Introduction

Westat is conducting this project on behalf of the Bureau of Justice Statistics (BJS) as part of efforts to redesign the National Crime Victimization Survey.

On each screen, you will be asked about experiences that have happened to you recently. Click on your answer or type in an answer, and then click the NEXT button to continue to the next screen. You can skip any question you don't know the answer to or prefer not to answer by leaving the question blank and clicking the NEXT button.

(UT ONLY) The interviewer will observe you as you complete the survey and will occasionally stop you to gather feedback on the screen or on how you came up with your answer.

INTRODUCTION

Thank you for taking the time to help us today. The session will take approximately an hour and a half. I'll give you a little background on what we'll be doing today.

Westat is working with the Bureau of Justice Statistics, which is part of the U.S. Department of Justice. We are interested in how people think about different experiences that may happen to them to help us test questions that may be used on the National Crime Victimization Survey. The NCVS is administered every year nationwide and collects information on people's experiences with crime and victimization. (YOUTH: Anyone age 12 or older is eligible to be selected for this national survey.) The goal of this interview is to get your feedback on the online survey to make sure it is easy to understand and navigate and that the questions make sense to you.

Today, I am going to ask you to go through the whole questionnaire as a survey respondent. (REMOTE INTERVIEWS: In a moment, I'm going to pass control over to you.) I am going to watch you as you do this and will take some notes as you go through the survey. Every now and then, I will stop you and we'll talk about what you are seeing on the screen or how you decided on your answer to the question. If anything is confusing for you, or if you're not sure how to answer a question or are unsure what to do next, just tell me.

This is a research project and your participation is voluntary. You can skip any question and you can stop at any point. We would very much appreciate your permission to (IN PERSON: audio record/REMOTE: audio and video record) this conversation. The recording will be used for note-taking purposes only and may be (listened to/watched) only by members of the project or the BJS staff. It will be destroyed when the project is over. When we are finished, we will give you (ADULTS: 60/YOUTH: 40) dollars to offset the cost of your participation.

INFORMED CONSENT

ADULTS: HAND THE CONSENT FORM TO PARTICIPANT, ANSWER ANY QUESTIONS, AND OBTAIN CONSENT BEFORE CONTINUING. This form contains more information about the research and your rights in this interview. Please read it over and let me know if you have any questions. (ANSWER QUESTIONS) If you are willing to take part in the study, please sign both copies. One copy is for you, and I will hold onto the other.

YOUTH: HAND THE ASSENT FORM TO PARTICIPANT, ANSWER ANY QUESTIONS, AND OBTAIN VERBAL ASSENT BEFORE CONTINUING. This form has more information about the research and your rights in this interview. Let me know if you have any questions. (ANSWER QUESTIONS) If you are willing to take

Research participants needed (Adults receive \$60, Youth receive \$40)

Westat is seeking youth (age 12-17) and adults (18 years and older) to help test some survey questions to be used in a national household crime survey. We are looking for individuals who have been a victim of a crime or an attempted crime within the past 12 months. The in-person interview will take about 90 minutes and will be held at Westat in Rockville, MD. Participants in the study will be paid cash to help offset the costs of participation.

- Adults will receive \$60.
- Youth (ages 12-17) will receive \$40.

In the interview, participants will be asked to answer and give their reactions to an online survey. The information you provide will be shared only with those working on the survey and you will not be put on any marketing or mailing list.

If you are interested in participating and have been the victim of a crime or an attempted crime, please call 1-855-414-9253, say you are calling about the national household crime survey, and provide your name, phone number, and a good time to reach you.

Someone from Westat will contact you and ask some questions to determine if you are eligible. Please understand that we may not be able to interview everyone who contacts us.

Consent to Participate in an Interview

Purpose: We are inviting you to participate in a research activity. The research involves answering an online survey about crimes you may or may not have experienced. You will then be asked for feedback on your experiences filling out the questionnaire and how you understood the questions. The feedback will help us improve the survey.

Sponsorship: Westat is conducting this project on behalf of the Bureau of Justice Statistics (BJS).

What is involved: We will be asking you to complete an online survey about different types of crimes you might have experienced. We ask you some questions about how you understood the questions and if the online survey was easy for you to fill out. Participation in this research project is voluntary, and you have the right to stop at any time or to refuse to answer any question. The session will take approximately one and a half hours.

Confidentiality: We would like to record the interview. Sometimes it is helpful to review a portion of a recording as we make recommendations for improving the survey. If the recording is reviewed later, it will only be by a few Westat staff and possibly the client (BJS). If you choose not to have your interview recorded, that's okay, but we would like take notes to make sure that we don't miss anything that you say.

To help keep everything private:

- Your name will not be recorded on the interview notes or reported in any reports.
- Everything that you say will be confidential – that is, no one outside the research team will know what you told us.
- The things you say may be put in a written summary of this interview. Your name will not be linked to any of your responses, though we may include quotes that you provide in our reports.

Benefits and risks: There are no known benefits for you to take part, but your answers will help us improve the survey. There is a risk that some of the questions that we will ask you to talk about are about private and sensitive things that may bother you. If thinking about the questions upsets you or makes you sad, you may want to talk with a counselor. We will provide you with a list of resources at the end of the interview.

Questions: If you have any questions about the study, you can call Pamela Giambo, the project coordinator, at 240-453-2981. If you have questions about your rights and welfare as a research participant, please call the Westat Human Subjects Protections office at 1-888-920-7631. Please leave a message with your full name, the name of the research study that you are calling about (The N.C.V.S Redesign), and a phone number beginning with the area code. Someone will return your call as soon as possible.

