comments regarding this burden estimate or any other aspect of this burden to: Paperwork Reduction Project 0607-XXXX, U.S. Census Bureau, DMD-3H174, 4600 Silver Hill Road, Washington, DC 20233. You may e-mail comments to 2020.census.paperwork@census.gov; use “Paperwork Project 0607-XXXX” as the subject.</p> <p>Respondents are not required to respond to any information collection unless it displays a valid approval number from the Office of Management and Budget. The OMB approval number for this survey is 0607-XXXX.</p>
#7	<p><u>Q. What types of questions will I be asked?</u> In this survey, you will be asked if the housing unit is rented or owned and for the names of everyone living in the household. For each person living in the household, you will be asked for the name, relationship to householder, sex, age/date of birth, race or origin and whether or not the person sometimes lives or stays somewhere else.</p>
#8	<p><u>Q. Do you share my data with other agencies such as Immigration and Customs Enforcement, the Federal Bureau of Investigations, the Internal Revenue Service, courts, or the police?</u></p> <p>No, individual responses are not shared with anyone, including these government agencies or private organizations. It is against the law to disclose or publish any private information (names, telephone numbers, etc.) that identifies an individual or business. We use your information to produce statistics. The personal information you provide here cannot be used against you by any government agency or court.</p>
#9	<p><u>Q. How does the Census Bureau protect my survey data?</u> Federal law protects your information, and we have developed policies and statistical safeguards to help us follow the law and further ensure the confidentiality of your information.</p>

	<p>Federal Law: Title 13 of the United States Code protects the confidentiality of all your information. Violating this law is a crime with severe penalties.</p> <p>Privacy Principles: Our Privacy Principles are guidelines that cover all of our activities. These principles encompass both our responsibilities to protect your information and your rights as a respondent. They apply to the information we collect and the statistics we publish.</p> <p>Statistical Safeguards: Statistical methods ensure that the statistics we release do not identify individuals or businesses. These methods include extensive review and analysis of all our data products, as well as disclosure avoidance methodologies such as data suppression and modification.</p> <p>Your information is confidential and we will never identify you individually. For more information, visit the Census Bureau’s Data Protection and Privacy Policy webpage (http://www.census.gov/privacy/).</p>
#10	<p><u>Q. Is it safe to complete this survey online?</u></p> <p>Yes, for more information, please refer to the FAQ question link, "How does the Census Bureau protect my survey data?" for guidelines on Federal Law, Privacy Principles, and Statistical Safeguards. Additionally, the following policies apply to personally identifiable information provided in an online survey. More information on this topic can be found on the Data Protection and Privacy Policy webpage (http://www.census.gov/privacy/).</p> <p>For each online survey, we are required to provide an explanation to respondents about the confidentiality of the data and the laws that protect those data (e.g., Title 13, United States Code Section 9 (a)).</p> <p>All web data submissions are encrypted in order to protect your privacy, even in the remote chance that your survey responses are intercepted.</p>
#11	<p><u>Q. Will the results be published?</u></p> <p>The Census Bureau plans to make results of this study available to the general public. Results will be presented in aggregate form and no personally identifiable information will be published.</p> <p>Information quality is an integral part of the pre-dissemination review of the information disseminated by the Census Bureau (fully described in the Census Bureau’s Information Quality Guidelines at http://www.census.gov/quality/guidelines/index.html). Information quality is also integral to the information collection conducted by the Census Bureau and is incorporated into the clearance process by the Paperwork Reduction Act.</p>

Logout Verification

If a respondent selects Logout at any time, the following should be displayed for respondents who were provided a PIN:

Are you sure you want to log out?

If you leave now, you will need your PIN or to have answered a verification question in order to log in again.

If you do not want to leave the survey, click [Return to survey].

If you want to log out, click [Save and Log Out].

If a respondent selects Logout at any time, the following should be displayed for respondents who were not provided a PIN:

Are you sure you want to log out?

If you leave now, you will not be able to log in again.

If you do not want to leave the survey, click [Return to survey].

If you want to log out, click [Save and Log Out].

Timeouts

The instrument will time out if a respondent is inactive for 15 minutes. After 13 minutes of inactivity, display a warning: “Your session is about to expire. Press Ok to keep working or you will be logged out.”

Flow Charts

Login

TQA Login

Verify Address

Roster/Home

NonID Address

Non-ID Address Collection

Non-ID Login

Or ANYONE = NO

Or VERIFY = LOGIN ID

Or CQA_VERIFY= NO

Demographics

Dashboard

There will be a dynamic Dashboard that the respondent will return to throughout the survey. It will display different content depending on what survey questions have previously been answered.

For a case that has accessed the survey with an ID, it will first display a “Verify Address” button that will go to the Verify Address path.

For a NonID case, it will display an “Address” button that will go to the NonID address collection path.

Once an address is verified or collected, there will be a “Who lives here?” button that will go to the Roster path.

Once a Roster is collected, each roster name will be displayed. Each name will have a “Start” button that will start the Demographics section for that person. There will also be a “Delete” option. If the questions for that person have been completed, there will be an “Edit” button instead of a start button. If the demographics have been started, but not completed, for that person, there will be a “Continue” button. There will also be an option to add additional people below the list of names.

Once data has been collected for each name, there will be a “Submit” button.

