Declined medical evaluation Other, specify Lost to follow-up Other, specify I gm Paired IgG PCR Culture Epi-linked Clinical diagnosis Other, specify Check any of the following potential rubella exposures this person may have had in the 23 days prior to symptom onset: Visited/lives in a country with endemic rubella Exposed to a confirmed rubella case besides the index case on the flight Other, specify						
9. COMMENTS						

Public reporting burden of this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA 0920-0900.
