

*Comment:* The application form should be used by all federal agencies.

*Response:* The current draft application for wireless antenna installations is being processed as a Common Form for use by all federal agencies. Once the **Federal Register** posting process is complete, the application will be submitted to OMB for approval. An application for right-of-way and easements, the SF299 "Application for Transportations and Utility Systems on Federal Land," is already in existence, and its use is required for all federal agencies. The SF-299 was developed by the Departments of Agriculture, Interior, and Transportation.

*Comment:* Moratoria on accepting applications are prohibited.

*Response:* This comment speaks not to the application, but rather to shared policy and procedures to be developed by the executive landholding agencies acting in common in support of the application process. This comment will be taken into consideration; however, no change will be made to the application in response to this comment.

*Comment:* Timely responses to applications are mandatory.

*Response:* It is agreed that timely responses are important; however, the comment speaks not to the application, but rather to shared policy and procedures to be developed by the executive landholding agencies acting in common in support of the application process. No change will be made to the application in response to this comment.

*Comment:* Applications should be "deemed approved" upon passage of time.

*Response:* While timely approval is a shared goal, federal agencies must perform the due diligence required to confirm that implementation of a proposal is in the best interests of the Government and the taxpayer.

*Comment:* Applications should be presumed consistent with each agency's mission and property use.

*Response:* Given the different missions and property uses existent among the executive landholding agencies, it is not clear how making such a presumption is in the best interest of the Government and the taxpayer.

*Comment:* The application form should not implicate a Joint Spectrum Center review for commercial providers of unlicensed wireless services.

*Response:* The decision to use unlicensed wireless services is an internal policy decision to be developed in concert among the executive

landholding agencies in support of the application process. No change will be made to the application in response to this comment.

*Comment:* Applicants may opt in to the rates, terms, and conditions of other providers located at the federal property.

*Response:* This comment speaks not to the application, but rather to shared policy and procedures to be developed by the executive landholding agencies acting in common in support of the application process. No change will be made to the application in response to this comment.

*Comment:* The "Notice of Competitive Procedures" should be posted to FedBizOps.gov upon receipt of an application.

*Response:* This comment speaks not to the application, but rather to shared policy and procedures to be developed by the executive landholding agencies acting in common in support of the application process. No change will be made to the application in response to this comment.

*Comment:* Application forms should be utilized to initiate amendments to existing installations and the applicable lease, easement, or right-of-way.

*Response:* This comment speaks not to the application, but rather to shared policy and procedures to be developed by the executive landholding agencies acting in common in support of the application process. No change will be made to the application in response to this comment.

*Comment:* Executive agencies may utilize easements or leases with 25-year terms for wireless siting requests.

*Response:* This comment speaks not to the application, but rather to shared policy and procedures to be developed by the executive landholding agencies acting in common in support of the application process. No change will be made to the application in response to this comment.

#### C. Annual Reporting Burden

Respondents: 20.  
Responses per Respondent: 1.  
Total Response Hours: 20.  
Hours per Response: 1.  
Total Burden Hours: 20.

#### D. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate and based on valid assumptions and methodology; ways to enhance the quality, utility and clarity of the

information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond through the use of appropriate technological collection techniques or other forms of information technology.

#### *Obtaining Copies of Proposals:*

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Second Floor, Washington, DC 20405, telephone 202-501-4755. Please cite OMB Control No. 3090-00XX, Wireless Telecommunications Company Application, in all correspondence.

Dated: August 21, 2015.

**David A. Shive,**

*Chief Information Officer.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60 Day-15-0960: Docket No. CDC-2015-0073]

#### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing efforts to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on Epidemiologic Study of Health Effects Associated With Low Pressure Events in Drinking Water Distribution Systems.

**DATES:** Written comments must be received on or before October 27, 2015.

**ADDRESSES:** You may submit comments, identified by Docket No. CDC-2015-0073 by any of the following methods:

- *Federal eRulemaking Portal:* [Regulation.gov](http://www.Regulation.gov). Follow the instructions for submitting comments.
- *Mail:* Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and

Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329.

*Instructions:* All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to *Regulations.gov*, including any personal information provided. For access to the docket to read background documents or comments received, go to *Regulations.gov*.

