

# Where in the world?!

Test your public health geography knowledge in this quiz about places CDC has helped to stop diseases! Come to CDC's GIS Day on November 15th at CDC's Chamblee campus to see the answers and find out if you're the winner! GIS Day is a chance to learn about and celebrate the geospatial knowledge and techniques used by groups from around CDC and the Atlanta area. Come and see presentations, lightning talks, and posters produced by geospatial experts! Eat treats from the bake off and mingle with other attendees! Learn all about the geospatial resources available at CDC!

CDC estimates the average public reporting burden for this collection of information is approximately 5 minutes per response. An agency may not conduct or sponsor, and a person is not required to respond to collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden statement or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports and Clearance Officer, 1600 Clifton Road, MS D-74, Atlanta, GA 30333, ATTN: PRA (0923-0047, expiration date 12/31/2018).
