

YELLOWSTONE VISITOR SURVEY

GEOFENCED ROADWAY SURVEY

TABLET OPENING SCRIPT

“Hello, I am conducting a study for Yellowstone National Park on visitor experiences throughout their time in the park. We would like for you to use this tablet for today only. As you drive throughout the park, the tablet will automatically prompt you to respond to a few questions about your experience. The tablet is also equipped with a GPS that will track your movement through the park. We are doing this because we are interested in the most popular routes taken to get to certain destinations in the park and to also understand which areas in the park people visit the most and what their experiences are when they are there. This information is completely anonymous and will never be connected to you personally. The number of questions you answer is dependent on the route you take. It should take you no more than 60, 40 or 15 minutes depending on the route you take today to complete all of the questions you will be prompted to answer throughout the day. This is not intended to be intrusive, instead it is intended to provide park managers a better understanding of where management efforts should be focused to improve the visitor experience. At the end of the day, you can return the tablet at one of the five visitor center locations (Old Faithful, Mammoth, Fishing Bridge, Canyon Village, or Grant Village) or at the West Entrance (nearest to West Yellowstone, MT) or North Entrance (nearest to Gardiner, MT) there will be a volunteer there to receive it or a place designated where you can safely leave it.

➔ If the visitor says **YES**: [continue by reading the following statement regarding the Paperwork Reduction and Privacy Act.]

➔ If **NO** - interviewer will thank the visitor and ask non-response bias question. [The surveyor will ask the four non-response bias questions below and record observable characteristics (gender, age category, children in group) on the log sheet]

1. **“What language would you prefer to use in the park?”**
2. **“How many adults, 18 years and older, are in your group?”**
3. **“How many children (under 18 years) are in your group?”**
4. **“Over the past three years, how many visits have you made to Yellowstone National Park?”**

PAPERWORK REDUCTION and PRIVACY ACT STATEMENT: The Paperwork Reduction Act requires us to tell you why we are collecting this information, how we will use it, and whether or not you have to respond. We are authorized by the National Park Service Protection Interpretation and research in System (54 USC §100702) to collect this information. The routine uses of this information will be for the benefit of NPS Managers and Planning staff in Yellowstone National Park (YELL) in future initiatives related to the visitor use and resource management within the site. The data collected will be summarized to evaluate visitor uses and expectations during their visit at YELL. Your responses to this collection are completely voluntary and will remain anonymous. You can end the process at any time and will not be penalized in any way for choosing to do so. All contact information collected for the purpose of the follow-up survey will be destroyed at the end of the collection period and no personal identifiable records will be maintained or stored for any purposes. Data collected will only be reported in aggregates and no individually identifiable responses will be reported. A Federal agency may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB Control Number (1024-0224). We estimate that it will take about 6 minutes to complete this on-site questionnaire. You may send comments concerning the burden estimates or any aspect of this information collection to: Dr. Jake Jorgenson, Senior Research Analyst, RRC Associates, 4770 Baseline Road, Ste 360, Boulder, CO 80303; 303-396-1625 (phone) jake@rrcassociates.com (email); or Phadrea Ponds NPS Information Collection Coordinator at pponds@nps.gov (email).

PART 2: GEOFENCING ROADWAYS SURVEY

Thank you for agreeing to participate in our study about Yellowstone National Park visitor experiences. Please review the instructions provided on the tablet for using and navigating the application, and place the tablet in a safe location while you’re traveling. Depending on your route in Yellowstone, the surveys will take you between 15-60 minutes. Longer routes throughout the park will take 60 minutes, medium distance routes 40 minutes, and short routes will take 15 minutes. You will be prompted to complete an opening survey about your trip characteristics and demographics after completing the initial setup.

Please place the tablet in a safe location while you are traveling. If you are driving, do not use the tablet until you reach a stopped, safe, and secure location.