*Please note: All public comment should be submitted through the Federal eRulemaking portal (Regulations.gov) or by U.S. mail to the address listed above.*

**FOR FURTHER INFORMATION CONTACT:** To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact the Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: [omb@cdc.gov](mailto:omb@cdc.gov).

**SUPPLEMENTARY INFORMATION:**

Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means

the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

**Proposed Project**

Epidemiologic Study of Health Effects Associated With Low Pressure Events in Drinking Water Distribution Systems (OMB Control Number 0920-0960, Expiration 3/31/2016)—Extension—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

*Background and Brief Description*

In the United States (U.S.), drinking water distribution systems are designed to deliver safe, pressurized drinking water to our homes, hospitals, schools and businesses. However, the water distribution infrastructure is 50-100 years old in much of the U.S. and an estimated 240,000 water main breaks occur each year. Failures in the distribution system such as water main breaks, cross-connections, back-flow, and pressure fluctuations can result in potential intrusion of microbes and other contaminants that can cause health effects, including acute gastrointestinal and respiratory illness.

Approximately 200 million cases of acute gastrointestinal illness occur in the U.S. each year, but we lack reliable data to assess how many of these cases are associated with drinking water. Further, data are even more limited on the human health risks associated with exposure to drinking water during and after the occurrence of low pressure events (such as water main breaks) in drinking water distribution systems. A study conducted in Norway from 2003-2004 found that people exposed to low pressure events in the water distribution system had a higher risk for gastrointestinal illness. A similar study is needed in the United States.

The purpose of this data collection is to conduct an epidemiologic study in

the U.S. to assess whether individuals exposed to low pressure events in the water distribution system are at an increased risk for acute gastrointestinal or respiratory illness. This study would be, to our knowledge, the first U.S. study to systematically examine the association between low pressure events and acute gastrointestinal and respiratory illnesses. Study findings will inform the Environmental Protection Agency (EPA), CDC, and other drinking water stakeholders of the potential health risks associated with low pressure events in drinking water distribution systems and whether additional measures (e.g., new standards, additional research, or policy development) are needed to reduce the risk for health effects associated with low pressure events in the drinking water distribution system.

We will conduct a cohort study among households that receive water from six water utilities across the U.S. The water systems will be geographically diverse and will include both chlorinated and chloraminated systems. These water utilities will provide information about low pressure events that occur during the study period using a standardized form (approximately 11 events per utility). Utilities will provide address listings of households in areas exposed to the low pressure event and comparable households in an unexposed area to CDC staff, who will randomly select participants and send them an introductory letter and questionnaire. Consenting household respondents will be asked about symptoms and duration of any recent gastrointestinal or respiratory illness, tap water consumption, and other exposures including international travel, daycare attendance or employment, animal contacts, and recreational water exposures. Study participants may choose between two methods of survey response: A mail-in paper survey and a web-based survey.

Participation in this study will be voluntary. No financial compensation will be provided to study participants. The study duration is anticipated to last 30 months. An estimated 6,750 individuals will be contacted and we anticipate 4,050 utility customers (18 years of age or older) will consent to participate in this study. The total estimated annualized hours associated with this study is expected to be 548.

There are no costs to respondents other than their time.

## ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs.)	Total burden (in hrs.)
Households .....	Paper-based questionnaire .....	1,215	1	12/60	243
Households .....	Web-based questionnaire .....	810	1	12/60	162
Utility employees .....	Household listing .....	6	5	3	90
Utility employees .....	Water sample collection (grab samples)	6	3	130/60	39
Utility employees .....	Water sample collection (ultrafiltration samples).	6	2	30/60	6
Utility employees .....	Low pressure event form .....	6	5	15/60	8
Total .....	.....	.....	.....	.....	548

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60Day-15-0307; Docket No. CDC-2015-  
0072]

#### Proposed Data Collections Submitted for Public Comment and Recommendations

**AGENCY:** The Centers for Disease Control  
and Prevention (CDC).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease  
Control and Prevention (CDC), as part of  
its continuing effort to reduce public  
burden and maximize the utility of  
government information, invites the  
general public and other Federal  
agencies to take this opportunity to  
comment on proposed and/or  
continuing information collections, as  
required by the Paperwork Reduction  
Act of 1995. This notice invites  
comment on the proposed extension of  
the information collection entitled *The  
Gonococcal Isolate Surveillance Project  
(GISP)*, which is the only source in the  
United States of national, regional, and  
site-specific gonococcal antibiotic  
resistance information that provides  
information to support informed and  
scientifically-based treatment  
recommendations.

