# PATH Study Verification Form

## **START**

Program: Include the specifications below for each Wave 2 household unit, defined as:

(A) Sampled address from Wave 1 for which one or more SPs or Shadow Youth were selected to be in the study and completed a W1 interview and address is still best current address.

-OR-

(B) Address created since Wave 1 data collection closed and prior to fielding for W2 from instances when **all** (one or more) SPs and Shadow Youth originally at a W1 sampled address are found to have moved.

-OR-

(C) Address created during W2 based on Verification Task (VT) data collected at the Wave 2 fielded address and in which we determine one or more SPs has moved from the Wave 2 fielded address (either (A) or (B) above).

-OR-

(D) Address updated at the start of "this" Wave 2 VT based on new address/contact information received from another source, e.g. passed to the Field Interviewer (FI) via Case Alert or obtained via Field Tracing efforts.

(C) and (D) above identified as R02\_AddressType = R02\_NewVerify.

For each SP in the W2 fielded household unit, calculate Wave 2 Expected Event Type:

W2\_ADULT, the SP was an Adult at Wave 1 and is an Adult at Wave 2.

W2\_EXPECTEDADULT, the SP was a Youth at Wave 1 and is likely to age-in to the adult cohort either before or during Wave 2. (HIS, SP Information, Age-in field = Yes or Maybe).

PROGRAM - Exception: If R02\_AddressType = R02\_NewVerify, for R02\_W2\_EXPECTEDADULT who was confirmed as 18+ in the original VT, set SP = W2\_ADULT.

W2\_YOUTH, the SP was a Youth or Shadow youth at Wave 1 and is likely a Youth/Shadow Youth at Wave 2.

Public reporting burden for this collection of information is estimated to average 2 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0664). Do not return the completed form to this address.

**PATH ID:** R02\_VTA00

**Screen ID:**

CONFIRM THAT YOU ARE SPEAKING WITH AN ADULT RESIDENT.

ARE YOU CONDUCTING THE VERIFICATION TASK BY TELEPHONE OR IN-PERSON?

- 1 TELEPHONE
- 7 IN-PERSON

ASK: All

**PATH ID:** R02\_VTA00D

**Screen ID:**

May I please {verify/have} your full address?

IF ADDRESS IS SHOWN, READ ADDRESS ALOUD. VERIFY ALL SPELLING.

IF ADDRESS INFORMATION IS NOT SHOWN, RECORD FULL UPDATED ADDRESS.

STREET ADDRESS

CITY

STATE

ZIP

ASK: If new address collected in Wave 2 VT at fielded address.

PROGRAM: Pre-fill street address city, state, zip with address data collected from original case VT, User should be able to edit OR enter through each field. User should not be permitted to leave the Address Line 1, City, State or Zip fields blank.

PROGRAM: Pre-filled data may include only partial information available for address, e.g. City and State only.

PROGRAM: Display {have} if all address fields are empty (e.g. there is no address data to pre-fill to any of the fields). Else, display {verify},

**PATH ID: R02\_VTA01**

**Screen ID:**

SELECT THE VERIFICATION TASK RESPONDENT.

<p>BOX 7 – END OF LOOP</p> <p>If data has been collected for each SP row instance, N, and updated address information was received for any SP row instance, go to R02_VTA50. Else if data has been collected for each SP row instance N and no updated address information has been received, go to R02_VTA55.</p> <p>Else, go to R02_VTA05 for row instance (N+1).</p>	

**PATH ID: R02\_VTA50**

**Screen ID:**

Before we end, I'd like to summarize some of the updated address information you told me today. I recorded that:

SP Name	New Address Information

ASK: Summary page with data that should be confirmed for each SP, only in instances when new address information was obtained in R02\_VTA12 (or) R02\_VTA13, or other known information was obtained in R02\_VTA17.

If new address info was obtained for some but not all SPs, display only those SPs for which updated address information/known information was obtained in R02\_VTA10X/R02\_VTA12 (or) R02\_VTA13 (or) R02\_VTA17.

Else, skip R02\_VTA50 and go to R02\_VTA55..

1 CONFIRM  
7 EDIT

GO TO BOX 9  
GO TO BOX 8

PROGRAM: Confirm each person's info one (row) at a time at the very end of the instrument (after the end of all SP Loops.)

PROGRAM: Loop through and display information for each row, user must select 1 = Confirm or 7 = Edit for each SP row instance in the table. If User selects option to edit, go to Box 8.

#### BOX 8

If R02\_VTA50 = 7 for said SP instance, display the following logic check table – hard error:

SELECT ANY ROW FROM THE LIST BELOW TO GO BACK AND EDIT THAT ITEM.

UPDATE INFORMATION WHERE NEEDED:

SP Name (Disable/disallow any edit name functionality)

New Address Information (Able to Edit and go to R02\_VTA05 (or) R02\_VTA10 (or) R02\_VTA12/13 (or) R02\_VTA17.

PROGRAM: Display Box 8 with one SP's data at a time and only if R02\_VTA50 = 7 for said SP. Allow user to select row, then click to change the response given to one or more fields for the associated SP row instance.

PROGRAM: If any one value in any SP instance row is changed, always redisplay R02\_VTA50 for the associated SP. Allow for multiple loops to edit the fields. R02\_VTA50 must be confirmed (response option = 1) for each SP instance for which there is new address information before continuing.

#### BOX 9

Once data has been confirmed for each SP instance for which updated address information was obtained, go to R02\_VTA55, Else, return to R02\_VTA50 for row instance (N+1).

**PATH ID: R02\_VTA55**

**Screen ID:**

{TRY TO SCHEDULE ANY SP APPOINTMENTS, AND THEN DOCUMENT THE APPOINTMENT IN AN EROC. TRY TO TRANSITION DIRECTLY TO SP LEVEL DATA COLLECTION TASKS. }

PRESS 1 TO RETURN TO IMS.

1    EXIT

GO TO END

ASK: When Loop for each SP instance has been completed (or) all fields for all SPs in R02\_VTA50 have been confirmed.

PROGRAM: If R02\_VTA00 = 1, DISPLAY "TRY TO SCHEDULE ANY SP APPOINTMENTS, AND THEN DOCUMENT THE APPOINTMENT IN AN EROC." If R02\_VTA00 = 7, DISPLAY "TRY TO TRANSITION DIRECTLY TO SP LEVEL DATA COLLECTION TASKS. "

END
