Dear Employer,

Welcome to the Occupational Employment Statistics Internet Data Collection Website. The OES program collects data from a sample of establishments and calculates employment estimates by occupation, industry, and geographic area. This covers all industries. Data are collected by the State Workforce Agencies in cooperation with the Bureau of Labor Statistics. The OES program estimates employment and wages for over 800 occupations once a year for all 50 States, the District of Columbia, and Puerto Rico. The OES program also provides national and wage estimates for the nation as a whole, Metropolitan Statistical Areas, and counties.

Thank you for participating in the OES survey.

If you need a new OES form, please click on the "Get New Form" link below. The "Thank You" page after submission will provide you with the option to download a new form.

Warning

Time Limit Warning

- To ensure the security of your data, your session will time out after 30 minutes. **This includes time spent selecting occupations and entering wages.**
- Nothing is saved on our website. OES does not receive your data until the "submit" button is selected. If your session expires, you will have to log on to the website again and reenter the data.
- You will be warned when 5 minutes remain in your session, and given the chance to extend your session for another 30 minutes.
- If you are interrupted when entering data, you can submit some data now, and enter the rest later. However, you will not be able to view the data you entered previously, so you should note where you left off.

An Easier Option for Submitting Your Data Online

Many respondents find it easier to create their own spreadsheet with job titles and wages (or export a file with this information from their payroll software), and submit that using the secure file upload option, which is part of our online system. If you choose this option, we will assign occupational codes and wage ranges for you.
