

Attachment 3: Comparison of Teacher Post-PD Initial vs. Nonresponse Questionnaire Results

This document compares responses from teachers who responded to the initial post-PD questionnaire with the responses from teachers who responded to a follow up non-response post-PD questionnaire. For each question, the number of teachers who responded to the respective questionnaires (n), descriptive statistics (frequencies, means/standard deviations), and significant difference test results are reported. Chi square tests were conducted when the response choices were nominal (e.g., yes/no) and independent t-tests were conducted when response choices were ordinal (e.g., 1-5 point Likert-type). P values are reported to indicate if initial and non-respondent teachers' responses are statistically significantly different (p<.05).

Note: The numbers in parentheses immediately following the response choices, such as (55), (1), (0), are the values assigned to each response.

PDQ6 How long ago did you complete professional development focused on watersheds or water quality issues (also known as a Meaningful Watershed Education Experience professional development or MWEE PD)?

- I did not complete a MWEE PD (55)
- Less than 1 week ago (1)
- 1-2 weeks ago (2)
- 3-4 weeks ago (3)
- 5-8 weeks ago (4)
- 9-12 weeks ago (5)
- More than 12 weeks ago (6)

About PD Please answer all of the following questions based on the last MWEE (watershed education) professional development you participated in.

PDQ19 What was your PRIMARY reason for participating in the MWEE professional development? (check one)

- To obtain information and resources for teaching (1) (Initial questionnaire – 70% / Non-response questionnaire – 65%)
- Personal interest in the topic of the professional development (2) (14% / 9%)
- To obtain continuing education, recertification, or graduate credit (3) (6% / 0%)
- I was required to attend (4) (2% / 9%)
- I was asked to attend (5) (6% / 13%)