Help Text link	RESIDENCE
Special Instructions	<p>For all rural route addresses, ASD must process the existing fields (RR_DESC, RES_RRNUM, and RES_BOXNUM) into one 40-character VARCHAR2 field called RT_RR_INFO. This field will combine the input from RR_DESC (RR or HC or SR or PSC or RTE), then include one single space as a delimiter, then include the input from RES_RRNUM, then include one single space as a delimiter, then add the word “Box”, then include one single space delimiter, then include the input from RES_BOXNUM. The new field RT_RR_INFO will be stored in the ASD database during address collection, then transferred with the rest of the data at the end of data collection per case. It is not intended for display to the respondent.</p> <p>If respondents provide an address on this screen, this address should be the fill for the “<ADDRESS>” that is referenced on the remaining screens. In other words, the address collected on RESIDENCE takes the place of the sample address provided in the input file (if one exists).</p>

	<ul style="list-style-type: none"> • If the Address Type is Street Address, display the Address Number, Street Name, and Apt/Unit only (e.g., “5007 N Maple Ave Apt. A”). • If the Address Type is P.O. Box, display: “the physical address associated with P.O. Box <Box #> in <city> <state> <zip> (e.g., “the physical address associated with P.O. Box 12 in Any City, MD” or “the physical address associated with P.O. Box 12 in 99997”).) • If the Address Type is Rural Route, display the Rural Route Descriptor, Rural Route Number, and Box Number (e.g., RR 15 Box 24). • If the Address Type is Rural Route (ADDR_TYPE=2) or if the Address Type is P.O. Box (ADDR_TYPE=3), then GEO must automatically set rt_match_status=0 (Did Not Match to a MTdb Record, And Did Not Receive an Automated Geocode). • If ADDR_TYPE = 2 (Rural Route) or 3 (P.O. Box), then GEO must set the rt_match_status flag to “0” (Did Not Match to a MTdb Record, And Did Not Receive an Automated Geocode) • If ADDR_TYPE=1 (Street Address) is set and the response is valid (according to the parameters above), then the ADDR_TYPE of “1” must not be overwritten if the respondent happens to click on the P.O. Box or Rural Route radio buttons. If ADDR_TYPE=1 and the response is valid, then the respondent clicks on other radio buttons, those respective address fields (for P.O. Box and/or Rural Route) should be captured, but ADDR_TYPE=1 should not be overwritten by “2” or “3.” • If ADDR_TYPE=1, and the response is valid (according to the parameters above), then all subsequent actions will be based on that value when “Next” is pressed. <p>The selection of the radio buttons must be hard edited so that at least one radio button must be selected before the “Next” button can be executed. If one isn’t selected then see Edits/Errors above.</p>

	<p>Note: A date is “valid” if the day is between 01 and 31 for the months of January, March, May, July, August, October, and December; or between 01 and 30 for the months of April, June, September, and November; or between 01 and 29 for February when the year is divisible by 4 except 1900 (i.e., 2016, 2012, 2008, 2004, 2000, 1996, 1992, 1988, 1984, 1980, etc.); or between 01 and 28 for February when the year is not divisible by 4 (or if the year is 1900).</p> <p><u>If age is outside of the 0-125 range</u> Display: “Please enter an age between 0 and 125. If you do not know the exact age, provide an estimate.”</p> <p>If age auto-calculates to <0 (for DOB>4/1/2016) or >125 (for DOB<4/2/1890) Display: blank (no age) in the age box along with this error message stacked under the out of range DOB error message: “Please enter an age between 0 and 125. If you do not know the exact age, provide an estimate.”</p> <p>Green Edit Messages <u>If DOB (or Confirm DOB) is totally blank or Month and/or Year are missing or month of birth is reference date month (<REFMONTH>) while day is missing AND age is blank:</u> Display: “Please provide a complete date of birth. If you do not know it, provide what you know. Then enter or confirm age as of <REFDATE>. Estimated ages are acceptable.”</p> <p>Missing data fields for DOB and age should be highlighted in yellow.</p> <p><u>If DOB (or ConfirmDOB) is totally blank or Month and/or Year are missing or month of birth is reference date month (<REFMONTH>) while day is missing AND age is provided in range(0-125)</u> “Please provide a complete date of birth. If you do not know it, provide what you know. Then enter or confirm age as of <REFDATE>.”</p> <p>Missing data fields for DOB should be highlighted in yellow.</p> <p><u>If age is blank while complete in range (18900402-20160401) date of birth (or ConfirmDOB) is provided</u> “Please enter an age as of <REFDATE>. If you do not know the exact age, provide an estimate.”</p> <p>Age box should be highlighted in yellow.</p> <p>If a non-numeric character is entered in AGE: "Please provide age in completed years as of < REFDATE >. Do not round up. Do not enter age</p>
--	--

	in months. For babies less than 1 year old enter 0 as the age."
Branching	Goto RACE.
Help Text link	DOB
Special Instructions	<p>In the Day of Birth drop down for February, the range for February days depends upon whether the year is a leap year. 1-28 when February and year is 1900 or not divisible by 4. 1-29 when February and year is divisible by 4 and not 1900. Currently, the instrument will remove "29" if a respondent selects "February" and a non-leap year. For example, if I chose Feb 29 for the month and day on the instrument. If I then choose a non-leap year for the year, the 29 becomes "DAY" (i.e., blank).</p> <p>After a date of birth has been entered, determine whether age can be calculated. If so, calculate the age and pre-fill it in the age answer space. Allow the respondent to change the number.</p> <p>Calculate the Age if:</p> <ol style="list-style-type: none"> 1. there is a Month and Year of birth, <u>and</u> the Year is between {current year – 126} and current year, <u>and</u> the Month is not reference day month (<REFMONTH >); or 2. there is a Month and Year of birth, <u>and</u> the Year is between {current year – 126} and current year, <u>and</u> the Month is reference day month (<REFMONTH >), <u>and</u> there is a valid entry for Day. <p><i>Note that the final output on the URdbS is numeric only. While we <u>do</u> want the Internet instrument to allow alphanumeric entries, any entries with alpha or symbol characters will be deleted from the final response data.</i></p>