You will be paid \$60 cash to help offset the costs of participation.

Please indicate your choice by checking one of the boxes below and signing and dating the form.

- Yes**, I agree to talk about questions that might be asked on a national survey and agree to be recorded.
- Yes**, I agree to talk about questions that might be asked on a national survey but do not agree to be recorded.

Parental Permission Form

The Bureau of Justice Statistics is preparing to conduct a national online survey that collects data on different types of crimes. We are testing the questionnaire with youth (12-17) to make sure the online survey is easy to use and makes sense to youth.

We would like your child's help by having him/her fill out the online survey and giving feedback on filling it out. These questions will be used to collect data on different types of crimes that may or may not have happened to your child. We are interested in whether your child understands the questions and if the online survey is easy for him/her to complete. This will help us figure out whether the survey is ready to be given to youth around the country. Your child's participation in this research project is voluntary, and your child has the right to stop at any time or to refuse to answer any question. You will not be allowed to sit in on or observe your child's interview.

We would like your permission to ask your child to participate in the interview. If you (and your child) agree, he/she will spend about an hour and a half filling out the survey and talking with a Westat researcher about the questions. He/she will receive \$40 when we are finished to help offset the cost of participation.

It is entirely up to you whether we ask your child to participate, and then it is up to your child – your child does not have to do this. If your child agrees to do the survey, he/she can stop answering questions at any point. If there is a question that your child does not want to answer or talk about, he/she can skip it.

In order to have a complete record of all comments, we would like to audio-record the interview. Recordings allow us to carefully review the discussion and draw the proper conclusions. If you or your child choose not to have the interview recorded, that's okay, but we would like take notes to make sure that we don't miss anything.

To help keep everything private:

- Your child's name will not be recorded on the interview notes or reported in any reports.
- Everything that he/she says will be confidential – that is, no one outside the research team will know your child's answers.
- The things your child says may be put in a written summary of the interview. Your child's name will not be linked to any responses, though we may include quotes that your child provides in our reports.
- Information collected during the interview will not be shared with anyone else outside of the research team (this includes parents, your child's school or the authorities).

There are no known benefits to taking part, but their answers will help us improve the survey. There is a risk that some of the questions that we will ask your child to talk about are about private and sensitive things that may bother them. If thinking about the questions upsets or makes your child sad, he/she may want to talk with a counselor. We have provided a list of resources on the back of this form and will also provide those resources to your child.

If you have any questions about the study, you can call Pamela Giambo, the project coordinator, at 240-453-2981. If you have questions about your child's rights as a study participant, you can call Westat Human Subjects Protections office at 1-888-920-7631. Please leave a message with your full name, the name of the research study that you are calling about, the N.C.V.S. Redesign, and a phone number beginning with the area code. Someone will return your call as soon as possible.

Please indicate your choice by checking one of the boxes below and signing and dating the form.

- Yes**, I give my permission for you to ask my child to meet with a Westat researcher to talk about questions that might be asked on a national survey and agree that the interview can be recorded.
- Yes**, I give my permission for you to ask my child to meet with a Westat researcher to talk about questions that might be asked on a national survey but do not want the interview to be recorded.

Youth Permission to be in a Research Study

The Bureau of Justice Statistics is preparing to conduct a national online survey that collects data on different types of crimes. We are testing the questionnaire with people under the age of 18 to make sure the online survey is easy to use and makes sense to youth.

We would like your help today by showing you some of the questions that we would like to add to the survey. These questions will be used to collect data on different types of crimes that may or may not have happened to you. We are interested in whether you understand the questions and if the online survey is easy for you to fill out. This will help us to improve the survey and figure out whether it is ready to be given to youth around the country.

If you agree to participate, we will spend about an hour and a half talking about the questions and you will receive \$40 when we are finished to help offset the costs of participation. Your parent already gave us permission to talk with you. But the decision to participate is completely up to you.

You do not have to take part in this study – your participation is completely voluntary. If you agree to take part, you can stop answering questions at any point. If there is a question that you do not want to answer or talk about, you can skip it. There is no penalty for skipping any answers. Ask if you are not sure how to skip a question.

In order to have a complete record of all comments, we would like to audio-record the interview. Recordings allow us to carefully review the discussion and draw the proper conclusions. If you choose not to have your interview recorded, that's okay, but we would like take notes to make sure that we don't miss anything that you say.

To help keep everything private:

- Your name will not be recorded on the interview notes or reported in any reports.
- Everything that you say will be confidential – that is, no one outside the research team will know your answers.
- The things you say may be put in a written summary of this interview. Your name will not be linked to any of your responses, though we may include quotes that you provide in our reports.
- Information collected during the interview will not be shared with anyone else outside of the research team (this includes your parents, your school, or the authorities).

There are no known benefits for you to take part, but your answers will help us improve the survey. There is a risk that some of the questions that we will ask you to talk about are about private and sensitive things that may bother you. If thinking about the questions upsets you or makes you sad, you may want to talk with a counselor. We will provide you a list of resources at the end of the interview.

If you have any questions about the study, you can call Pamela Giambo, the project coordinator, at 240-453-2981. If you have questions about your rights as a study participant, you can call Westat Human Subjects Protections office at 1-888-920-7631. Please leave a message with your full name, the name of the research study that you are calling about, the N.C.V.S. Redesign, and a phone number beginning with the area code. Someone will return your call as soon as possible.

Please indicate your choice by checking one of the boxes below.