To request more information on the  
below proposed project or to obtain a  
copy of the information collection plan  
and instruments, call 404-639-7570 or  
send comments to Leroy A. Richardson,  
1600 Clifton Road, MS-D74, Atlanta,

GA 30333 or send an email to [omb@cdc.gov](mailto:omb@cdc.gov).

**DATES:** Written comments must be  
received on or before October 27, 2015.

**ADDRESSES:** You may submit comments,  
identified by Docket No. CDC-2015-  
0072 by any of the following methods:

- *Federal eRulemaking Portal:*

Regulation.gov. Follow the instructions  
for submitting comments.

- *Mail:* Leroy A. Richardson,  
Information Collection Review Office,  
Centers for Disease Control and  
Prevention, 1600 Clifton Road NE., MS-  
D74, Atlanta, Georgia 30329.

*Instructions:* All submissions received  
must include the agency name and  
Docket Number. All relevant comments  
received will be posted without change  
to Regulations.gov, including any  
personal information provided. For  
access to the docket to read background  
documents or comments received, go to  
Regulations.gov.

**Please note:** All public comment should be  
submitted through the Federal eRulemaking  
portal (Regulations.gov) or by U.S. mail to the  
address listed above.

**FOR FURTHER INFORMATION CONTACT:** To  
request more information on the  
proposed project or to obtain a copy of  
the information collection plan and  
instruments, contact the Information  
Collection Review Office, Centers for  
Disease Control and Prevention, 1600  
Clifton Road NE., MS-D74, Atlanta,  
Georgia 30329; phone: 404-639-7570;  
Email: [omb@cdc.gov](mailto:omb@cdc.gov).

**SUPPLEMENTARY INFORMATION:** Under the  
Paperwork Reduction Act of 1995 (PRA)  
(44 U.S.C. 3501-3520), Federal agencies  
must obtain approval from the Office of  
Management and Budget (OMB) for each  
collection of information they conduct  
or sponsor. In addition, the PRA also  
requires Federal agencies to provide a  
60-day notice in the **Federal Register**  
concerning each proposed collection of  
information, including each new  
proposed collection, each proposed  
extension of existing collection of

information, and each reinstatement of  
previously approved information  
collection before submitting the  
collection to OMB for approval. To  
comply with this requirement, we are  
publishing this notice of a proposed  
data collection as described below.

Comments are invited on: (a) Whether  
the proposed collection of information  
is necessary for the proper performance  
of the functions of the agency, including  
whether the information shall have  
practical utility; (b) the accuracy of the  
agency's estimate of the burden of the  
proposed collection of information; (c)  
ways to enhance the quality, utility, and  
clarity of the information to be  
collected; (d) ways to minimize the  
burden of the collection of information  
on respondents, including through the  
use of automated collection techniques  
or other forms of information  
technology; and (e) estimates of capital  
or start-up costs and costs of operation,  
maintenance, and purchase of services  
to provide information. Burden means  
the total time, effort, or financial  
resources expended by persons to  
generate, maintain, retain, disclose or  
provide information to or for a Federal  
agency. This includes the time needed  
to review instructions; to develop,  
acquire, install and utilize technology  
and systems for the purpose of  
collecting, validating and verifying  
information, processing and  
maintaining information, and disclosing  
and providing information; to train  
personnel and to be able to respond to  
a collection of information, to search  
data sources, to complete and review  
the collection of information; and to  
transmit or otherwise disclose the  
information.

#### Proposed Project

The Gonococcal Isolate Surveillance  
Project (GISP), (OMB No.0920-0307  
exp. 08/31/2016)—Extension—National  
Center for HIV/AIDS, Viral Hepatitis,  
STD, and TB Prevention (NCHHSTP),
