

The assurance of confidentiality provided to the respondents for this information collection is provided by: (a) The Ombudsman statute and mandate as established by Homeland Security Act Section 452;(b) Privacy Act of 1974; and (c) The DHS Privacy Office has reviewed the entire package of documents for this information collection. This collection is covered by a Privacy Threshold Assessment adjudicated by the DHS Privacy office on March 26, 2015. The Ombudsman Customer Satisfaction and Needs Assessment Survey will be in compliance with all applicable DHS Privacy Office, DHS CIO, DHS Records Management, and OMB regulations regarding data collection, use, storage, and retrieval. The proposed public use data collection system is therefore intended to be distributed for public use primarily by electronic means with limited paper distribution and processing of paper forms.

The Ombudsman Customer Satisfaction and Needs Assessment Survey has been constructed in compliance with regulations and authorities under the purview of the DHS Privacy Office, DHS CIO, DHS Records Management, and OMB regulations regarding data collection, use, sharing, storage, information security and retrieval of information. In accordance with the Privacy Act of 1974, the Department of Homeland Security is giving notice that it proposes to establish the Department of Homeland Security system of records notice titled, "The Ombudsman Customer Satisfaction and Needs Assessment Survey System of Records." This system of records will continue to ensure the efficient and secure processing of information to aid the Citizenship and Immigration Services Ombudsman in assessing the needs of customers to improve Ombudsman services and offer more efficient and effective alternatives. This system will be included in the Department of Homeland Security's inventory of record systems. This is a new collection.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
